**The authors of the *New York Times* bestseller *Awkward Family Photos* are back with a hilarious tribute to the unbreakable and sometimes uncomfortable bond between people and their pets.**

There are few things more rewarding than having a pet. They love us unconditionally, shower us with attention, and because of them, we actually live longer. So, what can possibly be awkward about our animal BFFs? Well . . . nothing. In fact, we're the awkward ones. We adore our pets, but let's face it—sometimes L-O-V-E makes us go a little overboard. Like giving them middle names, throwing them elaborate birthday parties, and making them a Christmas sweater to match with the rest of the family. Truth is, what they cherish most is our companionship. And maybe that's the reason we care about them so much—because for such simple pleasures, they allow us to be as awkward as we want.

**Munny says**

idk i did not read it i do not know

**Jessica says**

I gave it to stars because there is not a lot of text to rate it as a book. But really my husband and I had fun looking at the pictures and cracking up, while drinking a glass of wine together!

**Chani says**

Gave me a laugh when I needed one. Mostly sweet and silly pictures of our fur and feather babies.

My first reaction was LOL ! What are these peoples thinking? A possum, really? These aren't those cute pictures of your kid who fell asleep on the dog. A lot of these are portraits, professional photography of pets in family photos. Some are Laugh Out Load moments. This book is quite entertaining.

### **????? says**

it's nice , but i still love animals as long as they are in their normal places \_ outside the house .

MY THOUGHTS  
ABSOLUTELY LOVED IT

THIS BOOK CURED MY HEADACHE.

It also made me laugh uncontrollably. And, seriously, I did have a terrible headache when I started to read this one, but by the time I finished, I was laughing so hard that I completely forgot that my head hurt.

The overall concept of the book is pretty simple, take some family photos from the earlier decades and pair them with funny captions. The majority of them really made me laugh and they even included some chickens with a family. For some reason, people taking pictures with their chickens (ok, there were a few roosters in there too), just seemed horribly funny to me at the time. There is a section devoted to birds, cats, dogs, farm animals and reptiles. Interspersed between the pictures are little essays from a vet and from the picture subjects explaining the photograph. This would make an excellent gift for any pet lover who has a skewed sense of humor.

Great coffee table book. Only took me about an hour to read, but that wasn't even necessary. I didn't find that the blurbs at the beginning of the chapters really added anything to the book. The pictures, as they say, are worth far more. I can't believe some of the poses, some of the pets, some of the, well, other stuff.

### **Tina says**

A fantastic title for anyone who loves their pet and owns a coffee table.

From the people that brought you [awkwardfamilyphotos.com](http://awkwardfamilyphotos.com) and [awkwardfamilypetphotos.com](http://awkwardfamilypetphotos.com), they bestow upon you the book form of the latter, filled to the brim with awkward people and pets looking chagrined. Really, you're either going to love something like this or you're going to hate it. If you hate it, I'm pretty sure you don't have a soul. Because really, who doesn't like to gaze upon picture after picture of

horribly awkward people inflicting their deep-seated dorkiness onto their non-human loved ones? It'll give you the chance to laugh, even for just a moment, as you project the horror onto someone other than yourself. That is, after you fix the antlers on your dog.

There's really not much to say about AWKWARD FAMILY PET PHOTOS other than poor animals and hilarious people. It's nice to know that people can laugh at themselves. Because when it's 1986 and you're posing with your cockatiel and you both have matching hair, if you can't laugh at that, you're going to give yourself an ulcer.

AWKWARD FAMILY PET PHOTOS would make a great Christmas gift for the jokester in your family, or a super stocking stuffer for anyone. Image the conversations that would ensue with this book lying about on your coffee table. You might find far more out about your neighbor than you were willing to live with. But that's okay. That's what evergreens are for. Really high evergreens.

With quirky commentary and photos so epically awkward they're have you laughing until you cry, AWKWARD FAMILY PET PHOTOS is something you not only need to buy for yourself, but for all of your loved ones. If they don't appreciate it, see above re: soul.

Pretty entertaining. A vaguely alarming factor when you recognize that some of the photos are not far off from what you and your family have taken with your own pets...

---

### **Elizabeth says**

Um, guilty pleasure? Somehow more satisfying than the website and cheers to those willing to submit photos.

### **Lynn says**

It was fine.
