Don't usually like historical fiction to cross paths with my mysteries but this was quite good. Intersting plot, and a gutsy heroine made for a pleasant read.

I am enjoying this series but there are two caveats. First off, ditch the character of Jack. He is totally useless except to remind people what men's attitudes towards women at this time. Marry him off to Nancy and let them go live in their vine covered cottage somewhere away from Edinburgh. He adds NOTHING to the books. Secondly, the author goes to great length to talk about how Rose still hopes her husband Danny is still alive and one day he will walk in the door. She refuses to acknowledge that she is a widow and still considers herself married. So how does she reconcile this attitude to the fact she is having sex with Jack? She thinks she is married but commits adultery with another man? It certainly would be interesting for Danny to walk in the door and find her and Jack in bed! Explain that one Rose!

I like the character Rose McQuinn. She is independent, lives alone, is a young widow, and rides a bicycle at a time when women didn't. The daughter of a police inspector, she is a relentless sleuth who like a dog with a bone. Her "male friend not fiance" Jack Macmerry (quite a name) discourages her detective work, and often doesn't believe her assertions. But in this story, Rose is, of course, in all her suspicions, but doesn't solve the mystery until the very end. I like this series because it's set in Edinburgh, and there are enough details about the city to make me happy.

Really 3.5. Pleasant and a quick read but nothing outstanding.

I really, really liked this book. The writing can be described as a combination of MC Beaton and Victoria Thompson. The storyline was really good and flowed exceptionally well. I was kind of sad when I researched to throw other Rose McQuinn books on my TBR to learn there is only one more.

Deanne says

I like Rose, she's been through a lot, and yet she's pulled herself together. Her family seem not to realise what's been happening to Rose, her father hasn't even found the time to write a letter. There's a man in her life and she has an interesting home and a deerhound to keep her company. Rose a female detective spends most of her time being patronised by the men in her circle, could understand if she threw something but she appears to have the patience of a saint, come on Rose lob a cup at Jack. Apart from that there's an entertaining murder mystery, with a well thought out plot.
