## Frankie & Al Sue Brown

Dumped by his boyfriend, Frankie Mason goes out with the girls, gets totally trashed, and ends his night by falling in front of a taxi. He's rescued by a man with beautiful green eyes who takes care of him until he's put into an ambulance. Frankie curses himself as he realizes he doesn't have the man's phone number. Still in pain a few days later, he is dragged out to a club only to be saved by Green Eyes once more. This time, he isn't letting the man go.

Unfortunately Frankie has to attend a team-building exercise, nicknamed Womb Weekend, organized by his company. Al is working so he doesn't mind, until he discovers who the team leader is. Al has a lot of explaining to do!

## From Reader Review Frankie & Al for online ebook

### Mimi says

2.5 stars I do not know what the hell I am reading, this book is all over the place and the story line makes no sense what so ever. I have read the other books in the series and this is the only one that has left me so disappointed. I love Sue Brown but I'm not sure she thought out the plot well enough when she was writing this one. Since I read the books out of order (Anthony and Leo, Jordan and Rhys then Marchant and Ed) it seems to me that she really didn't need to write a story about Frankie and Al. I know that Frankie is part of Ed's story but she could have made Ed's book longer to introduce Frankie and Al. Not write a short novella about them. I understand how characters come alive in your mind when you are writing but these are not developed enough to stand on their own.

Ends 11/4/14 - 10a EST

---

### Nic says

I enjoyed this story. Easy to read with nice appealing characters. I related to the corporate components of the story - I'm sure I've worked in an office just like Frankie's and been sent off to similar team-building retreats! The stand out for me was the humour in the story. Frankie was cute and Carol was a blast. I wasn't overly sold on the relationship between Frankie & Al but they were good together, making this a light and fun, easy read.

---

### Trisha Harrington says

**3.5 stars.**

I liked the MC's.

I enjoyed the relationship between them.

I laughed a couple of times.

And two of the secondary characters were great.

Frankie and Al was a nice story, a bit shorter than I would have liked and the ending left me hoping there would be even a small follow up. Just to hear those three words from Al too.

---

### **R \* A Reader Obsessed \* says**

Self proclaimed twink Frankie has sworn off relationships, believing being single and having fun is the best way to live. That is until he's rescued thrice by "Green Eyes" Al.

This was a lot fast in the insta-love, a little rough around the edges, simple and uncomplicated. Entertaining enough.

---

### **Rosa, really says**

Short, sweet, Brit lit fix.

---

### **Heather K (dentist in my spare time) says**

What can I say about this novella? I'll describe it in three words: **Cute, British, rushed.**

My first book by Sue Brown and it was a very pleasant experience. This was a fun story with tons of British lingo (*Manky* being my favorite), and a nice little relationship between the two MCs.

Was it very memorable? *Not really.*

Did I think that Al was a bit too stalkerish and bossy? *A little.*

Did the relationship between the guys seem to progress too quickly? *Yes, I think so.*

Did it seem odd how often Frankie & Al ran into each other? *Very.*

Did I enjoy the story? *For sure.*

This is one of those stories that kind of slips away from you as soon as you are done with it. It was sweet and cute, a recommended read, but nothing that left a lasting impression. However, I'll be reading more from this author in the future, to be sure.

### **Pjm12 says**

Frankie initially is very funny and adorkable. Even though he's been treated badly he picks himself back up and keeps going.

His interactions with both work mate Charlotte and later on, Carol are just as much as fun as when he jokes

around with bff, Johnno. The girls hold their own.

Al is introduced strangely, but his stalkery, domineering ways are balanced with his care for his mother and protectiveness of Frankie, so I was happy that he found and fell for Frankie even if it was quick and dirty.

Frankie's fall informs the rest of the narrative. He is stuck literally and emotionally while he sorts through what Al means to him.

The tone moves from humourous, gently mocking to sadness, allowing Frankie to be the strong one for Al.

Well written and satisfying.

---

### **Anke says**

Nice, fun little story. I liked Frankie a lot, he totally came to life, contrary to Al, who remained a bit aloof. I couldn't really see Al's 'dominant side'. I felt a bit ambivalent about their falling in love; on the one hand I think it was too fast and I couldn't really see what it was that Frankie fell in love with. On the other hand it bothered me that Al didn't say ILY back.

---

### **Silkeeeeeereads says**

Nice, cute, cotton candy read. It is a British story but not some much that you have to look up what things mean. Insta-love between a klutz and an overly protective guy.

---

### **Candice says**

[The part with Jonni and Al, what purpose did that serve, made no sense. (hide spoiler)]

---

### **Debra says**

#### **3.5 stars**

This was a quick, fun no angst read. Al keeps finding Frankie when he is not at his best. Frankie doesn't remember their first meeting but after the second/third meeting, he isn't going to let the man with the gorgeous green eyes get away again. Funny, sarcastic Frankie is the stand out character here that kept me smiling through the story. Al is a bit overly possessive, but clearly has Frankie's best interests at heart.

---

### **Sara says**

This story was exactly what I needed. Light, fun, sexy and easy to read.

I loved Frankie and his perchance for disaster. If he didn't have that quirk, how could Al come to his rescue time and again. Al is strong, possessive and determined and what's hotter than that? Sure, this is total insta-love but that was what I wanted, I wanted the low angst and the instant attraction to all consuming passion and love and that's what I got.

"Is it always going to be like this?"

"Like what?"

"You making decisions for me?"

"Yes."

"What if I don't like it?"

"But you do like it, don't you?"

"Yeah."

---

### **Mandy\*reads obsessively\* says**

I loved the blurb for this one, it sounded like a cute, fun little read. And that it was.

Frankie seems to always need rescuing when Al is near. And Al is more than happy to save Frankie and while he's at it, he might as well kiss him.

*Now why does no one ever help me out like that? Hmmm...*

Anyway, it's a little fast in the relationship department and a lot cute, Frankie is funny and endearing and dare I say clumsy or maybe just unlucky in walking?

And Al is a bit domineering and possessive of Frankie, and Frankie of course, loves it.

So all in all a quick light read, perfect for a little pick-me-up.

---

### **Susan Laine says**

Frankie is accident-prone, plus he's been dumped by his boyfriend with a text and has had too much to drink. Naturally, at his lowest point, that's when he meets the perfect man. And that's just the start of the story.

Most of the story, Frankie's physically broken, his hip making his life hard. That, plus the dick at the office and the mandatory work weekend, and he's in living hell. The only plus side is Al, the man with the green eyes who keeps saving him time and again. Both men, as the whole story, are realistic, the kind you just wanna hug.

In fact, characterization is where the story shines. Frankie's friends and coworkers, like Jonno and Charlotte, are fun, smart, and so entertaining you turn the pages for them as much as for the romance. Dialogue reads true, with casual shoot-the-breeze and the all-powerful emotional stuff of forever-kind-of-love. These men aren't afraid to love rough and show their vulnerabilities when sad.

There's a lot happening here, and yet it felt at times as though nothing is happening at all. A working weekend while wounded. That's basically the gist of it. And yet, Ms. Brown imbues every nuance with a kind of amiable glow in praise of everyday life and finding love in the most surprising places. It's sweet and

captivating in the truest sense of literature. There are laughs, tears, growls, happy moans. All that jazz.

As is, I have nothing negative to say about this book. It's well written, it's realistic, engaging, sexy and sad, and riveting even if the men are just sitting on a couch in front of the TV watching Law & Order. Highly recommended.
