Logan & Lauren Lynda Chance

'Logan and Lauren' is a stand alone story with NO cliffhangers or anything like that , but it is SHORT!!! It's the perfect length for a quick read before bedtime or for waiting for a doctor's appointment.

When Logan Crenshaw comes home from work one day and finds out that his wife is keeping a secret from him, he goes a bit crazy. So he steals her off to the Caribbean where he finally figures out what's been troubling her. But unfortunately, not before he loses his cool and goes completely territorial.

Excerpt:

Logan tightened his hands in Lauren's hair and her eyes flew open. He could see it clearly, her arousal, the drugged look that had always fascinated him so much. He encircled her wrist in his hand, and locked it behind her back in a swift move that imprisoned her. "You like that, baby?"

"Yes." Her eyelids fluttered; he knew that she was barely able to hold them open.

He rewarded her answer, stroking into her, in and out, and in again. He stayed there, deep within her, and when her eyes closed completely, he dropped his lips to her ear and sank his teeth around her lobe. "You're mine," he said in an uncontrollable hiss. "That hasn't changed." He took another slamming stroke and then stilled again inside of her. "That will never change." He bit down on her flesh. "You understand me? Never."

Jennifer Finn says

This is another novella about Logan and Lauren Crenshaw, Lynda Chance's sexy Texas couple from Pursuit. Logan and Lauren have been married for over 5 years and they're still crazy for one another. Logan comes home from work one night and overhears Lauren talking on the phone in her closet. He stops to listen to her side of the conversation and what he hears has him both furious and sick to his stomach. Could this really be happening ? Did Lauren betray him ? He makes plans to take her away the next day to the Bahamas. He's going to get to the bottom of what's going on and remind her who she belongs to.

Deserie williams says

oh this crazy , hot, possessive, jealous man! Got to love him!!
safety gang safe!

Jennifer says

had an inch for a lynda chance alpha

Heidi says

3 1/2.

Diksha says

3-3.5 stars

B.E.Love says

Logan and Lauren have been married for five years and have been very happy and very in love. One day Logan over hears a phone conversation Lauren is having that makes him think the worst. Logan knows after he hears Lauren on the phone that she is having an affair, he thought he would be angry and he is but he mostly feels panic.

Determined to keep Lauren at all costs Logan takes them away, away from all that is hurting their marriage so that he can keep them together. Lauren loves her husband as much as the day she fell in love and never wants to hurt him, but a misunderstanding does just that and she will have to show him that he is the only

man she will ever love.

This is yet again another fantastic book by Lynda Chance. She has the magic touch when it comes to possessive crazy jealous in love men and i'm never disappointed by not only her books but her hero's as well. This is a great short read that left me satisfied and yet wishing it was longer. After every book I read from Lynda I always wish it was longer not because I feel like the story is missing something but because Lynda Chance is such a gifted author. Lynda Chance is what's right in novellas today.

CC says

Just a very short and fun epilogue to Logan and Lauren's story.

Dina says

3 1/2 stars (rounded up to 4 stars, because I love seeing an alpha male lose control over *his* woman)

Note: This quickie is better appreciated if you read Pursuit first. Even though that isn't the chronological order in which the books were released, getting to know how Logan and Lauren met and fell in love helped me to understand the dynamics of their relationship as a married couple.

buzy_reading says

I do not care for submissive or powerless women. Lauren is weak and pliable. Lauren is too easy to please and confused about love. The way her husband loves her is scary and yet she is so turned on by it. Lauren is like an empty vessel used for her husbands pleasure.

Dialogue is annoying. I'm tired of women begging for sex. I'm tired of the term, " mine" being tossed around like a woman can be purchased or possessed. These erotic stories are getting ridiculous with ownership and possession. People should not want complete control over another human being. Maintaining ones self worth and identity is important for ones sanity.

Why is she relinquishing all power to him?

That was a stupid story. I do not agree with that kind of behavior from a man. That is not sexy at all.

Anja says

2.5 stars.

I've gone along with many heroes and their obsessive, controlling alpha crap for the sake of fantasy but this guy is beyond OTT. The best part is when he escorts his wife to the airplane bathroom in first class. Who knows what she'd get up to if she got more than five feet away from him? I'm surprised he didn't go in the stall with her to verify she was only peeing and not accidentally making eye contact with another Y chromosome.

This short is just a bunch of boring sex scenes. Dominating assholes can be hot but the sex here was just perfunctory with a lot of "you're mine" dialogue thrown in. The pseudo conflict was flimsy at best but could've been forgiven if the sex or writing was more than meh.

Christine Wallflower & Dark Romance Junkie says

Miss Chance's books aren't for everyone... They're short, the heroes are assholes and they're predictable! They're like quickies, they're my drug! If I was a cat, her books would be my catnip!

Logan and Lauren' is a stand alone story with NO cliffhangers or anything like that , but it is SHORT!!! It's the perfect length for a quick read before bedtime or for waiting for a doctor's appointment.

Ok I wouldn't read this just before a gynae appointment haha!!! It was good!

Mahvish says

Dumb shiz. waste of time.

Catarina says

If you need a quick reading (like when you're waiting for someone to arrive, or for an appointment or something like that) this is good for that.

A sweet and fast read :)

Karen says

Logan & Lauren (Temptation in Texas, #3) is a short and highly erotic novella. What makes it different is that Logan is one crazy dominant ALPHA male who I totally loved!

Logan arrives home one day and hears Lauren on the phone. He thinks she is having an affair when he overhears her conversation and Lauren isn't telling him who she was talking to. That just sets Logan on fire with jealousy. The heat starts right away.

"Was she having a fucking affair? Pain and fury clouded his brain at just the idea. "I'll destroy anybody who gets close to you. If anybody tries to fuck with you, in any goddamn way, I'll make them wish they were dead. You understand me, Lauren?"

Logan decides to take Lauren on a trip to save their marriage and find out what is going on. Of course the moment they get into their hotel room they are at it again. Lauren can't resist Logan.

""You're mine, Lauren. Isn't that right?" Jesus Christ she loved it when he was like this. Demanding, forceful, dominant. "Yes." His fingers bit into her wrist. "Say it." "I'm yours," she breathed out."

I thoroughly enjoyed this short gem of a book. If you like hot ALPHA males and beautifully written sex scenes then this book is for you!!!

I'll be reading more from this author in the near future.

Mo says

Goodreads is a bit funny today. 3 stars but cannot put in my stars for some reason. Will do it later. This was a very fast read with the alpha, overbearing, Logan.
