Jules has got a score to settle against the drug dealers of Denver. Vance has made it his mission that Jules won't get dead while dishing out vigilante justice. Jules doesn't have time for romance, she's too busy saving the world and she enlists Zip (the gunstore owner), Heavy (an ex-PI) and Frank (a mysterious recluse) to help.

The Rock Chicks of Fortnum's Bookstore get involved to provide romantic advice and guidance, none of which Jules accepts at first. The Hot Bunch of Nightingale Investigations adopt Jules as one of their own. Even though Jules tries to hang on to her inner Head Crackin' Mamma Jamma, the Rock Chicks; Hot Bunch; Jules's long-suffering Uncle Nick; Jules's friend the rotund, African-American, Jackie-O wannabe, May; and especially Vance will stop at nothing to wear her down.

But Jules makes some bad guys pretty angry and one is dedicated to taking her out. Vance and the Hot Bunch have to pull out all the stops to keep her alive. At the same time, Jules and Vance learn the true meaning of home but once they find this precious entity they've been searching for all their lives, will Jules's enemies tear it away?

3ish *Home*STARS

So this is the hard part about reading a book that is a favorite to so many of your closest friends.

Unpopular Opinion Warning: I didn't like this one. I hope we can still be friends!

Juls "Law"Lawler is a social worker who has recently taken to the streets of Denver to deliver her own form of vigilante justice. Juls is protecting the kids that she works with at the shelter against Denver's drug world. Sounds very cool right?

"She's a badass motherfuckeress. She'd kick your ass soon as look at you. You've clapped your eyes on The Law. Count yourself lucky, sucker. Now, what'll it fuckin'be?"

I love a kick ass heroine, however this one, until recently has been living under a rock or I swear was in fact truly born yesterday!

Not one damn friend or boyfriend ever? I'm to believe that this heroine has sat in her room after work for 13 years? That's all she's got going on? She has went to work and home never socialized with anyone until weeks ago? She's lived here most her life and knows no one but May the lady from work? Never been on vacation? Had one birthday party ever? Has never done anything ever except go to work and talk to her Uncle?

I was also not a fan of her inner dialogue/emotional Rottweiler?

Vance must have told her to “Shut Up” fifty times and I have to agree she sadly is my least favorite heroine of KAs ever.

*” “I think we should break up,” I told him.
“Jesus, you’re a pain in the ass,” he muttered and went back to his book.
“Seriously, Vance.”
“Shut up, Jules,” he said without taking his eyes from his book.”*

If Vance actually spoke more in this book, perhaps Juls would have been less of an annoying character for me. Still, Vance was a good alpha hero, mysterious and I seriously wished the story centered more on him than Juls and her street fighting career.

*”I’m not a princess,” I whispered.
“You are to me.” Oh my God.”*

My favorite part of the story was definitely all the POVS heading into the big action scene and perfect ending!

WOW!! This was my FAV Rock Chick book yet!! Loooved Vance and Jules' story! Priceless!

*"I want you. I want to taste you. I want to f*ck you. I want to make you come and I want to hear you moan my name when you do so I know that you know it's me who made you come."*

“If you ever think of takin’ off, if you ever get scared enough at what I do for a living that you decide you can’t hack it, then you best think again because unless what we have turns shit like everything else in my life, I’m not ever letting you go.”

This is the first book in this series that made me cry - there several tear-jerker moments, as well as some heart racing parts that gave me shivers, some really steamy scenes, absolutely priceless laugh-out-loud dialogue and a seriously AWESOME ending!!

Jules is a social worker who works at a shelter helping street kids. She lost her whole family to tragic circumstances and throws herself into helping those who need it. But when one of the kids on her watch OD's from drugs sold to him on the street, she turns vigilante. She finds people who teach her how to fight, who will hook her up with what she needs and ends up earning herself the street name Law because her word is law on the streets.

Vance Crowe (*swoooooon*) is one of the uber Alpha members of the Nightingale Investigations team. He's a gorgeous, sexy-as-hell, Native American badass with a shit-eating grin that just melted my heart!! When he and Jules cross paths and it becomes clear what she is doing and that she is doing it alone, he offers

her his protection along with the whole of the Nightingale team.

Vance and Jules have instant attraction to each other. But it is well known that Vance is a player - *"He saw, he conquered, he left."* - and Jules is wary about letting him into her life. But those Alpha KA men have a way of getting what they want.

"Those boys got a way about 'em, Jules. They don't fuck around. They see somethin' they want, they get it. They're fuckin' famous for it. A woman don't stand a chance. He seem interested?"

"...honestly, there's nothing to worry about. We went our separate ways. I'll be smarter, I'll be more quiet, I'll be --"

"Laid, good and simple. Crowe got a look at you, you're his."

And it's hard to say no when she just wakes up one morning to him in her bed with her!!

"I was snagged around the midriff and thrown back to the bed, my head hitting the pillows, and Vance Crowe rolled his body over mine. I stilled and looked up into his dark, lushy-lashed eyes.

"Oh my God," I breathed.

"Mornin'," he said to me, like we woke up next to each other every day.

"Oh my God," I breathed again.

His hair was not in a ponytail but falling down around his face and shoulders and, I kid you not, he looked like a Native American Warrior God.

"Do I have your attention?" he asked."

He's very persistent, but still while being very respectful of her. I didn't find he was as pushy as the other boys and he puts a lot of trust in her. Watching them come together was really heart-warming :)

"I don't know what shit you're working though but I know it's there. I know you'd rather not even acknowledge it and definitely don't want me to be a part of the process. I don't care. Princess, this is happening between you and me."

"What, exactly, do you mean by 'this'? You fucking me?" I snapped...

"Yeah. Me fucking you. In your bed, on your couch, in my bed and anywhere else I can think of. I'm gonna do you on your back, on your knees and you're gonna ride me. And when I've exhausted you and you don't have those fucking shields up, I'm gonna make you talk to me and tell me what this shit is about and then, maybe, I can help you with it."

It was so refreshing to see how much Vance trusts Jules' skills and how he wasn't quite inclined to want to lock Jules up in a safe house or cuff her to his bed. In fact, Jules was a lot more 'can-do' and kick ass than the previous heroines which actually led to a whole different vibe to this book - in a totally good way :)

Vance and Jules are so sweet and adorable though as a couple - maybe even my fav yet (tied with Indy/Lee from Book 1). Neither of them had a very happy start to their life and seeing them together and really being able to appreciate how incredible what they had was just melted my heart.

"Any man is defined by the woman who shared her bed with him... and it works the other way too... if someone like you, someone as unbelievably beautiful as you, as crazy and sweet as you, filled with attitude and courage with her heart in the right place... if someone like you shares her bed with me, then that says something about me....This is it. You and me. No matter what."

The to-die-for band of characters is one of my fav things about this book and this series. KA has brilliantly

built up a core group of almost 20 (if not more) characters that you honestly feel like you know personally. Somehow, the names never get confusing, the story never drags or feels scattered and it just ends up being a LOT more personal because how strongly connected you feel to them and how strongly you feel their connections to each other.

They are like one big family made of up every kind of person imaginable from uber badass fighters, to ex-cons, to drug-dealers, cops, book store owners, strippers, waitresses, vigilantes, undercover agents, trackers, street kids... lovers, family, brothers-in-arms, friends... this book has everything. Its just delightful to see them all interact together.

There really was a theme in this book of how family isn't just the people you were born to. And not only does it say it, but more importantly, it shows it. Beautifully.

And the ending! Gah!! I won't give it away but just the way it is written is brilliant!!! Normally the whole book is told from the POV of the main girl, but in the ending is told piece by piece from so many different characters depending on whose perspective is most relevant to the moment at hand. Its like, we got to know these characters over the course of the last four books, and now we literally get to see the world through their eyes, in action. It totally read like a movie - I could visualize everything that was happening in perfect detail. LOVED IT!!!!

I'd say the only thing that bugs me about this series is how strongly the women in it fight the affections of the men. For nearly all of them, this gorgeous, larger-than-life, almost god of a badass man enters their lives and wants to be with them and their first reaction is always 'we need to break up'... sigh. lol. yeaahhhh... but still, they all do come around (some thankfully with less fight than others) and once they have given into the relationship, they have some of the strongest relationships ever so its all worth it in the end.

And I just love KA's writing style for this series. It really feels like the heroine is telling the story to you, in person. It feels so casual and personal in style. I really felt like I could just hear her telling me the story.

LOVE this series!!

“No matter what,” he said, his voice fierce and strong and rumbling through me. “You told me I was home to you and I get it. You’re home to me. I’ve never had a home. I like the one I found and I’m not losin’ it. No matter what.”

Here's how I see Jules and Vance:

5 Law stars!!!!

Jules is a social worker by day, and a vigilante by night. She has a score to settle with the drug dealers of Denver. She's willing to do whatever it takes to clean up the streets- she won't see what happened to Park happen to any of her other kids. All Jules has in the world is her Uncle Nick, her kids, and a strange batch of friends that includes Zip, Heavy, and Frank. The friends she made when she started training. After a while cleaning up the streets, she gets the nick name of 'The Law'.

Vance Crowe is another member of the Hot Bunch. A sexy alpha male bad ass who works for Lee Nightingale. Vance is of Native American decent. His past is much like a lot of the kids that Jules works with. He immediately respects her for what she's trying to do, but when their paths cross, he wants to help. He doesn't want her in danger. He decides to be her backup. Even though Law doesn't need a back up, Vance comes in handy.

Vance is known to be a bit of a player. He wants a girl, he gets her. Jules is the exact opposite. A twenty six year old virgin. Jules thinks Vance is gorgeous, but she is more concerned about her work than a relationship. Vance has his hands full with this one. The more he gets to know Jules and sees the type of woman she is, the more he needs her. In typical KA fashion, Jules tries to break up with Vance... more than once. Vance tries to give her the space she needs for a while, but he's not letting this one get away.

I've said it once, and I'll say it again... these books just keep getting better and better! Vance was fabulous, and Jules... The Law. She was the shit! I don't think I have ever liked a KA heroine as much as her (besides Tab). Hearing about Law's kids and Vance's past had me tearing up at times. This book was equal parts **touching and sweet**

"If someone like you, someone as unbelievably beautiful as you, as crazy and sweet as you, filled with attitude and courage with her heart in the right place, in a lot of right places even though her head normally isn't... if someone like you shares her bed with me, then that says something about me."

"No matter what," he said, his voice fierce and strong and rumbling through me. "You told me I was home to you and I get it. You're home to me. I've never had a home. I like the one I found and I'm not losin' it. No matter what."

"Outside my bike, never had anything important in my life been just mine."

My body stilled, so did my heart, and my eyes locked with his.

He started moving again, slowly, deeply and he kept talking. "Always castoffs, leftovers, used, sometimes even food from the dumpsters."

My heart started beating again, only to trip over itself; my breath came fast, not only from what was happening to my body but what he was saying.

"Vance-"

His lips came to mine, his hands moved out of my hair and went to the side of my face and he stared in my eyes, pressing deep inside.

"Mine," he muttered, his deep voice hoarse, that fierce undercurrent there.

His tone caused a shiver to run through me, straight through to my soul.

Then he kissed me.

And of course it was **hilarious and fun!** Jules is a funny lady and when she's with Tex... well we know how things get when Tex is thrown in the mix!!!

“And for fuck’s sake, stop saying fuck!”

“The cherry poppin’ conversation in your living room was the topic of conversation for days. Mace taped it and played it for the whole team.” I was back to staring at him with my mouth open and I think my heart stopped beating.

“Look at this as your way of getting even,” he finished.

“That’s it!” I declared. “No cookies for Mace. I don’t care if he did beat someone up for me.”

“She’s a badass motherfuckeress. She’d kick your ass soon as look at you. You’ve clapped your eyes on The Law. Count yourself lucky, sucker. Now, what’ll it fuckin’ be?”

“The Law and her sidekick, Tex, the Crackpot Coffee Guy were on the job.”

And it had it’s action, suspense, and of course was super HOT! Loved this book, loved Vance and Jules, and loved all the many side characters in this one! That’s the best part about the Rock Chick books... not only do you get to keep up with the couples of the other books, you have so many awesome side characters. It’s like a fantastically dysfunctional family and I love them all! The ending was amazing and Luke Stark is up next... I CAN’T WAIT!!!

5/5 stars

This is tied in first place for my favourite Rock Chick book, I loved everything about this book and the two main characters, Jules and Vance own my heart. Jules is the ballsy female character I have been looking for in a romance series. She has the heart of gold and sets out on a vigilantly (*but not too violent*) mission to avenge the death of one of the kids she looked after as a social worker.

Jules is everything I aim to be on a daily basis, she is caring, kickass and rocks some serious sassiness. The relationship between her and Vance was the best mixture of angst and pure romance. If you're looking for a romance book where a hot manly man eventually falls to his knees, this is for you. Every little nickname he called Jules made me sigh.

This book also has the beautiful added feature of Jules' job and the three boys who wiggle their way into her heart. The drama that follows this couple is utterly addictive but also heart wrenching. Nothing but good words and good feels about this book, would reread this in a heartbeat!

A 4-star rating when I hate these alpha men forcing women into relationships with them? Why, Jilly?

Well, I just said to myself that I could (A) Stop reading them and leave behind all of the funny characters and crazy antics, or (B) get over it - they are fictional men and I like all of the funny characters and crazy antics. I chose B. because funny. I would probably sell my first born to someone who could make me laugh. (She knows this and is fine with it. The therapy helped.)

On the other hand, if these men were real - I would feel compelled to go to Denver and either kick their asses, or find myself a son-in-law for me and my daughter, cuz lord knows she's not getting any younger and I want grandchildren someday. (Again, I drive her to therapy, then we go to lunch. It's fun.)

So, in this book, we have Jules, also known as Law. She is a social worker who lost one of her street kids to bad drugs and has since gone on a one-woman crusade to mess with the drug dealers of Denver. She does this by becoming a 12 year old boy and playing stupid pranks on them. Yes, that's how we clean-up the streets - toilet papering drug dealers' cars..

Surprisingly, she starts to annoy the wrong people and they are going to stop her silly antics, drug dealer style - with guns and pain.

Here comes Vance, to the rescue. And, his way of rescuing her involves forcing himself upon her and making her have sex with him even though she was a virgin. Of course, this is book world. She gives up her virginity that she has held sacred for 26 years to a man she met a day earlier and has all kinds of orgasms with her first experience.

In spite of the idiotic games that Law played with the drug dealers, I liked her. She named her camaro Hazel, had conversations with her cat, could NOT cook, and loved her street kids that she worked with. I love how she was constantly telling them not to swear by swearing herself and swearing in front of them.

"Stop saying motherfuckers..."

"I'll be there in ten. And, don't say fuck..."

"don't say bitches..."

"Boys, quiet. Curtis, don't say fuck. Martin don't say shit."

"don't say fuck..."

"For fuck's sake, stop saying fuck!"

the mom's ultimate weapon...

As always, the Rock Chick gang was hilarious and always getting into trouble. I love how this group of characters fit together, and I like how it is growing to add-in new, awesome, characters like May. I will keep reading this series because I am in love with this crazy gang, and because I love Luke and his book is next. :-D

Robin (Bridge Four) says

Read with my Killer KA girls at at Buddies Books & Baubles

You know that series that you love and start reading and don't want to stop and so you start the next book before you even get a review written for the one you just read so by the time that you get back to write your review things are a little murky because you are now 1-3 books ahead of the review you are actually writing. **THIS is that kind of series for me.**

I was really excited about Jules and Vance's story from the moment that Jules got into a car chase with a bad guy that ending in front of Fortnums and she shot out his tires. That is the Rock Chick for me and I knew I was going to love her and I WAS NOT WRONG.

Jules is a bad ass. She lost most of her family young and now works with homeless kids trying to get them off the streets. She has decided to also do a little guerilla style warfare in her city to make herself a nuisance to the drug dealers in the area so they will get out of town or at least try selling to anyone but the kids she is trying to keep clean and get into homes. How can you not like and respect that.

Jules is on a mission but she didn't go into it blind she at least got a little training to help keep her safe. But Vance has taken a big interest in her so I'm thinking that he is going to make sure that Lee's boys also give her a little more training. It was great to have a Rock Chick that wasn't the 'Damsel in Distress' and knew how to throw down a little.

"I'm just relieved that when you told me you knew what you were doin', you actually knew what you were doin'."

It seems that Vance wasn't the only one that took a liking to a girl who can throw down and he might have just a little competition from one of his Alpha brothers if he doesn't get to staking his claim soon.

Like all the Rock Chick books this has funny times

"Fuck, is that Indy Savage?" Zip asked, staring at Indy.

"Yes—" I began.

"Oh no. No, no, no. I don't want Lee Nightingale on my ass. You are not draggin' her into this. She'll recruit Chavez's woman and Nightingale's sister and it'll be the Rock Chick Renegades against the Denver Drug Dealers. I see rivers of blood and pissed-off bad boys denied their

pieces of ass and they'll come after me. No fuckin' way, I won't be a part of it."

angsty times

"From what I hear, you've had a lot of sweet things."

"No. I've had a lot of easy things."

"I know a couple of girls you've—"

"None of them smelled of melons, tasted of cherries or ended up worth the effort," he said bluntly.

emotional times

"Knowin' I got something to live for now that you're mine. Keepin' it that way, workin' at keepin' this good like it is right now." I stopped breathing and he kept talking. *"I can go back now, to the rez, to my family with you on the back of my bike."* My lungs started burning with lack of oxygen, but that was okay considering my heart had also stopped beating. I figured I was going to die at any moment and I was totally fine with that. Vance continued, ***"They can see that, despite them, I made it to the other side, past their shit. While they lived their dysfunction, I worked my way to something better, ridin' up with you wrapped around me."***

and just down right good times.

"You wanna explain to me how you're all of a sudden close with Indy and her gang?"

I shook my head, not because I didn't want to explain it, but because I couldn't. "I have no idea."

When he looked dubious I continued, "Honestly. I swear. I actually tried to get them to leave me alone, but I thought Daisy was going to take me down in a bitch-slapping fight when I told her my life was none of her business. Have you seen that woman's nails? I'm not gonna go there."

I liked how Vance and Jules both didn't have much family and so they understood that section of each other's lives. Jules has never really even had a boyfriend so she is so uncomfortable with everything she is feeling, so the logical thing to do is try to break up with Vance..*we all know how well that goes down with the Alpha men of KA-land..* Still it is funny how many times she tries to end it just to have Vance pull her back in.

Another couple that is perfect for each other in so many ways. **So again another good story with fun times with hilarious characters and something that just always drags me in until the final page.**

Baba says

Vance said to Jules:

"If someone like you, someone as unbelievably beautiful as you, as crazy and sweet as you, filled with

attitude and courage with her heart in the right place, in a lot of right places even though her head normally isn't... if someone like you shares her bed with me, then that says something about me."

4.5 stars.

Vance Ouray Crowe. Now, isn't that a cool name? Correction. Isn't that a super-badass and cool name?? Vance is looking like a Native American Warrior God. Seriously, I'd love to read more stories about NA heroes. These guys are hot! Vance is another bossy, blunt, badass, macho man hero straight out of KA's magic box. He's a recovering alcoholic and ex-con. Jules, Jules, Jules - the *head crackin' mamma jamma*. She's a sweet woman but she's got a mouth on her *and* an attitude. Jules is almost 27-years old and (view spoiler) Wow, how cool is *that*?? Believe me, this woman can hold her own and she kicks ass! And no, Jules, you don't have to head off to Nicaragua... Furthermore, I am so happy that you removed Vance from your infamous 'Men in Your Life You're Going to Kill' List. Note to readers: Vance was at the top! That's no mean feat, after all.

Vance is third in command at Nightingale Investigations. He is Lee Nightingale's tracker, and extremely determined to protect Jules (Juliet Lawler, "Law"), the social worker. Law is her street name because what Jules said was "law". The kids respect and like Jules. Unfortunately, Jules has the tendency to place herself in danger. She likes to work the streets and she cares deeply for "her" (homeless) kids. Vance is a known womanizer but everything changes when he meets Jules and he's got the opportunity to taste a special kind of sweetness and he gets very possessive:

"You eat shit most your life, work, sweat, and bleed for anything you could get the rest of it, you know sweet when you taste it."

"Outside my bike, never has anything important in my life been just mine."

My body stilled, so did my heart, and my eyes locked with his.

He started moving again, slowly, deeply and he kept talking. "Always castoffs, leftovers, used, sometimes even food from dumpsters."

... "Mine", he muttered, his deep voice hoarse, that fierce undercurrent there.

Jules lost her family when she was a little kid, and Vance lived a very shitty childhood. Ultimately, Vance and Jules learn the true meaning of home.

Jules said:

"Home isn't a place. Home is anywhere, just as long as the people you love are there."

And Vance said:

"Wherever it takes me, good to know in the end, it'll lead back to you."

Badass Vance proved to be a very gentle and tender guy. Rock Chick Renegade is filled with great characters, witty dialogs, lots of fun, and quite a lot of action. I have to say it again. There are scenes that feel a bit OTT but as long as you don't take it too seriously you will totally enjoy this story. It's very entertaining and compelling! Prepare yourself for a huge drama towards the end of the story. On the one hand, I was missing an epilogue. On the other hand, I already know that Jules and Vance will get their very, very sweet HEA in book 5 (Rock Chick Revenge). In Rock Chick Renegade the reader is introduced to Ava Barlow, the heroine of Rock Chick Revenge. Hence, I think it was kinda well done and I can accept the lack of a proper epilogue - for once. Rock Chick Renegade is a must read for every Kristen Ashley addict. Enjoy!

Re-read Review-August 26-27, 2013

When I finished my re-read of this story, I had such a big grin on my face and felt so "still" about it, that I decided whatever rating I'd given it before, I was going to bump it up one more.

CURSE YOU GOODREADS!!

5 stars is the highest I can go, officially, anyway. But no one can stop me from giving it 6 stars on my own, right? So here goes!

6 ROCKIN' RIGHTEOUS STARS!!

And deserving of even more! I had forgotten how much I adored Vance and Jules, so seeing them again was awesome. But just as awesome was watching big things unfold for Darius and Shirleen, and I hope that one day Roam and Sniff will get their own stories, too!

Up next in my Rock Chick re-read -- Luke and Ava! Woaaaaot!

Original Review-

Keepin' it real, keepin' it short... keepin' it real short....

Vance, the perfect hero... what I loved about him: Everything. What I didn't love about him: Nothing.

Just sayin'

And Jules... I loved Jules, her mission, her cause... Sniff and Roam... love, love, love. The way things come together with Darius and Shirleen... fan-fecking-tastic story. And Tex... ride-a-long with Tex as a partner... awesome stuff.

So much to love... romance, passion, sizzle, humor... totally awesome book.

Yep. Just sayin' ...

I have a lot of mixed feelings on this one. For the most part, I liked it. But when I sat back and thought about the book, some things were off. Vance really came across as very creepy to me in the beginning. This is my 41st book I've read by Ashley so I understand her alpha males, but breaking into someone's house and crawling into bed with them while they sleep after only talking once was WAY too big of a leap for me. He got better the second half of the book, but his actions after that were also way too fast.

What I loved about this book was Jules, she was a kick butt heroine who literally went after drug dealers, pranking them and well.... kicking butt! She had some issues, but it wouldn't be a KA novel if the heroine or hero didn't so it worked very well.

This is a fast and fun read, not my favorite by KA but still enjoyable.

A buddy read with the other KA addicts at BB&B

This was Jules the Law and Vince Crow's book of how to seduce a vigilante:-). Setting - the wilds of Denver, bad guys - drug dealers who deal to kids, and the gang of good supporting guys - the Rock Chicks + entourage and various hilarious friends.

Jules is one head turning, stunning, Gun-slinging, social working, bad mema-jama!!! Vance is tall, dark, handsome, Harley Davidson riding, gun packing, hard headed and lean bodied bad ass good guy. Jules manages to steal the hearts of all hot dudes and rock Chicks hanging out in the coffee shop by publicly shooting at a drug dealer's car right in front of them. It was love at first shot!

As with most KA books, the plot is secondary to the character interactions and budding friendships and romance. And as usual, there are very thin on plot stretches and some more than useless as related to the plot advancement pages... There is the usual tough and irresistible alpha and the independent lady whom he is determined to protect, even if she finds that suffocating...

There also were moments when I found it difficult to relate to the leading lady, but that was mostly in the first 30% and with the help of our favorite crazy Chicks, she was able to dig her way into my heart.

This is not one of the strongest entries in this series, but despite its weaknesses this book still has one major thing going for it - the magical powers of KA's simplistic writing style! The woman has mad skills in the story telling and character building department!!! She is truly gifted!!!

Recommend this to all lovers of contemporary romance, but not if a very pushy and macho alpha may test your sense of what lines could or should be crossed...

I wish all a good day and happy reading!!!

4 ½-5 stars – Chick lit/Contemporary Romance/Romantic Suspense

This is my favorite in the fun, ridiculously zany, wild ride *Rock Chick* series so far. Vance is another yummy, KAmazing alpha hero, and he and Jules were smokin' hot together!

I liked Jules and found her far less irritating than previous Rock Chicks, Indy, Jet, and Roxie, but she definitely had numerous aggravating moments. Her inner Rottweiler, constant threats about breaking up with Vance, and routinely bragging about being such a kickass "The Law" mamma jamma were really annoying. As far as I'm concerned, Vance has the patience of a saint.

The love triangle went a bit too far for my taste, so I'm knocking off half a star for that and some Jules irritation. Otherwise, it's a highly entertaining read with some emotional moments that made me tear up a few times. 4 ½-5 stars!

Although his hair isn't quite long enough, this is definitely my Vance Ouray Crowe.

KA's Rock Chick series, is one of my favorites. It's fun, nothing epic, but I always enjoying hanging in the Rock Chick world. Luke is still my favorite, so I will definitely be rereading his book ASAP!

I had a lot of problems with this book :

1. Unbelievable plot. So far this series has been unrealistic, but this one took it to a whole new level. This girl is inexperienced but he becomes an ally with the Nightingale Investigations because she's Vance's woman. I know, I know a lot of readers say she can take her of herself, she kicks ass, blah blah blah, but... really????? She basically puts the kids in a bigger danger. Who does that shit? Jules that's who. And what's wrong with her coworkers? No one tells her about the danger?

2. I was really tired of Jules's inner dogs and I was extremely annoyed that she called herself a head crackin mamma jamma. I'm not a fan of heroines who thinks she's a badass but in fact she's not. I also didn't get the mention of "my-word-is-law". It wasn't funny or cute. It was annoying.
3. Jules was a 27 year-old virgin, who didn't have enough dating experience and who was really naïve for her age. At some point she didn't even know what holding hands means, but she easily lost her virginity to a man she barely knew. She's described a kick-ass character but she's spineless when it comes to Vance. And what kind of social worker who doesn't even know that you need protection while having sex? I'm pretty sure students in the USA learn about sex at school. Did she skip a lot of sex education class? Imo this fact shows that how incompetent Jules is at her job.
4. Her mission is a total idiocy. She doesn't conceal her identity and she hits the street with only a nickname. While the other Rock Chicks accidentally caught in the middle of troubles, she brings herself and other people into trouble from the very beginning and almost everyone admires her. There's a reason why vigilants wearing mask: to protect themselves and their beloved ones from their enemies.
6. Couldn't feel sparks between Jules and Vance and it's mainly because of the insta-love. I'm always annoyed with characters who declare they're in love with someone after knowing him for a week. Their relationship was even more unrealistic than Hank and Roxie's. They barely know each other but he repeatedly reminds her that she's his and tells her to shut up. The breaking up thing boring me to death!
7. This book made me feel betrayed. I cried a bucket for Ava who has to endure the shittiness of Jules and Luke. I hated them in this book. Totally hated them. It was weird because obviously I shouldn't have felt that way. He wasn't cheating on Ava and it happened long before she was in the picture. But I hated, despised, loathed him in this book. I really disliked her 'thing' with Luke while she was in love with Vance. She's the one who wants to break up with her man and when he gives her space, the next day she allows another man to flirt with her. Luke told Vance **IN FRONT OF** Jules that he was going to make a play. He didn't even beat around the bush! People say Ava was leading Ren on but they say NOTHING about Jules who obviously did worse. Where is the common sense???? Is that because Jules 'broke up' with Vance so it's tolerable to make out with his friend? Sorry this shit just never sits well with me especially when I compare her reaction to Ava's (when Dom forced her in his kitchen). If you're so badass, why didn't you just tell him to fuck off? Why did you go all soft and shy around him?
8. Not only was she shitty to Vance and Luke, but she was also really shitty to Ava. There's this scene when Ava was asking about Luke to Jules, and you know what she said?

"Give him time, Ava. There's more to Luke than you know."

"I've known him since I was eight!"

"I know, but you want the truth?"

No, I did not want the truth.

She gave it to me anyway. "I don't think you know who he is now. If you did, there would be no question."

Who the hell does she think she is???? How dare she????!! Because knowing him for several months makes you know about him inside and out? Because having a thing with him makes you feel obligated to show off and make Ava feel like shit?? What a bitch. If some strange woman told me that, I'd be making sure we wouldn't be friends. AT ALL. I feel bad for Ava. She certainly deserves someone better than Jules.

9. Too many nosy people. Every body wants to know about her. Like yeah we know you guys are dying to know this new chick but puhlease the friendship you offer is totaly fake.

10. I liked Vance in Redemption, but he was such an asshole. I totally understand Fortnum's needs cameras, but bugging a girl's house without her permission is SUPER CREEPY. If some man did that to me, I'd kick him between the legs and throw to him my rusty knives no matter how hot he is. That cherry popping conversation creeped me out.

I was hoping Vance's story would be fun, but this is disappointing. I could have given it at least 2 stars, but Jules being a virgin slut didnt help at all. I'm not even sorry I detested this book.

4.5 Boo Stars!!! :D

Jules is a social worker that does way more than is required of her job. She takes protecting children very seriously and all she wants is assuring that they have a great future. They're "her kids."

Coming from a hard past where she lost all her family (except for an uncle) she connects very deeply with her kids... so when she finds one of them dead, well, she wants to revenge his death and starts a vendetta against Denver's drug dealers.

Obviously, this puts her in trouble with a lot of bad men. Not that she really cares.

During her crusade, she stumbles upon Nightingales men... and friends, and after very heated discussions between all of them, they eventually take her under their wings treating her as one more member of the team. And obviously the Rock Chicks welcome her as "rock sister" too and well... Vance welcomes her in more intimate ways.

He used to be one of those kids Jules saves every day, so he feels connected to her and their story starts to happen.

Well, another great book in an amazingly badass series. I love this girls, it is one of the few series where the heroines don't annoy me to no end. (Well, in fact I don't think I ever get annoyed by a KA's heroine!)

And well, on account of my deep love for alpha-males, I love all the boys from these books. All.

(But well, Lee is still my favorite!)

To finish I just have to say that Boo was my favorite character of this book, probably my favorite character in this series so far. He is the most awesome cat ever! xD

And one more thing: Why the hell didn't you start reading this already??!
