## **The Zombie Room** R.D. Ronald

An unlikely bond is forged between three men from very different backgrounds when they serve time together in prison. A series of wrong turns and disastrous life choices has led to their incarceration. Following their release, Mangle, Decker and Tazeem stick together as they return to a life of crime, embarking on a lucrative scam. But when they stumble upon a sophisticated sex-trafficking operation, they soon realise that they are in mortal danger. The disappearance of a family member and the murder of a dear friend lead the three to delve deeper into a world of violence and deception. In their quest for retribution and justice, they put their lives on the line. Their paths cross with that of Tatiana, who has left her home country for a better life in the West - or so she thinks. She soon realises she is in the hands of ruthless, violent people, who run an operation supplying girls to meet the most deviant desires of rich and powerful men. Will she survive the horrors of The Zombie Room? Are Mangle, Decker and Tazeem brave enough to follow her there, in an attempt to set her free?

## From Reader Review The Zombie Room for online ebook

### Akaii says

I had high expectations with this novel. Actually the beginning part of this book was highly enjoyable and the events turned out pretty fast paced with unpredictable story line. But after second half, the story was really confusing . I was bemused by how it would start talking about one character then the next swipe of the book would start talking about something else. And the worst part of this book was the ending. The abrupt ending was highly disappointing . The Zombie Room has an intelligent premise, but it could have been better executed.

---

### GAGE S says

its not that good

---

### Victoria says

brilliant book for such a small book it was surprising how much happened. A definite twist at the end. Highly recommend if your into these kind of books.

---

### Rebecca McNutt says

Nope, this book isn't one of those annoying zombie dystopian novels despite its title. Actually it's about three men in prison and the way they survive. I found the language too crass and rude sometimes but otherwise *The Zombie Room* is an excellent novel with themes similar to books and films like *The Shawshank Redemption* and *Prison of Secrets*.

---

### Lando27 says

"This book is terrible" was pretty much the consensus of every person in our book club. It's unrealistic, juvenile, misogynistic, and boring. It feels like it was written by an unmediated 14-year-old boy with ADD who has seen too many bad movies.

---

### Shanu says

this piece of writing needs so much editing that i can't call it a book.

---

### **Martin Sharp says**

Mangle, Decker and Tazeem. A drug dealer, a killer and a fraudster. Not exactly your typical "heroes" but these three men have ended up together in prison - following some bad life decisions - and form an unlikely bond in prison.

When they are eventually released, they look for ways to make money but stumble upon a sophisticated sex-trafficking operation that leads them in to real danger. A family member disappears and a friend is killed. Will the three men get justice and be brave enough to bring down "The Zombie Room"?

RD Ronald builds characters who are flawed but who you root for as they bond and prove themselves to be good and brave men. The plot keeps you guessing all the way through and the action is thrilling. Dialogue is a clear strong-point of RD Ronald's writing and his characters speak in a way that make you realise he knows something of this world.

This is the second book by new author RD Ronald, a follow-up to his excellent debut "The Elephant Tree".

---

### **Dan Eccleston says**

I really should of read the synopsis cause this book isn't about Zombies at all ! BUT it's a great read , fast paced , enough back story to get you by and few twists and turns along the way !

---

### **Hawkekelse@hotmail.com says**

I don't usually write reviews but I need to prevent other people from choosing to read this. If I could rate this book lower than 1 star I would. So poorly written and terrible.

---

### **Tara Beckwith says**

I felt like I was reading a rough draft. It was choppy. The characters had interesting stories but it just came across completely flat in every aspect.

---

### **Heather L says**

Well I have a few different feelings about this book. This is my first novel I've read by this author. I went from intrigued, to curious, to confusion, then at last disappointment. I get the whole storyline and that was good, but if you're looking for a happy ending or any kind of vengeance for the victims, you are not going to find it here. And I'm not sure if it was the kindle format or what, but I was so confused by how it would start talking about one character then the next swipe of the book would start talking about someone/thing else.

And I did find a few discrepancies. For instance, when Mohammad is bringing the money, and he is clearly the only one in the scene, then it says that Sadiq unzips the bag. Hello? No Sadiq in this scene. It was just odd to read. Not the worst I've spent on a mediocre book. It just could have been better.

## Taylor thompson says

## Daniel Middlewood says

This book covers everything that could be asked for in a novel of its type, it has extensive and believable action, the characters have depth and believability with a true sense of reality running through every page, the plot is a mind blowing reality of the true human condition and how it is affected by extreme circumstances. The emotions and character connections that are found in the book are far beyond anything I have ever read and I am yet to find a story that manages to be as complex in story line and character creation while at the same time being as easy to follow and be so addictive. This is a MUST read for anyone who wants to delve their minds in to the worlds criminal underworld and feel the sharp edge of empathy towards characters that are bound to stay in memory for a very long time to come. Verdict: outstanding!!

**Paige says**

This book was written poorly; the format was strange and it skipped around too much and had no way of differentiating when the narrator was talking about a new character. I don't recommend.

## Jenne says

15

I don't really read much from this genre so I really tried to be openminded about it. The story was flat for me, no character depth, the story felt scattered, and I really found myself not caring what happened. The writing flow and rapid change of POV was a real issue for me. If I hadn't of needed this for two challenges I probably would of DNF it. The only good thing I can say is that at least it was short.

## **David Berkowitz says**

The Zombie Room is fast paced and Ronald's style is engaging. The characters are diverse and effort was obviously expended to make their actions consistent with their background as established in the early pages.

That said, the characters remain a somewhat cardboard - though it is a high quality of cardboard.

The plot really breaks no new ground in the genre, but I knew that going on so I was not disappointed. I did

find the end somewhat unsatisfying. If this is the first part of a multi-part saga then there is time to fix that. I would read a second part to see the story come to a more fulfilling conclusion. And I would like to see more of these characters, especially Decker.

If you are not expecting a Bosch, Reacher or John Rain you will have a good time with this book. But if pulp fiction is a turn off, you might want to look elsewhere.

---

### **Mark G says**

A gritty, crime drama, which shows the depths you can fall, when you make the wrong decisions, on the wrong side of the law.

Great book with non-stop action and plenty of twists and turns.

---

### **Srivatsan says**

This is a brilliant Thriller. Love the characterization of the main characters Mangle, Decker and Tazeem with different backgrounds who end up together.

When I was thinking how the author will connect the Zombie Room to the story, the introduction of Zombie Room was interesting and some parts were really scary. Several fights towards the end were interesting and cinematic. Overall the book was fun and thrilling to read. 4.25/5.

### **Sokolataki88 says**

I loved this book from the very beginning, the plot is very cleverly put together. The twists and turns make it impossible to put down. Also, the characters in the Zombie Room stay with you long after you finish the book, they are weirdly endearing criminals. A must-read if you are looking for a good thriller.
