Tropic of Fear Carolyn Keene

Nancy, Frank and Joe team up again in an all-new adventure in this bestselling series. Greed and corruption have put a posh hotel at the eye of a gathering storm and the menace becomes real when Nancy discovers a murdered man. Meanwhile, the Hardys' investigation of a gang of art thieves leads them straight to the Grand Hawaiian Hotel--and to a terrifying connection between their case and Nancy's.

Clarisse (The Bookcase Diaries) says

Read this back in grade school during the 90s. I remember loving this series so much! Such a shame it's so hard to find these nowadays. I have a mind to collect the titles that look interesting based on the synopsis.

I checked this out of the library because it was Nancy Drew/ HArdy boys supermystery. I really enjoyed it- especially with the chemistry that Frank and Nancy share (even though they each have a significant other in their own towns). It is obvious that Nancy, Frank and Joe work very well together. This also had George Fayne and Bess Marvin. I really enjoyed this book because Nancy was able to find the bad guys just in time (as usual).

This is probably closer to three stars, but I'm giving it for because I used to love it when I was a kid.

Most of the Nancy Drew & Hardy Boys Super Mysteries are fun nostalgia trips for me, this one wasn't. The plot was pretty weak and the dialog was weaker. Add in a strong helping of racist stereotypes and you've got a book that I won't be recommending anytime soon.
