It still tickles me that there are so few lines in every page of this manga. Especially in the going home scene, there are maybe only some words every page, or even just an empty (.....) balloon dialog? xD  
And also the fact that sometimes (could be quite often) it goes on for the whole chapter xD

It's an entertaining light read, especially since the couple screams cute. It's actually so funny when I think about this manga. (please stop with that formality)
