## **All My Witches** Amanda M. Lee

Life in the Winchester world is about to get turbulent.

Aunt Tillie is on a rampage – what else is new, right? – and she’s about to teach her nieces a lesson about messing with her. Bay and her cousins believe Aunt Tillie is a little too involved with her soap operas, so she curses them into a world that’s one big soap opera ... and it’s one created in Aunt Tillie’s convoluted mind. Prepare yourself for a world of underground cities, mobsters, over-sexed hospitals, and back-from-the-dead heroes and heroines ... along with so much more. That’s on top of Aunt Tillie, the diva of the story, who has not only an evil twin but an eviler one, too.

Things are about to get out of control. That’s exactly how Aunt Tillie wants them to be, though, so strap in and enjoy the ride.

Note: This is a fantasy set in the Wicked Witches of the Midwest world. It falls in the timeline between “A Witchmas Carol” and “A Breath of Witchy Air.”

## **Munira Vahed says**

### **Fabulous!!**

This fantasy takes the girls and their other halves into the world of soap operas.

We encounter some past characters like Lila, Willa and some others.

It was an interesting glimpse into the world of soap operas. There was no rhyme or reason to what occurred but still tickled the funny bone.

The ending of the soap opera world was a little disappointing and would have loved it to be a little bit more dramatic or more relatable like the fairy tale world.

Previous fantasies were mentioned and discussed which kept the book flowing.

A lovely story about the winchester witches.

---

## **Kelly Boettcher says**

Love the author, love the characters, but I just could not get into this one.

---

## **Helen Robare says**

What can I say? I love these books. I don't care if it's a full-length book, a short story, or one of the fantasies, these books are terrific. I love the girls (Bay, Clover, and Thistle). I like the moms. But most of all I absolutely LOVE LOVE LOVE Aunt Tillie. That old woman is the cat's meow! And the idea of putting the girls into a soap opera dream was inspired. I loved how bits of real soap operas crept into the story too. In her own way, Aunt Tillie shares in the way those three girls are turning out as they age. Though the girls don't appreciate it (at this time), I have a feeling they will come to do so in the future. Aunt Tillie keeps life interesting for those girls while teaching them about life's lessons. She is a hoot. I was a bit disappointed in that the "snow sharks" never made an appearance because it would have been great to see how the author described them. Landon is getting to be a bit of a bore though. He can't decide if he wants to be a young carefree man or a stern law enforcement officer and that makes him dull for me. I'm sorry to learn that the author is not going to write any more FANTASY stories in this series (though she will still write the novels and short stories) because I so wanted to see Aunt Tillie transport the girls into a World of Warcraft type video game. Alas, I shall have to go through the rest of my life unfulfilled. :)

## **Wendy says**

I love the series, I love the fantasies, but this one just didnt vibe with me at all. There was no plan and nonpurpose and all characters were pretty annoying after a while.

---

## **Mike Lewis says**

### **Hilarious**

I love this book series. A great cast of characters in the regular series is it cozy mystery with a witchy twist family which is in a small town in northern Michigan. In this fantasy book from the series we get to romp through one of great aunt Tillie's fantasy world she creates for others to enter in their dreams and figure their way out. It is a hilarious and entertaining fantastic dream story. The moral of the story is do not mess with great aunt Tillie. Awesome Siri check it out

## **Gail says**

Honestly, I normally love these books but I tire of all of the short and these books were Aunt Tillie puts the characters into an alternate reality/world. I really would rather have a full book sized story, a mystery with witchy undertones. Please, I miss those!!!

## **Shawn says**

### **Wacky mayhem....**

Aunt Tillie style. If you ever wanted to know what Aunt Tillie's mind has soaked up watching soap operas read this story. Aunt Tillie threw all the cliches in for the Winchester gang this time. I grew up watching daytime soaps so a lot of the mayhem didn't surprise me. It brought back a lot of memories. The story also gave me a few laughs. I was starting to feel bad for Landon. Not sure the guy could handle his leading man status. Good thing there was bacon in the end.

## **Kim Bagacina says**

### **Not worth finishing**

The WWM series has been entertaining, but the last few have been repetitive. Now this one crosses into just plain ridiculous in the failed attempt at humor. You'll need fresh material if you want to retain readers. No more cloying romance, no more eating dirt threats, more Aunt Tillie, more snark. That's where your humor works.

## **Lexie says**

### **Still love this series!**

Wicked witches of the Midwest is one of my all time favorite series. The fantasy books always make me laugh even when they're over the top!

This one definitely summed up soaps, even though there wasn't really a lesson to be learned. If you like the series you'll enjoy this. For anyone who hasn't read this series go back & start with the first book Wicked Witches of the Midwest-Any Witch Way You Can. I typically read 5 new books a day or more, & I always come back to this series & Ms. Lee's other series as well because it's like returning to friends.

The one thing I would love to see in a full WWotMW is Bay saving the day & conjuring something like Aunt Tillie usually does. I mention this because Ms. Lee made a point of showing Bay's birth & saying she was the most powerful witch born on the homestead, which I believe included Tillie herself. Ms. Lee is extremely talented & I'll follow her stories anywhere

### **Fantasy or Fiction - Aunt Tilly Style**

I found this story long and hard to read. Usually Amanda Lee's books are hard to put down. This one was hard to keep reading, almost boring even tedious. The plot was off, hard to keep the characters separated especially the 3 Tillies. The changes in venue were confusing and let's face it snow sharks????? Really?!?!?!

I hate to say this about her books because I have always been such a great fan, but .....I had to actually make myself read to the end, and I found it to be anticlimactic. So sorry Ms. Lee. I'm just glad this wasn't the first book of yours I read.

---

## **Page says**

I love this series but really getting tired of fantasy stories. The first one was okay, but I'm done with them now. Let's get back to the real stories.

---

## **Pumpkinpuddy says**

This has been the least favorite of all the books in this series. It's just too much of Aunt Tillie messing with people and them letting her. They're 6 witches to 1 in that house - why haven't they reigned Aunt Tillie in by now. Also, this series has been around for over 5 years, but in the stories, barely over a year has passed. There's no growth, no story arc. Just the same "I'll make you eat dirt" over and over and over.

Why don't we see the Winchester women studying their craft? If they're all witches, why is Aunt Tillie the only one that can actually do much of anything? It's time for this series to get out of it's rut and show some growth. Also, the timeline needs to move along. It shouldn't take 5 years of books to cover 1 year of story.

---

### **Elisa Hordon says**

This was another 5 star winner for me I just love how Amanda's mind works and bends reality to breaking point, it is true hilarity without being totally stupid you can't read it, in the end it's so funny you can not put it down and Landon's reaction's in the fantasy stories are always extra hilarious well done Amanda, I really needed a good laugh this week and you went above and beyond.

We all know soap opera's are completely beyond reality but sometimes you need to sink into something mind numbing for a while to forget your own life so when Aunt Tillie tosses everyone into a dream world of her own design soap opera you just know your going to be laughing yourself sillier the whole time and I was.

A really exceptional story that fits right into the Witches of the Mid West series and shows Amanda M Lee's writing talent to its true extent.

### **Christine says**

#### **I love this series!**

I love her books. Ok, I wish I had 2 little "sisters" to run around and cause mischief with, and who wouldn't love an "Aunt Tilly" of their very own! I never want this particular group of books to end. I hope the "Witches of the Midwest" will always have books. Even during her new series. I want it all! I want to see the ladies get married and have babies!! And I sure as heck want to see Aunt Tilly pull her shennigans and make her niece's, and great niece's, fumble, stumble, and slap their foreheads trying to prevent whatever loving, mischievous, "help" she's getting up to!
