**Bear Matt Rogers**  
**THE BIGGEST, BADDEST SLATER NOVEL YET...**

Will Slater is back.

Aboard a luxury passenger train in the desolate Russian Far East, Slater heads for the port city of Vladivostok with a mysterious grudge. After traumatic past events, he was reluctant to return to the region, but he's got unfinished business to attend to.

Terrified passengers, secret police, and shadowy underworld figures are just the beginning. Upon arriving in Vladivostok he finds something wretched. Something dark and twisted and shocking. In a barren corner of the Medved Shipbuilding Plant, the largest nuclear-powered icebreaker in the world is being constructed, protected by an army of mercenaries.

Slater sets to work digging for the truth. And what he finds puts him on a collision course with half the city. Because when the carnage reaches its apex, the consequences reveal themselves, larger and more daunting than anything he's ever seen before.

This time, the stakes are incomprehensible...

## From Reader Review Bear for online ebook

### **Brad Burnett says**

#### **Good read**

I have read all the Matt Rogers books. Usually takes me no more than 5 days, so I must like them. 5 Stars it is.

---

### **Peggy Pancherz says**

#### **Good book**

Read all of the books in order to really enjoy. Storyline continues to grow and develop. Characters are realistic and get better and better.

---

### **Ana Su-Bell says**

#### **Will Slater & Jason King, the dynamic duo tearing ish up!**

Will Slater is a mesmerizing character that always gets himself in the middle of trouble and eventually does what he does best- mowing thru adversaries and letting the body count add up. Thanks Matt, for another fun read

---

### **Kathi Defranc says**

An outstanding adventure as former special agent Will Slater decides to finish what he and Jason King started deep in a gold mine in Russia.

Will has recovered and realizes that he must end the lives of the wicked that are left after he broke up an evil kidnapping ring in the wilds of Russia. Thugs were kidnapping people then making them fight to the death while filming

to a link that the rich paid to see. He starts on a trip, a train to the outskirts of Russia, but notes some on the train acting awfully squirrelly.

What follows are exciting scenes and tough moments, with some downtime when Will gets involved with a woman he meets in a bar. There are some amazing characters, described so well you feel as if they are right beside you!

Another wonderful story of black agents, those no one knows are there working, and the mindset they follow. In too deep and needing assistance, Will puts a call out to Jason King, who has tried to leave the 'life' behind. Will he come to help a wounded fellow agent, or is he truly out? Give this thriller a read to find the answer!!!

---

**Brian says****Bear-Will Slater book 4**

The most explosive book yet. Great to see Jason King return to the fray, just in time to assist his brother in arms. I'm starting the next book now. Keep up the awesome series.

---

**Edward Poole says**

Wow what a ending again. Both in the same problem again !!! Can't wait till the next one.

---

**Walt Mccluskey says****Bear**

One of the most boring,poorly written tales I have seen in the last two years. What had been fairly good intrigue in previous stories was reduced to rambling philosophy that makes no sense.

---

**Sheila Taylor says****Excellent**

This book was outstanding. The characters and story flowed so perfectly that you had no trouble keeping track of all the players. The surprise in the book was great and made this one of the best Matt Rogers books. Mr Rogers, you have sure set a high standard for your next book. Recommend this author and all his heroes highly.

---

**Robert D Cole says****Another Excellent Book in the Will Slater Series**

Matt Rogers never fails to provide an action-filled read that thoroughly provides enjoyable time spent from start to finish. Once again we find Will and Jason King working together to avoid catastrophic consequences.

---

**Michael Kuckelman says**

### **Great story**

I give this book a solid rating. I love the interaction between King and Slater. The two soloists working together again finish some in left business and close a chapter. Hopefully we'll see them work again

---

### **C. says**

I've read every Black Ops book written by Matt Rogers and loved that he used this one to complete events from a previous novel. This doesn't mean you had to have read the first book to know what's going on BUT if you want to read another great Matt Rogers' story I would strongly suggest you read every one in order. Matt has taken a dyed in the wool mystery reader and made me an action lover as least as far as his books go. I tell you no plot or about the characters. That's your job and one you can look forward to.

---

### **Kenn Goslin says**

#### **How NOT to treat a massive headache!!!**

Not at all what I expected, but every bit as dark and foreboding as any other thriller I have read... Keep reading!!!

---

### **Irene Thouin says**

#### **Fantastic read!**

I love the Will Slater series. Lots of action and highlights of his past as he battles through his fights while helping those who are in dire need of his special forces. Jason was the first series and hope he'll return soon and meet up with Will again.

Thanks Matt, enjoyed it very much!

---

### **D. E. says**

#### **A MR. Adventure Mystery (WSSB - 3)/A Revenge Plot/Russia/Icebreaker**

MR. has. penned the third novel in the Will Slater series. WE ends up in Russia and stumbled across a plot of revenge against the Russian government by using an Icebreaker to accomplish the plot. WS. Calls on Jason King for help. This is an excellent read for the genre.....DEHS

---

### **Mike Connor says**

Arguably the best of the 3 book series
