Kerry Baker says

Disaster in Love by Liz Bower is a fun, exciting read that throws in a bit of mystery and intrigue for good measure. Add in a sexy hero and a heroine just waiting to be swept off her feet and you have all the makings a good book.

Kimberly is terrified of flying. Having never done it before she doesn't know what to expect, with the exception of the debilitating fear. Being stuck on the plane is only made marginally better by the downright gorgeous man who takes the seat next to her.

When an issue arises with the plane, forcing them to turn around and land back at the airport they have just left, Kimberly is left with a choice; camp out in the airport overnight, or take Mr Gorgeous up on his offer of sharing a hotel room.

Beck has secrets. He is used to keeping them to himself. But when the mystery woman from his flight turns up in the office he is working in, he finds it harder and harder each day to hold on to them. But knowing how important it is to keep them to himself, he does what he can to keep them hidden. He knows Kimberly is mad with him, for "lying" to her, for not telling her more. But if it means protecting her then he wouldn't change a thing.

"Just the two of us where no one and nothing else mattered."

Like most secrets though, his cannot stay hidden. When they are forced to light Beck has to try and convince Kimberly of the truth, that he was only doing what he had to, to protect her.

This is a great, light hearted read with a bit of suspense thrown in for the excitement. The two main characters are absolutely perfect together, with chemistry neither and deny. I couldn't put the book down once I started reading it. Very well written, engaging from start to finished, I thoroughly enjoyed this book.

Disaster in Love by Liz Bower is the first book in the Disasters series and the first book I have read by Ms. Bower. It is definitely a romantic read for those that love romance novels. Disaster in Love will have you hooked from the first page of the story.

Kimberly Hardwick is a twenty seven year old young woman working as an office temp trying to save up money so she can have the business she has always dreamed of. She is very passionate about opening a bakery. She has not had it easy over the past few years. She is going to try and put her fear of flying past her and take a spontaneous trip to Malta. Lucky for her, she has this hot sexy guy Beck sitting next to her. She decides to do something she has never done and goes back to the hotel room with him. She wakes up alone.

She heads home and finds a new temp job that has opened up. She meets her new boss, Kyle Robinson. She feels betrayed when she sees Kyle, but she does her job that she was hired to do. Kimberly finds some things she was never meant to find and could be in a dangerous situation. And as well as she was falling for Kyle.

Will what she finds pull them apart? Can what they feel grow and survive?

Disaster in Love is a romantic novel filled with lots of mystery and suspense. I truly loved how the characters were developed and the many twists and turns the characters took throughout the novel. This was my first book I read by Liz Bower and certainly will not be my last. I hope Ms. Bower continues to let us get to know this couple in the next book in the series. Looking forward to reading more in The Disasters Series.

Disaster in Love is the first book in The Disaster series by Liz Bower. Disaster in Love is a romance story with a little mystery, a little intrigue and a lot hope and dreams. You will not be able to put it down until you have read it all, trying to work out the twists and turns.

Kimberly Hardwick is on a mission to unravel a mystery that only her parents shared but in order to unravel this mystery she has to jump on a plane. As she sits on the plane she is trying to talk herself out of disaster but her worst fears are confirmed when things don't go according to plan. But all is not lost with the handsome stranger sitting next to her. Never did she know that her first ever flight would lead to more than she ever thought. Kimberley has dreams but those dreams take money and that leads her to the temp job and the uncomfortable situation she now finds herself in. Never in a million years would she have dreamed that her mystery man be here staring her in the face and being introduced as her new boss. When Kimberly discovers a discrepancy she quickly learns that things are certainly what they seem.

The relationship between the two main characters will leave you a little confused at times. You will find that you have to keep reading because you just want to know what is going to happen next and where the story will lead. There were times when I thought the main male character needed to get his act together but you have a sense there is more and all will be revealed in the end. I enjoyed the story and am sure if you like a mystery with romance and intrigue you will too.

Katie Kearney says

Disaster in Love by Liz Bower is the first book in the Disasters Novels. It follows the story of Kimberly and "Beck". It is a story about trusting your heart when all the evidence is telling you otherwise.

Kimberly Hardwick is on a mission. After finding a discrepancy with her birth certificate she is travelling to find the man she believes to be her birth father. While traveling she meets "Beck", a handsome stranger with eyes the color of melted chocolate. Her attraction is instant and powerful. After making an emergency landing the two spend the night in his hotel room and things get steamy fast. Waking up in the morning to an empty bed when they were supposed to be getting on the same plane at first confuses her, until she finds his business card and hastily written note. Hurt she continues her journey alone only to eventually return home to her temp job and real passion, cake making.

It is through her job as a temp that she is reunited with "Beck" who a mutual friend introduces as Kyle. Feeling betrayed and lied to Kimberly nevertheless does the job that she was hired to do, despite Kyle's hot and cold reaction to her. Stumbling onto something she was never meant to find suddenly finds she is more danger than she realizes at first. How will these two manage to be together when every red flag imaginable is telling her that they shouldn't? Can the love that is growing between them survive all the obstacles in their way?

I loved this book. Romance, suspense, and drama this book has a little bit of everything. I'm definitely going to have to give this book a five-star rating. I can't wait to read more in this series.

Disaster in Love (A Disasters Novel, Book 1: A Delicious Contemporary Romance)

By: Liz Bower

5 out of 5 stars

The story Disaster in Love (A Disasters Novel, Book 1: A Delicious Contemporary Romance) by Liz Bower is a contemporary romance book. It is the first time Kimberly Hardwick has flown. It is also a flight that almost turns into a disaster. She didn't expect to be comforted by the handsome man in the seat next to her. She didn't expect him to offer to share his hotel room and didn't expect to find herself overwhelmed by her feelings toward him. Being held by him that night feels right, however, sadness soon takes over as she finds herself alone the next morning. She returns home lonely and with confused feelings. Kimberly has a dream of baking cakes for a living which has to wait as she saves money to make her start. This leads her to a temp job at an accounting firm. It also leads her to meet Kyle Robinson. What happens next involves some danger and has Kimberly wondering just who she can really trust.

This is a book about romance that does involve a mystery and has some twists to it. The author has created a story that had me hooked from the first couple of chapters and not wanting to put it down until I had finished the last page. I loved the characters of Kimberly and Kyle. Kimberly is a woman who is trying to find herself. She is also a woman who doesn't trust easily. Situations in her life has made her this way. She is a hard worker and when there are discrepancies on an account she is working on she speaks up. What has Kimberly found? Has there just been an innocent mistake or is it something else?

I was constantly wondering why Kyle Robinson takes the actions that he does. He would disappear for days at a time and sometimes he would make statements that were confusing. Is there more to this man than meets the eye? Even with all that is going on Kimberly finds herself falling in love. Will she be able to get past her trust issues or will the relationship have a heartbreakening end? This is a story that you don't want to miss. It is the first book in a series and I can't wait to find out what the next story is about. Because of adult situations this book would be recommended for those 18 years of age or older.

Nancy George says

Kimberly and Beck meet under unusual circumstances. And when Kimberly finally gets the nerve to contact Beck again her friend messed up the card. How much of fate intervened when she takes a temp job and runs into Beck again? This was a great book. It kept me interested and drew out emotions. Can not wait for the next one.

Kimberly is getting ready to take her first ever plane flight and she is scared out of her mind. It's a necessary trip though, she lost her parents and in finding her birth certificate it seems her father isn't really her father so she is on a mission to find her biological father. She is heartbroken as she can not believe her mother lied to her all these years and if her Mom could lie to her then who in the world could she trust?

Beck boards his plane to Malta to visit his parents, he sits next to someone that is completely terrified, he holds her hand till they get through a very scary moment and end up having to land and get a different flight, which won't be till the next morning.

When Beck and Kimberly end up in the same hotel room for the night, things progress a bit past what they both planned, but when she wakes in the morning to only a business card with a quick note sprawled on it she is more convinced than ever that you can't trust anyone but yourself. Kimberly has dreams of starting her own cake company but with little money she must take temp jobs and keep making birthday cakes to order every now and then. She receives a temp position at an accounting firm so she jumps on it, and when she meets one of her new boss's she is not sure she can remain at the job. Kyle Robinson is all business, yet always seems to be there, and when she starts noticing that numbers don't add up on a new account, she takes her concerns to Kyle and then walks away wondering if he is someone she can trust or maybe she should just walk away from this temp position and find another.

When she finds out that nothing is as it seems in almost every aspect of her life can Kimberly learn to trust in her heart and her dreams?

I really loved this book, it is my first by this author and I can not wait for the next in this series, I can't wait to see if everyone gets their HEA. This did not end on a cliffhanger, but left a lot of room for hope for the future. I loved the flow of this story and the characters were great. I will be watching out for any and everything this author writes.

Disaster in Love is the first book in the Disasters series book Liz Bower. This is the first book I have read by this author and I have to say I can't wait for the next book in the series. The character descriptions were true to life and the plot twists had me hooked from the first chapter. This was a really fun book to read. One minute I was laughing, the next I was mad and throughout I was hoping for a Happily Ever After. This Hot Romance was chocked full of mystery and suspense that had me going right to the end.

Kimberly Hardwick was scared out of her mind, she was on her first air flight and she was pretty sure she was going to die. Her only thoughts were at least the guy in the seat next to her was very hot, and he held her hand until the plane landed. She never expected they would then share a hotel room together, but when she woke up in the morning and he was gone, she knew she could not trust anyone but herself. Kimberly dreamed of opening her own Bake Shop, but lack of fund had her searching for a temporary job to help make her dream come true. Kimberly finds a job at an accounting firm and is surprised to see her mystery man from the plane is nowhere boss. When she find some issues with the accounts and she brings it to his attention he doesn't show much reaction and this has her worried on who she can trust.

Kyle Robinson is a very interesting character who continually gives off mix signals throughout the book which only adds to the mystery. You will have to read the book to find out what happens in this super hot romance. I'm looking forward to getting the next book in the series and see what new twists and turns Ms Bower has up her sleeve.

Disaster in Love- Liz Bower

4 out of 5 stars

Disaster in Love by Liz Bower is a great book that I enjoyed reading. It's mysterious and intriguing with many twists along the way that kept me on my toes from the start to finish. There was a lot going on in the storyline from Kimberly dealing with her past, her fears, and her relationship with Beck and to her career options. It's most definitely not a boring read. Thankfully it's a happily ever after story which I thoroughly enjoy, especially after reading the journey they had to go through to get there.

Kimberly Hardwick is on a mission to find out the truth about her biological father, her first step is to fly to meet and introduce herself to him, the only problem is she has to fly to get there, and she hates flying. Thankfully she meets Beck on the plane and he quickly captures her attention. But nothing goes as planned and she ends up spending a great night with Beck only for him to be gone the next morning. Now she's forced to go back to her old life, hoping to forget about him. Which turns out is harder then she expected as she starts a new job with him as her boss. But nothing is as it seems, which leaves Kimberly questioning everything. She's not sure if she can confide in him given their past and she has no one to rely on but herself. Will she be able to make sense of everything before her term is over or will her questions go unanswered?

I really liked Kimberly; she was a strong character going through the motions of life as best as she can given she has no one to rely on. I had a hard time really connecting with Beck, as we didn't really get a chance to know him outside of work. While I did enjoy the moments he shared with Kimberly they always seemed short and fleeting and I would have love to know more about him. This was my first book by Liz and I really enjoyed it, I look forward to reading more of her work in the future.

Disaster In Love by Liz Bower is the first installment of the Disaster series. It is a suspenseful, contemporary romance between Kimberly and Kyle a.k.a. Beck.

Kimberly Hardwick is terrified of flying. She is on her first flight to Malta to answer some doubts she has regarding her biological father, after her parents died in an accident. Her first flight almost turns into disaster

as an emergency has caused the plane to land. The gorgeous hunk sitting next to her on the plane, who calls himself Beck, helps her through her panic while and after the plane lands. An unexpected overnight hotel stay together and a night of romance, has found Kimberly alone the next morning with only a business card with a note. After a week long trip with unanswered questions about her father, she returns home and is reminded of her love of baking and dreams of owning her own baking business. But with straggling orders and very little money to live on, she decides to search for a job through an agency. She is called in for a temporary job at a small accounting firm, which in return, she encounters the man who left her after a night of romance.

Kyle a.k.a Beck, is a mysterious man with a very secretive career. Currently, he is working at an accounting firm, which finds him face to face with Kimberly. He didn't think he would ever see her again after he never heard from her after their night together. How much longer can Kyle hide the truth about himself from Kimberly before she finds out who he really is? Will Kimberly be able to trust Kyle?

Liz Bower had me hooked on the storyline from the beginning. The storyline is fast paced and you will find it hard to put your book or Kindle down until you find out what happens next. the mystery and suspense about Kyle leaves you wondering why he is being so secretive until you finally read the truth and understand why he is who he is. Disaster In Love will have you hoping for a HEA for Kyle and Kimberly. Can't wait for what Liz Bower has in store for the second installment of the Disaster series.

5 Stars

Disaster in Love is the first book in the Disaster series by Liz Bower. It is an incredibly good read- full of humour, romance, spice, mystery, and suspense. If this fantastic instalment is anything to go by, then this series is set to be really exceptional!

Kimberly Hardwick is twenty-seven years old and works as an office temp while she tries to save enough money to make her dreams come true. You see, she has a real passion for baking and hopes to one day open her own bakery. But for the past couple of years, things haven't been going very well. She lost her parents in an accident and ever since she has felt a little lost and tormented. She's shut everyone out of her life and she feels quite alone.

In an effort to get a little perspective and try to find some answers to move forward with- Kimberly decides to jet off to Malta- only problem, was her intense fear of flying. But she bravely boards the plane and takes her seat, and this is where everything starts to go haywire. The only upside to the whole flying deal, was the hunky guy in the seat beside her. But, a slight malfunction mid-air has Kimberly in a state of panic, and if it were not for Beck's calming reassurances and comforting hand holding, she may have made a complete fool of herself. Once safely on the ground, Kimberly decides that she was going to do something spontaneous, for once in her life she was going to step out of her comfort zone and go back to Beck's hotel room for a night to remember- a night to escape from her reality. But when she wakes in the morning, he's gone- and she's alone, again.

A new temp job opens up and she takes it, as she needs the money. When she arrives at the accounting firm she gets a nasty shock when she meets her new boss, Kyle Robinson. He is very aloof and all business, which is quite disconcerting for Kimberly. But when she discovers some major discrepancies in the books, the story really ramps up a few notches on the intensity scale. What happens from here- well, you really should read this brilliant story and get all these answers... and more, for yourself.

This is a clever, mesmerising, sexy and suspenseful read that had me on tender-hooks right from the

beginning, while I tried to guess what was going to happen next. It's really well written, with really wonderful characters that I fell in love with right away.

I really can't wait to read the next book in this series.

Thank you Ms. Bower!

Chantelle Smith says

Kimberly Hardwick currently has white knuckles as she holds on for dear life through her first disastrous first ever flight, but the only thing she can currently think of is that if she is going to die, that at least the last face she is seeing is the incredible handsome hunk in the seat next to her.

The dark-haired, rich chocolate coloured eyed Beck is holding her hand as they safely touch-down back on solid ground, and he holds her even tighter through the night, but things are too good to be true when she awakes in the morning alone, where she finally realises that the only dreams worth investing on are your own.

But dreams take money, and money is something she doesn't really have. But in order to get some money she is working a temping job in an accounting firm where her new boss Kyle Robinson isn't the only surprise. Thinking that Kyle may be more interested than she first thought, it surprises her when he is all business with her. That is until Kimberley stumbles upon an error in the books she is working on. But the reaction from Kyle starts to make her think of whether he is man she can trust or whether she is setting herself up for even more heartbreak!

Disaster in Love is book 1 in the Disasters Novel series by Liz Bowler. This is my first read from this author but I will most defiantly be on the lookout for her future reads, and upcoming books in this series!

This book completely and utterly hooked me from the very start. I loved every minute of this book, it had some twists that you didn't expect, it also had suspense and mystery throughout that keep you guessing. This book had me entranced, swooning, entertained, hot under the collar, it also had me getting a little angry with some of the characters and what their actions were and what they would or wouldn't say. I loved the connection that developed between Kimberley & Beck, they may have met in some crazy circumstances, but their connection with each other was pretty quick and yet they seemed to be so comfortable around each other. As their connection continued to grow it was slow yet heated and you could tell they had a connection yet Kimberley couldn't understand why Beck would blow so hot and cold towards her sometimes.

I loved the chemistry that these two characters had. During this book, they face some bumps along the way and some issues caused by Beck, but that was before secrets were revealed, this gave a better understanding about why Beck was how he was and his actions towards Kimberley and their relationship. But throughout I could always tell that their relationship was real, their connection was real and I think that is what both of them needed at that point in their life.

This book had a range of emotions that as the reader I could feel from the characters such as happiness, confusion, sadness, heartache & heartbreak and many more but these made me connect with the characters on a deeper level as it gave you an understanding of the feelings each character was feeling while the story was going on.

This book also has some great secondary characters that I'd love to see have their own story told, such as Beck's sister Alicia, after a brief meeting of her in this book I'd love to see her story develop after her break-up mentioned in this book. I'd also love to read Jaz and Laney story, you could tell something was going between them but I'd love to read more.

Kimberley has given up her life in the city to live in her parent home after their death. But finding something has caused her to take a trip of a lifetime, something that has tremendous fear for her but something she must face, what she didn't expect to face was a faulty plane, a gorgeous guy that begins to push his way into Kimberley's heart and dreams. Kimberley is beautiful, talented, head-strong and determined to finally live her dream. But love, relationships and secrets get in her way of finally getting what she wants.

Beck is gorgeous and strong, but remains a mystery to all throughout most of this book. But when the truth is finally revealed it wasn't something I expected. I love the passion he has, I love that he continually gives Kimberley the confidence to go after what she wants. But he also gives a lot of weird signals towards Kimberley and their relationship which makes me like him one minute and not the next but after he finally reveals his secrets and the truth of why he is living his life, and his actions, it all becomes clear.

I hope this isn't the last we read of this couple! They really do have a connection that they both need in order to finally start living their lives together.

This is brilliant read of trust, love, passion& finally a chance to move forward.

Disaster in Love (A Disasters Novel, Book 1: A Delicious Contemporary Romance) by Liz Bower is a story that will make you laugh, frustrated and leave you sitting on the edge of your seat the next. This story will pull you in from the first chapter and keep you engaged until the last page. The characters are true to life and connectable. They will pull you into their world of suspense, mystery and yes, even some hot, steamy romance. I enjoyed this authors writing style and her creativity for details. Find out what happens to these characters as they may find more then what they were looking for.

Kimberly Hardwick has always taken the good with the bad and now she is about to take her first flight. She is pretty sure that she is about to die. The only hope she has is the handsome hunk sitting in the seat next to hers. He holds her hand until they land and she is safely on the ground. What she wasn't expecting was to share a room with him where he holds her throughout the night. The only confusing thing for her is she woke up alone. She realizes that the only thing worth investing in is her dream of opening her own bakery business. But her dreams cost money so she decides to take a job with an accounting firm. Will she find more then what she has bargained for? What will she do when she looks up into the same eyes that left her in the night? When his eyes follow her everywhere and but he is all business, she starts questioning what it is about him. She discovers a discrepancy in the books but he doesn't seem to respond to much to her findings. She questions where or not she can trust him or is just setting up herself to fail?

You will fall in love with these characters. Kimberly is a character that doesn't trust very much. She is looking to find herself. Unfortunately, it is life situations that have made her this way. She works hard and with a determination. She knows what she wants from her future but will things change for her? Kyle is the handsome hunk who in my opinion has more to him then meets the eye. He is kind of mysterious. I questioned whether or not he will ever get it together, and be more then what he is. Their relationship is kind

of confusing but they will keep you going. But she has trust issues that may stand in her way, will she ever get over them? You can tell that he really likes her by some of the things that he does for her but some of his actions are still questionable. Find out what happens between these two characters as they move through the twists and turns. Will they find their HEA? Will she learn to trust?

This is not my first book by Liz Bower but it is the first time I have read something a little different from her. I know that I can't wait to read more of her books like this. I enjoyed the twists and turns and the suspense. This book had a little bit of everything in it. Liz has lived in three different counties in the past ten years. She writes about people finding their own happily ever after. When she is not writing she spends her time drinking too much coffee, walking her dog and looking for her next read. This is a fast paced story that will hold your attention until the last page. It will keep you wanting more and needing to see what will happen next. I highly recommend this story as I know you won't want to miss the suspense, mystery and romance that heat up the pages.
