Enrule Holly Sparks

I remember waking to the scream.

I remember calling my sister's name.

I remember seeing the blood smeared along the staircase.

I remember the creature's green eyes.

They say there's a cure. They say there's a way to stop this madness, a way to stop the hunger.

I think they're lying.

My name is Ella, and this is my story.

In this exhilarating debut, Holly Sparks presents a horrifying dystopian world, a remarkable heroine, and an unforgettable adventure.

Ella is one of the very few survivors after the zombie virus invaded their neighborhood. They were taken to a place called Underground where they are trained to fight and defend themselves against the zombies. Saving the other survivors who were trapped outside is their main objective. Just when she thought that everything is finally getting better, a shocking incident happened that made Ella and her new found friends to take a very dangerous step.

I want to start with what I love about Enrule and obviously, it's the gorgeous cover. I haven't read the book description so I had no idea what the story was all about. I thought it's a fantasy novel with warriors or magic on it. I was totally surprised that this is about zombie apocalypse which was so perfect because I'm a zombie fiction fan.

Ella is the main character in this book and honestly, I didn't really like her that much. She can be really stubborn and sometimes, annoying. She made me roll my eyes especially during those instances when she meets a new guy. But I do admire her braveness, dedication and willingness to save and protect her friends and other people.

Zoe is definitely my favorite character. She is a certified badass. Just like Ella and the others, I was also amazed by her assassin/ninja-like skills. Sadly, I wasn't able to connect with the characters because I didn't get to know much about them. I hope we'll get to see more about their background stories on the next book. There is romance and probably a love triangle but I didn't care much about it. I was more intrigued with the mystery part of the story.

Action-packed! This book has a great deal of well-executed fighting scenes and I love it. Aside from the engaging story, the writing is easy to understand and it flows smoothly which made this book a quick and fun read.

Overall, I enjoyed reading Enrule. This is perfect for zombie fiction lovers out there and for those of you who wants to read something which is outside your comfort zone. I'm pretty sure that you'll love this.

A very outstanding debut novel. Congrats to Ms. Holly and please don't let us wait too long for the second book. :D

Enrule by Holly Sparks was incredible. It had my heart racing, my eyes watering and I laughed too! Enrule is the story of Ella's life after the world she lives in has been taken over by zombies basically... its about her survival, the people she meets, the near death experiences and about her family.

Ella is the main character in the story and to be honest at the very, very start I was a bit unsure on her. I thought she might be a little annoying like a lot of characters seem to be but No! Did Holly Sparks just create one of the coolest characters? Yes she did! Ella was so brave and quite a hero! I really enjoyed reading the novel from her point of view! She is also like the best fighter out there! (well, with the amount of time she

had she is)

Troy..... heheheh Troy was amazing! He was... I loved him! My new bookish boyfriend ;-) I really looked forward to reading scenes with Troy because of the Chemistry and just his over all attitude its great!

~

Zoe was another character that really liked she was like a mini ninja! And I loved how close her and Ella become throughout the book!

I DO NOT LIKE SOMEONE OR A FEW SOMEONES BUT I WONT SAY ANYTHING CAUSE DONT WANT TO SPOIL THE SURPRISE!!!! But Holly Sparks did a great job at making me hate these character/s!

So, this novel is a defiantly a must read for the beginning of 2016 if you haven't already read it! I can see it becoming a major craze very soon so why not join in on the greatness early!!

Holly has a great writing style that should be shared with the world!

So, I have SO MUCH to say about this book that I have no idea where to start or what to say first. This book is short but is so full of action and I JUST LOVED IT SO MUCH!!

If you know me, I LOVE zombies. Zombie shows (aka The Walking Dead which is my life), zombie movies and zombie books. And this incredible book is all about zombies! So, of course, I have really high hopes for this when I started reading.

It had EVERYTHING I was expecting. It had zombies (obviously!) that were not your usual zombies but still zombies! It had romance which if you also know me, I'm a sucker for a love story and anything romantic! It had action which I LOVED!!! Who DOESNT love action??! It had swords and knife throwing and hot guys (aka Troy) and romance and action and zombies and Troy and death and Troy and badass girls with swords and Troy.

I mean, it was truly amazing!!! If I didn't have this freaking cold, I would have finished way earlier today. Anyway, so Ella is the main character who starts out vulnerable and weak and then when she's out there looking for survivors to help it's the BAM she's a badass girl with a sword. Honestly, I loved her character because I could see myself in her. I am probably the weakest person ever, I can't throw a punch to save my life. And that's just like Ella at the beginning of this book. Everyone laughs at her because she can't even throw a punch. And then when she's out there looking for survivors, her defensive skills kick in and she does everything and anything she can to protect her friends. This reminded me kind of like myself, because I would do anything I possibly can to protect my family and those I love. We all would.

And then there's Troy. If you couldn't already tell, I love his character!! He was so mysterious throughout this book. You hardly fun out anything about him which makes me like him even more because it leaves everything to your imagination. But, one thing we do find out is he has a protective streak towards Ella. And, of course, you can't have a zombie book or any book without some romance sparking.

Enrule kind of reminds me of Divergent and The 5th Wave rolled into one. But that's okay because I LOVE Divergent and I LOVE The 5th Wave!!!! So I DEFINITELY loved this.

Okay, so I could go on FOREVER talking about this book and how much I utterly enjoyed it but then I'll just have to tell you everything that happens and I cannot do that. So, GO GET THIS BOOK SO I CAN FANGIRL ABOUT IT WITH SOMEONE!!!

EVERYONE NEEDS TO READ THIS BOOK!!! It's short, only 232 pages, so it's a quick read but it is so full of amazing action and zombies.

I'm just going to talk about the ending for a second. OH. MY. GOSH. THAT WAS SO CRUEL TO LEAVE IT LIKE THAT. I just wanted to scream (in a good way!) when I finished it. I NEEEEEEEDDD to know what happens next

Rachael (foreverxbookish) says

I really enjoyed this! It was action packed and mysterious, and surprised me how interesting one journey could be. I mean it is in the middle of a zombie apocalypse.

I really loved the characters, even if we didn't get to know much about their pasts or how they came to be the way they were. Maybe we'll learn more about them in book 2. But they were definitely a fun bunch. I absolutely loved Zoe! She's definitely something!!

I loved the zombie aspect of the book, but I don't know a lot about them. I'm definitely very uneducated when it comes to zombies.

The end. Without spoilers, I kind of expected the end, particularly after certain ends transpired since it was mentioned in the very beginning. Parts were definitely a surprise, but the last words didn't really surprise me because I didn't trust a certain character to begin so it would make sense they would be there at the end.

It was a quick and easy read, fair for a first book. The editor/beta reader could have done a bit more to improve the grammar. After the first few chapters the pace finally picked up and I can see myself reading Venom once it is published.

I enjoyed this story, and found it to be a nice light read. There was a good deal of action, and a nice mix of romantic feelings for good measure. It took a while to get to know that characters, and I have to admit that every time there is a strong female character that all the guys around are instantly drawn to me, I get a little turned off. That's just a personal preference, but in general the characters were likable. There were some wording errors, but not enough to distract from the general flow of the story. The action was fast paced, and didn't seem forced. There are also some good mysterious elements which make me really curious to see where the story will go next. I can't say that zombies are a particular favorite of mine, but I did enjoy the story.

Mark King says

Definitely not my normal choice of story but I found that the fast pace and many mysteries kept my interest.

More like 3.75-5 star rating! Review to come within the next couple of days :)

J.F. Johns says

I was so excited to read this book. I'm absolutely terrified of zombies, but I've been wanting to read something like this for a while.

This book is seriously action-packed. I mean, the moment you calm down and think like 'okay, now we can rest,' something happens and all the characters are running for their lives once again. I seriously liked that. In a zombie book, action is what you need, and action is what you will get in Enrule.

I really liked that there's more to the story than just another zombie plot. Like, there are so many questions, especially surrounding Ella (the main character) and her family. It sucks so bad that I have to wait 'til the 2 book to figure things out! I feel like the 2 book is probably going to be even more awesome than the 1!

The characters; I really did enjoy the characters. Ella is an amazing mc. She's not annoying at all, which is usually the case in 1st person (in my opinion). She's strong, brave but also makes mistakes, which is nice, she's not perfect. I love Troy, though the book was quite short, so we didn't get to know a lot about him, so I'm hoping we will in the 2 book!

Zoe and Kira were also my favs! The same goes for Kira as for Troy, I felt as though I didn't get to know her as much as I would've liked! I'm hoping in book 2 we will get to know the characters so much more.

Even though the book doesn't have a lot of description, I could still picture it all perfectly in my mind as if it were a movie, which was awesome! I'm sad it was kinda short, 'cos now I have to wait for the next one!

Overall, this book is intense, fun, had great characters, great plot, and was pretty amazing. I definitely want to go and find some more zombie books now! :)

J.M. Storin says

If you enjoy a good zombie story and a badass female protagonist, Enrule is for you!

Positives: action scenes galore! Sparks does an awesome job of writing action and fight scenes and there were plenty to go around! I also love that there was a mystery throughout the novel that kept us intrigued ;) I will keep it at that to avoid spoilers! And Sparks created such an awesome character in Zoe!

Now for some constructive critiques (and this is totally just my opinion so take it with a grain of salt). Ella was kickass, but I also found her backstory and development a bit repetitive. I felt the only thing we learned about her was how she wanted to protect her friends. I don't know much else about her personality. I felt the supporting characters also had a lack of development. Zoe was my favorite, but besides her, I didn't care much for the others as I just didn't learn much about them.

I'm anxious to see where this story ends up going. As a debut novel, Enrule was a great foundation to begin building a series off of. Congratulations Holly!

When I heard that Holly Sparks, who I know from Bookstagram, had written a book, I had to support her and buy it, especially as it is about ZOMBIES :)

I really liked the story of Ella, the main character.

With the first chapter, the reader is immediately 'thrown' into the story, as zombies are chasing after Ella and her family, who are all trying to get to safety. At that moment, the reader basically knows what this novel is mainly about: zombies, survival, loyalty, and badass fighting :)

Ella arrives at an underground facility with some other survivors. Here, the mystery is added to the equation - quiet talk about an organization called The Society, a mysterious man called Derrick, the supposed leader of the facility Ella is currently staying at, ...

Ella meets Troy and 3 other boys from her dormitory, and Kira and her group of friends. It was great to introduce these characters into the story, but what happened to fast - in my eyes - was the development of their friendships and them trusting each other immediately without knowing anything about each other but the fact that they are all survivors.

The story has a slightly bumpy beginning, but it developed alright. The ending was my favourite part of the whole book (the last 70 pages or so). I can say that I liked Ella. She is a badass fighter, she is loyal and doesn't want to leave anyone behind, but sometimes she acts a little rash, maybe? Getting herself in danger, instead of running from it - sometimes this is brave, but it could also be a little foolish, running toward danger when you are trying to survive ;)

Other than that, Holly Sparks knows how to describe places and fighting scenes, they were very well written. There were a few grammar and punctuation errors, but nothing major :)

I will be looking forward to reading the sequel to Enrule,

Anne ♥

The writing in this particular book is very engaging. I read this book in one sitting, and was pleasantly surprised. I wasn't expecting a Zombie book going into this, but I ended up enjoying it. I liked the quick pace of the book, and it was to its advantage to be so quick!

I really enjoyed reading this novel! It had a fast pace and Ella was such a badass protagonist, I instantly liked her. There also were loads of very well-written action scenes that kept everything interesting. I'm excited to read the sequel, Venom.

4/5??

This book was absolutely awesome!! This could totally be turned into movies like the maze runner or hunger games. Holly Sparks you are an absolutely amazing writer and I can't wait to read your other works!
Ella by far is one of my top favorite characters right now. Everyone thinks she all weak and stuff then she turns around and becomes 100% badass to save the people she cares about. I can't wait for the next installment of the series!

Zoe is also kinda of a badass she's this little innocent nine year old that is like armed like a skilled assassin, which is completely awesome.

Then there's Troy, talk about protective. He's always there for Ella and Zoe and even Dale. He definitely has feelings for Ella which I feel like he wants to act on but then he thinks, the world is ending should I really think about getting laid?? So it's almost like he's afraid.

And Dale, he's that lovable character that will always be friend-zoned by the girl although he is quite attractive.

And who could forget Kira the best friend who would do anything for Ella and would start a fight with

anyone she didn't like.

But like I said I can't wait for the next installment
