Finding It Riley Hart , Devon McCormack

Will you marry me, Gary?

Travis never expected to meet the love of his life, especially not with a guy like Gary-his very own Superass. But now that he has, he's not letting him go.

He's got the ring and a plan.

But when his proposal during the biggest fundraiser of the summer doesn't go as expected, it's up to familiar friends to make sure this day ends with someone putting a ring on it.

Because these guys know the hardest thing about love is simply FINDING IT.

This 17,000-word Metropolis story contains adorable antics, sexy shenanigans, and a fabulous HEA.

Santy says

It was good to revisit these crazy people before I jump into book 4!

~Mindy Lynn~ says

5 Stars!

Travis and Gary will forever be my favorite couple in this series. I absolutely loved their story and none that followed compared to its greatness. I was pleasantly surprised when this one showed up in my feed. I one-clicked this BB real quick but I didn't read it until I had myself a re-read of the first story. This book gave me a great excuse (not that I needed one) to visit one of my favorite couples again.

If you've read the previous books and enjoyed them then you will for sure enjoy this fun short sexy read. The whole gang is in it making sure Superass and Trav get the proposal they both deserve.

Sanaa ? Sanaa's Book Blog ? says

I didn't know this book was happening but it was super cute!

Apolishedreader says

A comedy of errors throughout this cute short will remind you why Gary and Travis are so good together. This is a good short to catch up on Gary and Travis before delving into Evan and Frankie.

Jako totalna antyfanka po?ówek, tej z czystym sumieniem mog? da? pi?teczk?. Za pomys?owo??. niekontrolowane wybuchy ?miechu i jedno wielkie *ojoj jak s?odko* :) Poza tym jest to cudne wprowadzeni? w histori? Karaoke Kid i Frankiego.

Grady says

‘Trav and I worked hard to put that together, and we found out that we enjoyed planning these fundraisers’

Southern gentleman Devon McCormack grew up in the Georgia and according to his biographical information from a very young age 'he spun tales the old fashioned way, lying to anyone and everyone he encountered. He claimed he was an orphan. He claimed to be a king from another planet. He claimed to have supernatural powers. He has since harnessed this penchant for tall tales by crafting whole worlds where he can live out whatever fantasy he chooses.' Devon is a gay man and focuses on gay male characters. In this book FINDING IT- Book 3.5 of their Metropolis Series (FAKING IT was Book 1) he joins California author Riley Hart who states she is a hopeless romantic, 'a lover of sexy stories, passionate men, and writing about all the trouble they can get into together.' The team works very well together!

Somehow Riley and Devon understand the varieties of interpersonal relationships between same sex matches and they put this all in a macrocosm of a dwelling place that caters only to gay men. In lesser hands the idea of a fundraiser for gays alone would stretch credibility, but Riley and Devon make it work – very well – and add a hefty dose of erotica to the scheme!

The story is very brief – 73 pages - and the brevity just makes the resolution that much more satisfying.

The synopsis makes the story clear: Will you marry me, Gary? Travis never expected to meet the love of his life, especially not with a guy like Gary-his very own Superman. But now that he has, he's not letting him go. He's got the ring and a plan. But when his proposal during the biggest fundraiser of the summer doesn't go as expected, it's up to familiar friends to make sure this day ends with someone putting a ring on it. Because these guys know the hardest thing about love is simply FINDING IT.''

This is very fine writing and the voice sounds like one author instead of two – a factor which is as high a compliment one can pay to a duo who have joined efforts to write one book!

Katie Townsend says

Loved

Finding it was such a beautiful short story

Being back with Gary and Travis was such a wonderful
Place to be

Every chapter in this story were so heartwarming the love Gary and Travis have for each other is so strong it
jumps off the pages

It was also such a bonus to see all the guys from metropolis again

I fell in love with Travis and Gary and the rest of the metropolis guys all over again

Thank you Riley Hart and Devon McCormack for this beautiful lighthearted sweet and adorable short story

Rachel Emily says

I loved this novella that takes place between book 3 and 4! I love that it had all of the guys and all of the couples together, and I loved getting to see where they all are after they first got their HEAs.

Travis and Gary are just great together, and Derek and Jackson continue to steal the scenes that they are in. I adore this group of guys and love seeing them all happy together!

DTM says

What a fantastic surprise!! Excellent read!! I'm not giving anything away...you MUST read this!! It funny, sweet, romantic and sexy hot!! So much fun spending time with the Metropolis boys!!

Leigh says

3.5 stars

Finding It was a really cute and sweet novella. I loved catching up with the boys of the series, and I loved how hard Gary and Travis wanted everything to be perfect for what they had planned for each other. I'm looking forward to Evan and Frankie's book.

Eugenia says

Fun and Sexy Short!

I picked this up as a bit of a pallet cleanser admits a string of mpreg books. It was perfect!

Lighthearted and full of feelz, we spend the day with Gary and Travis as they tackle their biggest fundraiser thus far, as well as a dual proposal.

Of course, everything gets turned upside down until the Scooby Doo Gang comes in to save the day.

For me, this was a fantastic departure from the last book in the series—I couldn't stand Derek. I only had to listen to him say 'Daddy' twice in this one; and 'hole' only once.

I'm guessing the next book will focus on Frankie and Evan and should make for a good read.

Barb ~rede-2-read~ says

Great story of Gary and Travis, each planning to surprise the other with a proposal. Problem is both have things preventing them from getting to do it the way they planned.

The whole gang is present, including Evan and Frankie who are now roomies and haven't had their own story yet.

Really nice, but definitely needs to be read after the first three. No standalone for this one.

Cadiva says

Cute novella catch up with the gang

This is super sweet and quite funny as events conspire to muck up the plans of both Travis and Gary to propose to each other.

There's the usual sexy men, the great friendships and a lot of daft adventure on a couple of yachts before all ends well :)

Akknieszka says

W dalszym ci?gu moi ulubie?cy :)

Michael says

Big things come in small packages, or so they say. This didn't read like a novella, but rather a full length book. An absolute MUST for anyone that read Faking It or for fans of the series in general!!
