## **Tara says**

Pretty good common sense advice.

Penthouse is not real sex, neither is porn. Nothing wrong with a little of the aforementioned, but certain parts of our anatomy associated with making love have nerve endings. Harder is not always better, the author explains, and she would be correct. Quality takes time, and a gentle hand... or in this case, ...umm...not a hand.

---

## **Phillip says**

you might agree

---

## **Gary Prevost says**

My sister-in-law gave me this book to read years ago. It was a good book. Short and light reading. I gave it away as soon as I finished it because I was too embarrassed to have book with this title laying around my apartment.

---

## **Teela Hudak says**

Short book and simple language. The book isn't very well written. The author spends a lot of time spouting personal religious beliefs and views on love, sex, health, and relationships. The audience is very much for monogamous Christians who have a traditional views of gender roles. I read another review that stated the author sounds like a drunk aunt who's cornered you at a family gathering and that sums up a lot of how I felt getting through this book.

---

## **Max Beyer says**

It's really bad...

The author's voice reminded me of a drunk aunt at a family reunion that corners you and traps you in conversation for an hour.

My guess with this book is that it was written by a once relevant person in a time when information was a little bit harder to come across. The first two chapters are self serving advertisements and drum rolls leading up to the title of the book, and then there's three four page chapters about "how to satisfy a woman every time." Then the next 100 pages are more self serving advertisements, a lesson in theology, and a numbers

game of daily vitamins.

I could see how at one time this book could maybe be good, but in our current information age where we can get specific information and check sources and what not, it's irrelevant and obsolete. Not to say the purpose the book tries to achieve is irrelevant \*wink wink\*, just that using the book as a tool to accomplish that goal is obsolete.

---

### **Zeeshan says**

i think is a very nice book

---

### **csaba says**

too much narcissism

---

### **Radiolab says**

Radiolab asked listeners for their sex ed recommendations.

Marshall, a Radiolab listener, says, "I read this within months of having sex for the first time and it literally set the tone for every [straight] sexual encounter I ever had. It's probably the most important book I've ever read."

---

### **Toni says**

BRILLIANT EVERY MAN AND WOMAN SHOULD READ THIS BOOK

Tells a man and a woman explicitly exactly what to do and how to do it to give a woman an orgasm every time.
