## **Rock with Me** Kristen Proby

Front Man Leo Nash from the world-famous rock band, Nash, is the last person on earth Samantha Williams would trust. She's already learned about loving a celebrity the hard way and isn't signing up for another lesson.

Every time Sam gives Leo attitude, he wants to knock that chip off her fragile little shoulder. What the hell did he ever do to her, anyway? He's not used to women treating him like he's poisonous, and he isn't about to let her run away every time he gets close. He's had enough of people running away to last him a lifetime...when this one runs, he gives chase. But, catching Sam isn't as hard as he thought.

The sexual attraction between them is so thick, Sam can practically hold it in her hand. There's no way she can deny herself the promise of pleasure being with Leo would provide.

But, pleasure always comes with pain and when secrets are revealed and trust is challenged, who will run and who will chase?

I just finished an ARC of this....and wow....I needed a minute before reviewing....that's how much I loved this one. Kristen has had me under her spell since "Come Away with Me"----swoon worthy men, each different and unique in his own way---but, what I truly adore about Kristen's leading men is how their world changes when they meet these women (and Kristen writes a hell of a leading lady)....and how none of them are afraid to deny it to themselves or anyone else in their lives. They are changed by her and instead of running away from that, they embrace it and rearrange things in their lives in order to profess their love. To me, this is SWOON worthy!!!!

Leo....oh Leo....where to begin. I didn't think anyone could out-do Will Montgomery in my head.....but, Leo did. He seriously did. His devotion, his intensity and his take-no-bullshit attitude.....sa-wooooooon. Almost everything this man said made me smile. His inner monologue was FANTASTIC. Every time he called her Samantha, I got chills.....seriously. LOVE HIM.

Sam kicks all form of ass. I ADORE her. She's a total smartass and many times made me laugh out loud while giving Leo a hard time. She stole my heart away very early in the story and I became more and more attached to her as the story continued.

As usual, we get a really nice glimpse into the other "With Me in Seattle" characters---Natalie, Luke, Jules, Nate, Will and Meg (which I LOVE)----and these glimpses do not disappoint AT ALL.

Grab this one as soon as it's available. You won't be able to put it down!!!

### 5 Rocking Stars!!!!

I love this series! LOVE IT! This story features rock star Leo Nash (Meg's brother) and Samantha Williams (Luke's sister)

The two of them met at the end of book 3 (Play with Me) and their meeting was pretty comical...

“So Sam, what are you doing later?”?

“I won't be doing you.”

“Uh, I wasn't offering, honey. I was wondering if you'd like me to take you to have that stick pulled out of your ass.”

“Nope. I like my stick right where it is.”

?“Let me know if you change your mind.”?

“You’ll be the first to know.”

Leo Nash is a rock star. He is the front man for the band Nash. He has come a long way. From living in foster homes as a teenager, to being one of the world’s most popular musicians. Besides Meg and his band, he has no real family.

?When I first met Sam Williams in Come Away with Me, my first thought was- what a bitch! But she really isn’t. She is just fiercely loyal and protective of her family. They are a famous bunch, and she knows all too well of the users out there. She keeps to herself, doesn’t really date or have a lot of friends because she fears people aren’t wanting to get the real her, but wanting a connection through her family. Her loyalty has lost her her job. Sam is stubborn and tough on the outside, but she is a very kind and good person.

Leo and Sam become friends. Since Sam has lost her job, and Leo is on a break from touring, they pick up running together every morning...

“I don’t ever want you to run until your legs give out on you like this again. The only time your legs will shake like this is if I’m inside you.”

Leo is sex on a stick. Seriously... sexy as hell! ?

Any woman who says that the V in a man’s hips isn’t sexy is a fucking liar.

One look from this man, and I’m a puddle.

He and Sam hook up. Sam doesn’t really do relationships, so she is familiar with the ‘friends with benefits’ routine. Leo sees so much more in Sam. He wants her. He gets under her skin, and it scares her to death.

Sam and Leo are cut from the same cloth. They are both stubborn and have trouble letting anyone in. The more time they spend together, the more they both start falling for one another. Leo knows how Sam is, and he respects that. He tries to be there for her in a way that won’t scare her off. All he wants to do is love her, protect her, take care of her.

“I know you’re strong and independent and I respect that, but this is who I am, Sam. I take care of what is mine. You’re mine.”

And I love his nickname for her...

“Why do you call me sunshine?”

?“Because when you smile, you light me up inside.”

I just loved Leo! It was great getting to look into his past. He was intense, but sweet, understanding and HOT

as hell!!!

“As soon as I get you home, I’m going to fuck you until you can’t walk.”?

“Promises, promises.”

I was surprised with how much I liked Sam. I was nervous I wouldn’t love her, but I did. Once I understood why she was the way she was, I respected her for it. She and Leo were great together.

As always, I loved getting to see the rest of the ‘with me’ gang! Luke & Natalie, Nate & Jules, Will & Meg, and the rest of the many characters in the Montgomery clan! I can’t freaking wait for Caleb’s book!!!! So excited! I also loved getting to meet the rest of the band members of Nash- they were awesome!

This is a fun, sexy, and terrific series! Can’t get enough! Once you start this one, you won’t be able to put it down! Enjoy Leo and Sam’s story <3

**4.5 Stars**

*“You. Are. So. Amazing.” His soft lips brush over mine, back and forth, over and over again as he begins to move inside me. “Rock with me, baby.”*

**HOLY HELL, I LOVE LEO NASH! UTTERLY AND WITH FULL OUT DEVOTION! I WANT MY VERY OWN SEXY, TATTOOED ROCKER!**

*Rock With Me* by Kristen Proby is about Leo Nash, front man of the world famous rock group named Nash, and Samantha Williams, Luke's sister. It is a good idea to read the other books in this series as all the characters are either related to one another or have other ties. It will be a more fulfilling read if you read the series in order.

Let's start by meeting the author's "inspiration" for Leo Nash. **Oh Lordy, is he sexy!!!**

*The man is just sex on a stick.*

***“Don’t ever lie to me, sunshine. I don’t ever want you to run until your legs give out on you like this again. The only time your legs will shake like this is if I’m inside you.”***

Leo Nash has made it big in the music industry. He has it all so it seems. When he decides to go back to Seattle to see his long time "sister", Meg, he meets Samantha Williams. With a nonchalant attitude and some crazy bitchiness, Leo knows that Sam has the potential to to change his world.

***“Leo?”***

***“Yeah, sunshine.”***

***“So not a one night thing,” I whisper.***

***He chuckles softly and drapes an arm around me, pulling me closer to him. “I’m glad you’re catching up.”***

Samantha Williams is no stranger to the lives of the rich and famous. After all, her brother is Luke Williams. She has been terribly hurt in the past by the price of fame which has made her standoffish and unapproachable. She doesn't show many people that under her tough exterior lies a compassion and caring woman who is simply scared to take any more chances on love. Meeting Leo Nash has all her red flags on high alert. But damn is he is not hard to stay away from. It has to be the sexy tattoos. Right???? ;)

***“You make me forget how to breathe,” he whispers.***

***I love the way you kiss me,” I whisper back.***

\*\*\*\*\*

***“Oh, sunshine,” I whisper and smile gently. “Haven’t you figured out that I’m completely in love with you?”***

I loved this book. I am not usually one to read rock star romances but I decided to read *Rock With Me* because I love this series. I am now a Nash lover, make that a Leo lover. He was the perfect mixture of sexy, bad-ass and sweet. I absolutely loved how Leo saw past Sam's walls and saw something worth fighting for in her. As the barriers Sam has erected slowly begin to come down, we see how perfect they are for one another. Leo was the cocky and assertive man that Sam needed even though she was too stubborn to see it at first. Sam eventually realizes that Leo is different and gives into his seduction and charm. Hell, who wouldn't???

***“Leo, you are the picture.”***

\*\*\*\*\*

***“I love you, Samantha Williams. Every damn day, I love you.”***

Once again, Kristen Proby has provided us with a book full of hot and steamy scenes as well as a tender and heart-felt romance. The romance between Leo and Sam was simply heart-fluttering. It was nothing over the top. This was simply a book about a man meeting a woman, they connect, work through some hang-ups and move forward with a HEA. I loved it.

One of my favorite things about this series is all the amazing characters and the pee-yourself scenes that Ms. Proby writes so well. Every book seems to have discussions about orgasms, apagasms, horny men, horny women....you get the picture. *Rock With Me* is not without its share of hilarious moments and conversations. One of my favorite scenes is when Sam and Leo babysit Olivia and have the poopy diaper incident. Funny as hell!

*Rock With Me* was simply an amazing read and a wonderful addition to a great series. Kristen Proby never fails to deliver. This series is funny, sweet and well-written. I will be anxiously awaiting the next book about Caleb and Brynna.

***When you smile***

***Your sunshine hits me***

***And the shadows in my soul***

***They are gone***

***“Are you happy?”***

***“Oh sunshine.” He sighs and pulls my hand up to his lips, brushes them over my knuckles and smiles widely at me. “Happy doesn’t even begin to cover it.”***

**~ Becs ~ says**

I'll take you hard, and soft, and every way in between." He grips my face in his hands and looks down at me, his nose touching mine. "I'm going to fuck the shit out of you."

*Oh God, yes!*

I have loved every single book in this series and *Rock With Me* is no exception. This time it's the turn of Leo, Meg's oldest friend and famous rock star and Sam, his Sunshine. Sam is Luke's sister and we had a pretty harsh introduction to her in *Come Away With Me* when she acted like an arch-bitch to Natalie but, now we understand her reasons behind it, it's hard to dislike her.

I love series like this – you have a complete story in each book and a beautiful happy ending but you're constantly in touch with the whole Montgomery gang and we're able to keep up with those characters that we've fallen in love with in previous books and Kristen Proby does this so very well. Everyone, heroes past, present and future, all remain steadily in character and it's totally believable. You really feel that you've come to know these people as friends and I read the scenes where they all get together and rib each other and just have so much fun with a big ole goofy grin on my face. I love the camaraderie between all these characters.

Leo is a slightly edgier hero than we've seen from Kristen before. He's all rough edges, tough harsh exterior, covered in tats and piercings but, deep down, right where he's trying to keep it hidden, is a heart of gold and he's falling in love with Sam. He tries to resist it, he's convinced himself that he doesn't do relationships, doesn't believe that his lifestyle leads to much trust and he tries to play it cool and keep it just physical but there's a spark between these two that will not be denied.

He escorts me to the door, his hand on my low back, and as we wait for our hosts to answer the door, he leans in and whispers against my ear, "As soon as I get you home, I'm going to fuck you until you can't walk."

I swallow hard, but grin sassily. "Promises, promises."

Sam is prickly, tough cookie. She's had a relationship end badly in the past and she's scarred by her experience and is slow to trust and doesn't want a relationship either but, the more time she spends with Leo, the more intense their physical relationship becomes, the harder she knows she is going to find it to walk away and fears getting her heart broken.

"Samantha, I'm not going to make love to you tonight. But I'm going to kiss the fuck out of you."

They're both stubborn, set in their ways and it takes a long time for both of them to see the beautiful thing that is building between them. The edgier theme continues as their sex life is decidedly more aggressive than we've seen before in any Kristen Proby book and there's some ferocious and incredibly erotic sex scenes as well as beautiful emotional scenes where they are clearly making love, not fucking.

"I've never in my life felt like this," he murmurs and continues to make love to me.

"You are everything I've ever wanted, Sam. More than music. More than anything."

There's a few standout scenes for me – the first time that Leo & Sam kiss in the garden during a family gathering, the scene in the rain when Sam gets a flat tyre and there's a smokin hot rocking chair sex scene that will probably be forever etched in my memory!!

Another nod must go to Levine, Sam's kitty – I just adored him!!

I loved every second of it, never once did my attention start to wander and I never felt the need to skip. I do think both Leo and Sam are slightly edgier central characters than we've seen from Kridsten Proby before and the angry sex was decidedly edgy but that's not a negative for me – in fact, all that pushed this up to the first five star rating I have given for this series. I very much enjoyed their snark and their sarcasm and the snappy one liners they were constantly coming out with. They made me laugh. Lots of times. I love the way Leo calls her a brat and the way that Sam doesn't take any crap from anyone. They're just another couple to treasure in this thoroughly enjoyable series.

The pacing is beautifully done - the characters slowly get to know one another and, as a reader, I really enjoy the growing feelings between them and Kristen Proby seems to do that better with each book she writes. It's never instalove or sappy - it feels more genuine, more realistic. The central couple always start off fiercely attracted to one another and the deeper affection builds slowly - I like that they never declare their love straight away and I like that there's always barriers that have to be broken down, a reason to wait for the happy ever after.

So, this is the first five star I have given for this series and if you've enjoyed Kristen's books to date, you're definitely going to love this one. Caleb and Brynna up next – can't wait!

5 fantastic stars

3.5 Stars!

It pains me to say this...but I think this might be my least favorite in the series so far. I loved the last two books and was so excited for Leo Nash.

Unfortunately, I wasn't a big fan of Sam. And if I am being completely honest, I just didn't feel the emotional connection to either MC that I have in the other books in the series. I loved Nat and Luke, Jules and Nate, and Will and Meg.

There wasn't much story going on either...and very little conflict. The book was mostly sex. Now, normally I am not one to complain about that...but to me, this sex wasn't as hot as the sex in the other books--hello, apogasm anyone?? And believe me, Kristen Proby can write sex. I also found it a bit of the same thing over and over again....I love your eyes. I love your eyes too. I love your ass. I love your ass too. I love your naval piercing. I want to lick your stars. I love your lips. I love your lips too. And Sam was **CONSTANTLY** looking at Leo's lip piercing. Dare I say, some of the dialogue was even a bit cheesy.

I really can't even tell you what the book is about. It wasn't about much. Leo and Sam meet at the end of Play With Me. Leo is back in Seattle taking a break from touring with his band. Sam has just lost her job. They basically hang out all day....have sex....she goes on a few job interviews...he writes and records her a song....her picture shows up a few places....she gets mad at Leo....they make-up.

Again, I am a fan of the series as a whole....this one just wasn't my favorite. Brynna and Caleb's story is next....

The With Me In Seattle series is a seven-book series that focuses on a family that lives in, you guessed it, Seattle. Each book centers around a different couple, but we will continue to see the characters that we love from the first books, all the way through to the end.

If you know me you'll know that i am IN.LOVE. with Seattle. So this series were extra especial to me. So far i loved this series . It is funny, sexy, overwhelming, and absolutely beautiful with great AMAZING characters. There is not one character in this series that i didn't love. Which is saying much, i'm very hard to please when it comes to my characters.

The titles in this series are just so fitting!!! LOVED how they seems to express everything in the book through them.

**Rock With Me:** is super awesome, and sexy, i LOVE a guy with a tattoo and my Leo was super hot and everything i'm looking for in a male lead.

**The tattoooooos SWOON, and those stars ugh I wanna lick them ;P**

Honestly in **Play With Me** i hated him, i really thought he abandoned Meg. and in this one we see how much he LOVED her and how much he cared for her.

IN **Come Away With Me** i HATED Samantha , she was a bitch . in this one she is still a bitch, but a likable one. I love her attitude in this book. I understand her now, her actions, what she said and what she did to protect her brother, it was justified.

I feel sorry for her, i'm very glad i get to read from her point of view, i really liked her, she is a great character.

? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ?? ??

I really want a NASH T-shirt concert.I loved all the members and their families.  
?????

*“You. Are. So. Amazing.” His soft lips brush over mine, back and forth, over and over again as he begins to move inside me.*

*“Rock with me, baby.”*

**~~Leo Nash~~** Hardcore Tattooed Guy who's a Freaking Musician! \*time to swooning & Squeeing\*

**Leo** a **Rock Star** and lead of the band **NASH**, a guy whose life as a teenage spend into foster homes, he don't do relationships which means beside being world's most popular musician he only has Meg and the Band in his colorless life where he has no one he can call family.

He's was on a break from a tour when his world collided in actual means with Sam. Sam has lost her job and on morning runs they somewhat become friends.

~~*Samantha Williams*~~

Sam a very **Protective, Sarcastic, Stubborn Bitch!**

She doesn't like it when some tries to help her

She's an **Independent** women.

And just like **Leo** she also don't do relationships either, just fuck buddies.

It was clear as glass in **Leo & Sam**'s situation that they both are stubborn as hell and don't like the idea of anyone getting into their lives.

But when it comes to Leo it appears like he's not as hard headed as Sam. He wants to know the real Sam, what's her story that'd made her **Bitchy Ice Queen**. And when he was determined to break through that Ice Sam has pulled up around her, he didn't give a second thought to her bitchy attitude.

By doing that Leo sneak not only in Sam's life but also in her heart.

But when her secret comes out, she totally lost it. She gets mad at Leo

because she has trust issues, people had used in past to get to her brother and in Leo's case she imagined the same reason behind him getting to know her. This caused a hurtful comments they threw at eachother, but Sam didn't knew that Leo won't give up until he wins her back which say's enough that Leo's life is nothing with Sam in it.

The attraction between them is like a firecracker and steamy as hell!

Leo was used to fuck groupies, no kissing, caressing, Spooning and cuddling. It wasn't his thing, but when it comes down to Sam, she rocked his world that it doesn't matter how many times he have her it wasn't still enough.

*"I'll take you hard, and soft, and every way in between." He grips my face in his hands and looks down at me, his nose touching mine. "I'm going to fuck the shit out of you."*

Oh Sweet heaven above **Leo & Sam** made me hoorny when they intimidate...

**"I don't ever want you to run until your legs give out on you like this again. The only time your legs will shake like this is if I'm inside you."**

**Leo** actually adores **Sam**, there is certain thing distinct about her and Leo admires it. He desires this condition he receives after he is with Sam. He likes having person towards him and they possess so much fun together, shredding into one another and teasing. It was great towards see them both lent person within and hear towards believe again.

***"I know you're strong and independent and I respect that, but this is who I am, Sam. I take care of what is mine. You're mine."***

All these feeling are new to **Leo**, but he likes them, he likes the idea of Sam being his and his alone, he likes

the idea that he's the only person she let in life to help her through every coming obstacle. And Sam realized it too that having someone in her life as an anchor doesn't makes you look unsubstantial but it gives you the idea of being belonged, marked, protected, cherished and loved.

That's what made Leo & Sam story extra especial....

The Swooning Erotic Romance and Heart-felt Overwhelming moments with the right amount of spicy effects is just sizzling.

*“I’m going to make love you until you’re shaking and don’t remember who you are.”*

~~~~~

To me this book earns more than just **5 Stars**, if it was in my hands I would sprinkle zillions of em on **Rock With Me**

## Catarina says

*"...I don't wanna be your friend  
'Cause I've already let you in  
Every time I see your sweet blue eyes  
I know I need to make you mine  
My walls crumble... And crumble  
So all you see is the real me..."*

Okay, I probably am biased because every book whose male lead is a pierced and tattooed sexy rock star is a good book to me. I've got a huge soft spot for musicians, but I feel the need to say this anyway: **Leo Nash stole my heart.**

I know I said that this series keep getting better with each book, and believe me, so far it's very true, but I don't really think that the next ones will be able top this book.

I was swooning over Leo during the most of the book. (But hey, Will still stand pretty close!)

This fourth book is the story of Leo and Samantha. First I've got to talk about Sam... before I read this book I had a lot a doubts about her, even if she had redeemed herself after, she really was a bitch in the first book and I didn't want to read a book about her. After I started reading this book and understand her actions... well, she probably is one of my favorites now. She had strong reasons to act the way she did. Don't fool yourselves: She is still a bitch. But now she is a great and extremely funny bad-ass bitch.

Well, thanks to problems with celebrities in her past and thanks to being Luke's sister, Sam hates the celebrity world. For being sister of a famous actor she already had too many people trying to take advantage of her and she also made some judgment errors in the past that doesn't help. So, apart for not trusting people, she also has this rule of never dating anyone famous.

Then enters Leo, Meg's heart-brother, and they are immediately attracted to each other and he clearly wants her, but there's this little problem: He's the lead singer of *Nash*, one of the greatest rock bands of the US and he is extremely famous.

Well, they eventually get together... or else there would be no book, and their relationship is so great. Leo is a troubled man... but is also extra-protective, sweet and obviously, extremely sexy. The perfect alpha-male.

And the way they make it work with each other, despite the fame and all problems that come attached, despite their pasts and all the reasons that they probably would never work, they really don't give up... it's amazing to see. I loved them. And I never thought I would say this about Sam, but she is so damn great.

The rest is pretty much the same of the others books: great plot, great characters, very good to see the old couples and their evolution through the several books.

After reading this series, one of the bests I read in a while, I now want a huge and great family like theirs. They make the books so much better and so much realistic.

Well, I'm done. Go read it, now! ;)

### **4.5 STARS TO A BEAUTIFUL AND SEXY READ!**

*Rock With Me* by Kristen Proby is the 4th book in 'With Me in Seattle' series, and i think it might have been a tiny bit better than book 3. That's sayin' something, cause i loved book 3, especially Will **\*wink\***.

"Don't ever lie to me, sunshine. I don't ever want you to run until your legs give out on you like this again. The only time your legs will shake like this is if i'm inside you."

*Meet the main, lovely, characters!*

*Leo is a famous rock star around the world. He's used to having woman crave his attention. When he meets Sam he thinks she's no different. But, when Sam opens her mouth, he quickly changes his mind. He's*

*intrigued by this sarcastic, gorgeous and bitchy woman. Raised from foster to foster house, Leo has trust issues. Because of her brother's fame and the fan accident that followed, so does Sam.*

*Together, they must overcome their past so they can have a future they both crave, and deserve.*

I wasn't so sure about this book, because (let's just put it out there) i did not like neither Sam or Leo. When i first met Sam in book 1, i was like 'bitch'...

.And i didn't like Leo in book 3 because i thought he ditched Meg and stole her song. But now, Sam and Leo...

"I'll take you hard, and soft, and every way in between." He grips my face in his hands and looks down at me, his nose touching mine. "I'm going to fuck the shit out of you."

I loved **Sam**. She is like twisted version of myself, so obviously i could easily connect with her. She was sarcastic -

**"I run." She shrugs . "Run?" I ask. "Yes, you know, where you put on sneakers and move quickly in a forward motion?"**

But she is also a caring, kind and fiercely loyal woman, even though she doesn't show it on the outside.

**Leo** was awesome! I loved reading how he rocked on stage with his cool band. And even though i'm not a fan of guys who have tattoos on, like, 50% of their body, i have to admit i rather loved the 2 stars on both sides of his V next to his hips **\*swoon\***

**Leo and Sam's relationship was beautiful.** I loved how understanding they both were, and how many things they had in common. I hated what they both went through in the past, but i loved how that brought them together. They were both scarred, but they fixed one another. At the end they were strong, loving individuals, who trusted.

I loved being able to read about the previous characters and couples - **Jules&Nate**, **Nat&Luke**, especially **Meg&Will** and all the others. I also loved the fact that we got to know Leo's band members and their families - ***You rock <3!***

This book made me feel all warm inside. It was so hot, but sweet at the same time. Did i mention that i love Sam? -

The sweet nine-month-old giggles as i blow raspberries on her neck and clunches my hair in her tiny fist. "Uh oh..let go of my hair sweetie." She giggles some more and tugs at my blonde strands into her mouth. "Ew. Do you know how much product is in my hair, girlfriend? It's definitely not edible."

**Overall,**

Can't wait to read Caleb's and Brynna's story!

Thanks to **Lisa**, **Christy**, **Katy**, **Gertiebee**, **Katya** and everyone else who did the buddy read with me! Love you all, ladies! You're awesome!

**Kami says**

This has to be one of the lamest books I've read recently.

**One question, just one:** *Where is the conflict or the issues that make a story interesting?*

**Answer:** *Painfully absent!*

Because there are no conflicts and no real issues that need to be resolved, **this book is boring as fuck!**

There are so many scenes that are repeated over and over that I had to skim through as I tried to maintain some shred of optimism that something might actually happen...

The dialogue is terrible. There's a lot of parroting, for instance: Leo tells Sam she's beautiful or hot and Sam says the same thing right back to him in the next line. *Ummm, could it be any more unoriginal or unimaginative? It's like the characters can't think for themselves or something so they just repeat what the other said.*

There are no real obstacles for the relationship at all! Everything is so quickly glossed over, hell there are things that are never explained like Sam's coldness. At one point, she explains part of her issue about the media to Leo but also states there's more she's not ready to tell him. She never tells him or the reader. There

is a mention of a seemingly urgent "mandatory family meeting" in the final paragraph but then the author goes straight to the epilogue set two months later. **WTF?!?** There are attempts to make the story intriguing like leaked media photos, ex-boyfriends showing up etc. but nothing that's actually explored for more than a paragraph. It's pathetic.

There's no plot.

The only thing I did like was the close family dynamic and how comfortable they all were with one another. But, other than that, this book is completely lame.

### **3.5 ROCK WITH ME STARS.**

What is it about a character that's a rock star with tattoos and stormy grey eyes that has us all so hooked?

Despite my stingy three and a half star rating there are serious Bonus points for this fourth book of the series -starting point I LOVE seattle, Washington, so this ticks my homesick for stateside box. I always enjoy a Male alpha (especially a rock star one). Easy peasy reading style the books flow with ease and enjoyment ~ Curl up, enjoy no heart stopping angst or heart break. A well written story line. Leo and Samantha's story was nothing short of lovely jubbly and boy could Leo talk all kinds of book dirty.

I've said this before in a previous review of this series but I love how the author makes family and friends a focus of the story everything centres around love, laughter and soul smiling connections, it's a real added bonus for me. It brings a greater pull for me as a reader to feel involved in the characters life and this story is no exception I felt welcomed into the gatherings and get togethers ~ LOVELY.

Now down to the reason of my rating, well in all honesty it's my own fault, it's the same issue I've had with all of the books in the series. The dreaded FALL IN LOVE IN AN INSTANT. I can't remove myself from the fact that this disappoints me. Aside from that this story has a killer combination of funny, sexy and sweet ... and I KNOW I'll be onto the next book.

The author knows how to write sweet and sexy! Both lead characters were book sexy ~ tattoo'd rock god and feisty independent female lead. In addition this author loves her HEA, which of course makes me one happy camper.

♥♥♥"I love the way you kiss me."

♥♥"you make me tremble when I hold you like this, your skin glowing in the moonlight you have me all wrapped up in you."

3.5 heading towards 4 stars!

Ps note to author I NEED Caleb's story ASAP ~ pretty please ♥♥
