## Room for Love Andrea Meyer

Jacquie Stuart has just turned thirty-two and she wants to do a major rewrite on her life. Her salary at a snarky film magazine barely covers her mortgage, her bratty sister has staked permanent claim to her couch, her best friend is in an obscenely happy marriage, and the only guy who really gets her is gay. Worst of all, she keeps falling for broke, self-involved commitment-phobes. Needing moonlighting money, Jacquie gets the idea of investigating a new dating trend—looking for Mr. Right in the "Roommate Wanted" ads. After a bunch of colorful near-misses that bring her into the slums of the East Village, the brownstones of Brooklyn, and the dingier digs of the Upper East Side, Jacquie thinks she's finally found the man she's been looking for and stuns her friends by moving out of her beloved apartment—and into his. Complications ensue when her live-in love reveals some alarming imperfections, the irresistible artist who dumped her wants her back... and what is up with the mystery man living in the charming one-bedroom she left behind? Jacquie has been looking for love in other people's homes all over town, but could the key to her happiness lie right under her very own roof?

## From Reader Review Room for Love for online ebook

### Nicole says

I can't really decide if I liked it or not. I guess I wish the HEA was more developed throughout the book rather than in the last 5 pages. I would have been more interested in the characters love story than everything leading up to it. At times I was more interested in Courtney and Brad's story than Jacquie's.

---

### Jourdan says

I love a great chick-lit! Perfect for a nice evening with a tasty glass of wine. Surprising twist at the very end that you wanted to happen when you first get into the story. It's always interesting to read stories set in other cities that are so different from your own. Austin, TX is another world compared to NYC! Great book. Couldn't put it down!!

---

### Lori says

All in all, I thought it was a cute book. I have to say though, I was a little disappointed with the end. Maybe it's because I have been reading more contemporary romance recently. I knew who it was that she would end up with the second the character was introduced, but through the whole book, I was really hoping that I was wrong. I initially really liked the narrator (Jacquie), but by the end, I kind of wanted to smack her upside the head with her whining.

---

### Marisa says

I took it to read while we were in Puerto Vallarta and had to keep reading it because it was the one book I'd grabbed for the trip. The main character is quite desperate and loose. She tries to meet men while answering ads for rental apartments. She does this while also trying to write a column about it for her job. I think it's pretty noteworthy that now three days later I cannot even remember how it ended...

---

### Stacey Ashton says

LOVE, LOVE, LOVED IT!!

I have read this 3 times so far. Everytime I need a good laugh I pick this up. I love how different NY is compared to Cali in terms of real estate and looking for roommates. I have a friend who is looking for a roommate right now for her awesome place so the little wanted ads in the chapters sound a lot like what she's going through except we are not so descriptive about our houses and areas we'd like to live in. It makes me want a cute little apt in the city...

Definate MUST read!!!

---

### **Brittany Tufford says**

I found this book difficult to get into but once I read a few chapters and it got the flow I was okay . Overall the story line was very cute but I found Meyer dragged out certain parts of the books and I caught myself skimming instead of actually reading .

---

### **Nancy Bielski says**

This was quite possibly the worst book I've ever read. The premise was great, but everything else just fell flat. This novel is a really poor reflection of society. The main character claims she wasn't looking for love or whatever, meets a guy LEAPS into bed with him and suddenly they're in a relationship. Let's just talk about how it's crap like that that makes real women think if you sleep with a man once he's instantly your boyfriend. This book was stupid, the characters were TOTALLY unsympathetic and what's more, it is a seriously bad reflection of how slutty and STUPID people in society are. This book just disgusted me. No wonder American women have such low self esteem.

---

### **Marnie says**

Horrible book. Don't waste your time. There is MUCH better Chick Lit out there to be read. I'm sorry I spent \$2 on it in the bargain bin at the book store. The main character, Jacquie, has no redeeming qualities at all. The "mystery" of the guy she will be with at the end of the book is completely obvious. Honestly...

I started this book 4 months ago, read the first 10 pages and didn't pick it up again until a few days ago, because the first few pages of the story were so bad I didn't want to continue. The only reason that I managed to finish the book is because the writing was well paced... and that's the only reason I gave it 1 star.

(view spoiler)

---

### **Janice says**

A silly chick-lit book. The main character has no redeeming qualities.

---

### **Dana says**

I love a good romance. One that you don't have to think too hard while you read, and you just know everything is going to turn out happy in the end. That was what I was expecting, and that was not what I got.

I mean, it wasn't horrible, but it wasn't as light and fluffy and fun as I wanted it to be. It was kind of slow paced, with a lot of obscure references and way too much real estate talk. Which, I get, because that's the point of the book, but it was just too much for me. Also, the romance just didn't develop very naturally. I called who she was going to end up with very early in my reading, but I'm not kidding, he probably only showed up on 20 of the nearly 300 pages of this book. And I had pretty much zero interest in any of the boys in between. Even the supporting characters were pretty boring. I was surprised by some of the events near the end, though. AND the final romance played out with (seriously) a WHOLE BUNCH of Grease 2 references, and if that isn't the greatest thing ever, I don't know what is. Literally, they sang one of the songs together, and he told her he does "a mean Cool Rider". So yeah.

Rating: 2.5 stars out of 5.

### **Lori says**

Had to force myself to finish this just to see if I "figured" out which character she ended up dating. I really didn't like the character, very self-absorbed and slutty. Naturally she meets and eventually sleeps with all of these gorgeous men, all the while not knowing how hot she was, puhlease! Like I need to feel ugly from a character in a book! Read it if you are stranded on an island and there is absolutely no other reading material available.

---

### **Sin Tien Tan says**

Perhaps I'm not in the mood for chick-lit. I find myself skipping over lines here and there cause the cheesiness is just too difficult to stomach at times. I expected histrionics before lifting up the book but Jacquie's bulldozer of emotions plainly annoys me. The much-too-cliched ending is a bit of a let-down as well.

---

### **Rachel says**

I got an advanced reader's copy of this at work and was surprised by how much I liked it!

Took it home because I was in need of some fluffy chick-lit and found it so entertaining I would recommend it to anyone who loves these kinds of stories.

Basically, if you love chick-lit, nyc, quarter-life crisis stories, dogs, and have ever looked for an apartment in nyc. then you should read this. So good!

---

### **Marie Buccellato says**

It really didn't do much for me....Pretty disappointed

---

**Michelle Hoover says**

A funny, smart yet light read. Not my usual material, but I couldn't help be caught up in it, and I was grinning to be in Meyer's world for a while. The descriptions of NYC life, the apartment searches, the characters just zing. And the pages fly.
