Soft Skills Cleo Peitsche

SOFT SKILLS is a multiple-partner romance novella of 15,000 words. M/m/m/f (three men, one woman). Includes public punishment and publicly submitting to a stranger at the command of her dominant boss.

An office hazing leaves Elle feeling vulnerable, and she finds herself defying her three bosses, secretly begging to be taken in hand so that order will be restored to her world.

Cunningham gives Elle her lesson... on the side of the road. She squirms in front of the growing crowd, and she can't believe her ears when Cunningham calls for volunteers to restrain her. She loves his dominance, but the second it's over she defies him again.

His response shocks her. Before the week is over, everything Elle thought she knew about Cunningham, Jonathan and Nolan is turned upside down, and none of their lives will never be the same.

This BDSM romance contains explicit sexual content and graphic language that may be objectionable to some readers. Includes sexual dominance and submission, spanking, sexy humiliation and many other delights. For adults only.

Ryan says

I hope there are a few more books in this series. I really enjoy them. They are the perfect length, and the multiple partners enhances and complicates the story at the same time.

Allison Gill says

Book 5 in the Office Toy series

This series is fun, short and sexy. Cunningham, Jonathan and Nolan have Elle as their office toy, but when her insecurities about herself come up, Cunningham has a wild and public way of trying to help her deal with it.

These books are short and to the point, but it wasn't until this one that I realised just how much I already knew about the characters. Being short does not stop the author from packing quite a lot into each book.

Big Joe Rossi says

3 stars

Since these are short stories I will right full review on final book [#6]

That said these are pure erotica, porn reads.

Jennifer Kidd says

This book was tremendously hot. I just wish it was a little longer. Hopefully there's more to the series.

Sophia Triad says

In this book nothing changes. Elle needs punishment for some nonexistent reason, so Cunningham stops the car on the side of the road to punish her with a way he finds appropriate while a group of people from a nearby BDSM club are watching. At least Elle is on board in the end. No complains there.

Okay this is book 5, therefore I guess I am well trained to what to expect from the books. Nothing surprises me anymore.

On the light side of the book, the three guys are introduced to Elle's mum and a hard decision has to be made. Elle needs to choose one of the guys to live with him.

Title: Soft Skills

Author: Cleo Peitsche

Publisher/Year: Pouch Productions 9/9/13

Length: 106 pages

Series: Office Toy #5

Overview

SOFT SKILLS is an erotic romance novella of 15,000 words. M/m/m/f (three men, one woman). Includes public punishment and publicly submitting to a stranger at the command of her dominant boss.

An office hazing leaves Elle feeling vulnerable, and she finds herself defying her three bosses, secretly begging to be taken in hand so that order will be restored to her world.

Cunningham teaches Elle a lesson... on the side of the road. She squirms in front of the growing crowd, and she can't believe her ears when Cunningham calls for volunteers to restrain her. She loves his dominance, but the second it's over she defies him again.

His response shocks her. Before the week is over, everything Elle thought she knew about Cunningham, Jonathan and Nolan is turned upside down, and none of their lives will never be the same.

My Thoughts

It was a nice surprise to see this alert pop up in my Goodreads 'books by authors you've read' since i wasn't expecting book 5 to be out so quickly. In any event, we pick up right where we've left off with Elle and her many men. She's now coming into her own at the agency, proving that she's got her own ability and this next installment starts when she's just had a very successful client meeting, however when she arrives back at the office, Nolan and Jonathan alert her to the fact that Cunningham is very displeased about something and you can only imagine how on edge she is since she's not quite sure if it's something that she's knowingly or unknowingly done or if it's because she's been so lax in setting up a meeting with the guys and her mom.

in any event, since we know that this foursome doesn't like to be too comfortable with one another (meaning that they like to be on edge) - the imbalance upon her return means that Elle can surely expect to be put through her paces in the office boardroom and with her favorite men. We see quite a bit of steamy control action there and then it's taken to another level as the story continues.

What i love here is that Elle never settles into the relationship as you'd expect her too. she's still mouthy which comes at it's own price - namely some very public scening which added a nice quirk in this book. The direction that this series is taking it a nice one. we know that they've moved on far past 'just sex' and that there's real emotion and love going on between everyone. what that means for each man and for elle is still to be determined and it'll be a great story to follow to see if the man that we expect to be #1 actually is.....or if there's something else that'll come out of their relationships.

Smartmouth Smut says

It's been a while since I caught up with Elle and her three bosses. It's good to know that nothing's changed- they're still up to their old tricks. Book five of the Office Toy Series is more of the same. Elle lands an important job so they razz her and tell her she's in trouble. Oh no! The only way to "punish" her is for her to take them all at once five minutes before the company lunch! On their way home, Cunningham tells her he wants her to feel more secure in their relationship...what better to show this than stopping on the side of the road to punish her and letting a stranger have her while a group of people watch and hold her down.

I'm a little embarrassed to admit that parts of these books are hot but they are just so ridiculous and Elle is so naive, a lot of the heat is lost. Why can't I stop reading them?

The bigger question....Is someone ever going to contact HR?

Jane says

Soft Skills finds Elle finishing her first big assignment and the clients loved her work; the company has a policy that after a newbie's first success that they get hazed, which the insecure sensitive Elle finds difficult. Cunningham shows his Dominance and love in public.

The story ends with her mother meeting 'the guys' and loving them. The three men and Elle need to decide who she will be living with but she has a surprise for these three Doms on what she decides will work.

The author supplied me with a copy of this manuscript with no request for a review. The views in this review are all my own.

Pearl Angeli says

Another smexy read in this series. There were less smut but the thing is, there was an emotional and romantic development between Elle and Cunningham here, which was progress. :)

Jodi Cain says

I am so excited that the men finally figured out that they all love Elle. I have to say what girl wouldn't want three guys taking care of her in all ways possible. They all balance each other out so wonderfully. This series just gets hotter. Now on to book 6.

Nancy Bodie says

Down and dirty!

I liked the hot sex scenes or I wouldn't be purchasing the books. But would have liked a bit more fleshing out of the storyline since its been broken into so many books.

Frances P. Foster says

THIS ONE WILL MAKE YOU LAUGH

THIS ONE WILL MAKE YOU LAUGH

Elle has got spunk and this book gave me the giggles. another great read love the car and can't wait to read book 6. this series hasn't let me down.

★★Sara Lizzy★★ says

2 Stars!!

Again, not a novella that I found to be remotely steamy. I had lost interest in this series quite a few books back- it just didn't hold my interest, but because the novellas were so short and I wanted to know how it ended, I continued.

Honestly when your "Dom"/boyfriend whips with a belt to the point that you end up with welts, it's not a fun read for me. I'm no prude, but I've read enough BDSM books to know that unless you have a sadistic Dom, spankings- regardless what is involved- don't have to end in welts. Cunningham went above and beyond what was necessary with his punishments and honestly I don't find it at all hot when there is anal sex involved where the man doesn't care about lubrication or prepping the woman- it seems that her partners were out for their own pleasure and fed off her pain to an extreme at times and that to me is just NOT attractive characteristics in characters in a book- ESPECIALLY when the heroine is experiencing discomfort.

As I mentioned before, the author listed in the synopsis that this book contained "M/m/m/f" action. With the MANY menage and also M/M books I have read, with that kind of a warning I expected to have some M/M action because of how it was labeled. That was NOT the case. I think the author would be better off to label it as a foursome or group sex with 3 men and 1 woman to reduce the confusion over listing it as M/M/M/F. So if M/M action is what you are looking for among the foursome, then this isn't the book for you. The only M/M "action" was the heroine having a brief glimpse of two men after a punishment Cunningham gave her in public on the street- there was NO real M/M interaction.

I'm not a prude by any means, but honestly I don't see the "love" that the men have for the heroine when they are as brutal as they are and it seems they are more about what they want and what they like than the female. Just not a book (or series for that matter) that I'd ever read again. Book 1 in this series was fine, but it just went downhill from there for me. Again, if it interests you, I don't discourage others from reading this series- what I don't like may really interest others, so give it a try and make your own judgement on this book and the series if it interests you.

I am all for alpha males, but I don't sense the so called "love" that the heroine has for the 3 men or their love for her. I just don't feel it at all!!

Zillah Raven says

Fantastic Read

Wow this story gets better and better. I just love the four of them. This one is my favorite so far. I so cant wait to read the next one. You don't want to miss this if you've read the other four.

Crystal says

I wonder if this is the last book in this series or if there will be more?

Seems like the guys are pushing her just a little too much about introducing them to her mom. She keeps putting it off and the guys have finally had enough and know just the way that she needs to be punished.

I couldn't imagine stopping in front of a lot of strangers and they are holding me down so I get my punishment in front of a big crowd. I never know what I am going to get when I read these books. I know I will be getting a really hot erotic read that will leave me wanting more.
