Spank Me

Christina James

Spank Me Christina James

What begins as a sexy cyber affair quickly turns into the real thing when Lt. Finn Coleman shows up on Emma Shield's doorstep to fulfill all her fantasies. When Emma doesn't match the persona she presented online, he decides to seduce and discover the sensual woman who claimed she enjoyed spankings and bondage. But Finn is a career military man with a dangerous mission ahead.

All Emma wanted was to live out her hottest fantasies with her luscious new pen pal. She felt safe pretending to be a wicked seductress with Finn a world away. Then he shows up, bigger than life and making even her wildest dreams seem tame. All too soon, Emma realizes that more is at stake than her heart and losing Finn is not part of the plan.

From Reader Review Spank Me for online ebook

Victoria says

“Told you when we wrote that I was a demanding man.”

She laughed. “If I remember correctly, you said you were dominant.”

“Yes and you were, are, hardly submissive. But there could be a lot of fun in that challenge— for both of us.”

****DIRTY TALK ALERT, DIRTY TALK ALERT**** Read this book and my review at your own risk =)

If you're judging me because I read a book named Operation: Spank Me, this probably isn't the book for you...Okay, just kidding. But seriously, the title of the book had me laughing more than once. While the title is certainly giggle worthy, I actually bought and read the book because I liked the premise of the story.

What would happen if the serviceman you had been exchanging highly erotic messages with for months suddenly showed up at your door for a surprise visit and to collect on some of the wild and very detailed fantasies you outlined in your emails? What if you hadn't been totally honest about how you looked or who you are? What would happen if you had two weeks to live out every fantasy you ever had and all you had to do is...let him in and let go?

“I never gave you my address. How'd you find me?” she demanded, suddenly aware that this man that she'd never met had tracked her down with little or no information at all.

His smile lit up his eyes, the deep blue orbs studied her face, roaming slowly and stopping to stare at her lips. “I'm in the military. I have connections.”

“But I didn't give you any identifying information like my last name.”

“Honey, I track terrorists through the hills of Afghanistan. Tracking down one little sexy woman like you was not hard when you know how to do it.”

I loved being able to read some of the email exchanges between Emma and Finn. I've never been in a relationship with anyone who serves in the military but I wonder if there is a lot of emails, letters, and SKYPE chats going on with more than a little steam in them. I'd like to think so =)

You drive me wild, so wild that I can't stop thinking about bending you over and entering that hot, slick pussy from behind. I want to feel my cock slide into your heat. Then I want to hear you scream my name, begging me to let you come. Would you come hard for me, Emma? I wonder how your juices will cover my cock as I thrust deep inside you. I dream of running my tongue through that bare pussy, licking at your sweetness collecting on your swollen lips. I want to taste you, baby. Oh hell yeah. I want to taste you over and over and over. Would you like that? Want to feel my tongue fuck that hot pussy? Sweet, sweet, Emma. I'm gonna spank you for making me crave you. That sweet little ass of yours will soon feel the sting of my hand and you'll love each spank. I promise. Think of me Emma. Want me like I want you. Sweet dreams, baby girl. Finn

This might be a good time to mention the massive amounts of dirty talk in the book. Finn has a real way with words and he likes to tell Emma what he wants and how he wants it.

“I love your gorgeous ass, Emma, baby. I’m going to fuck it like I fuck your pussy. Hard. Fast. Deep.”
Her moan tightened his gut painfully. He couldn’t last much longer without being deep inside her.
“But that’ll have to wait until later. I’ve been thinking of that sweet pussy all morning, and I can’t wait any longer to drill my cock into its hot wetness.”

Yep, and that’s just a taste! I do have to admit, although the book is extremely sex heavy, there is an actual romance buried in there that develops. Two weeks sounds like a long time when you open your door to a stranger. But it suddenly looks like no time at all when you picture saying goodbye to someone you care about.

After all he wasn’t hers, and she wasn’t his. They’d made no commitment to each other and wouldn’t. That she understood. They were from totally different worlds. He was a fighter and she was, well, a country girl.

... They weren’t supposed to ever meet. If he’d just stayed away, then she wouldn’t be thinking about what forever meant or what it felt like to be so desired. She wouldn’t know how his touch felt or how he smelled of raw male, clean and musky. She wouldn’t envision a future filled with laughter and sexy glances. She wouldn’t dream of nights filled with passion and how it could happen every night if only he were here with her. If only. If only got her exactly shit.

Operation: Spank Me is a playful, erotic story filled with steamy sex, bondage, a couple spankings and enough dirty talk to have my head spinning. There were a few times, especially at the beginning, that my eyes were rolling with things that came out of Emma’s mouth or how easily things develop between these two, but overall it was a fun, HOT read. And did I mention the dirty talk? Umm..yeah. While it definitely won’t be the next book I read, I will at some point get around to reading the second book in the Spank Me series, Operation: Tempt Me. **I’m rounding this one to FOUR STARS, eye rolls and all. Just don’t take it too seriously and enjoy!**

Jacqueline says

For a book titled Operation Spank Me, there wasn’t much spanking. Just saying.

I didn’t really care for this book. The writing was pretty unpolished. The plot was almost nonexistent. The sex scenes were more embarrassingly crude than hot. Dirty language in and of itself is not hot. There has got to be some feeling behind it especially if you’re trying to sell me on a erotic love story.

Emily says

Lieutenant Finn Coleman has always lived his life by the strict code of the military, when he started talking to cyber pen pal Emma Shield he knew that he had to meet her one day. Finn is smarter than Emma gives

him credit for, she is far to intelligent to be the campy persona she has created as her profile and after months of insistence asking for a picture he finally decides to make good on his promise, to spank her butt when he sees her.

Emma cannot believe how attached she has become to the mysterious Finn Coleman, she has revealed her inner desires that she had only read about in her erotic novels, knowing they would never meet what would be the harm in expressing them. That is all about to change when Finn shows up on her doorstep, but Emma is never one to back out of a direct challenge, she is about to up her game and has found a worthy opponent.

Wow, not a major descriptive word but this blew my socks off. I flushed, giggled, and just was completely in rapture by this book. Fantastic read.

Renee Nicole says

Awesome title? Check.

Lots of sex? Check.

Hunky alpha that I want to kidnap? Check!

This was a really cute book that ended up being more romance-y than I thought it would. Finn is my book beau of the 'mo, even though he said "Emma, baby" waaaaay too much.

Emma was alright. She had her moments of feistiness that kept her from getting put on the TSTL list. Overall, I enjoyed reading this one. It wasn't too original, but I liked the hanky panky spanky!

Miss Kim says

I could not pass up this title...

Christi Snow says

Easily a 4 1/2 stars for me!

My Review:

How can you not love a book with that title?!?

This book was fabulous. First and foremost, it is an erotic romance so there was definitely lots of very hot sex, but it is also a fantastic romantic story.

Emma is a single, 29 yo woman running a farm in a small town where all the young people have pretty much moved away. It's a very singular, lonely lifestyle. As a result, she has developed an online friendship with

Finn, a Navy SEAL, while he is deployed overseas. Their friendship has become very erotic, but Emma knows that they will never meet in person, so she feels safety in their very erotic correspondence. You can only imagine her surprise when she opens her door one evening to find Finn standing on her doorstep.

Finn quickly discovers that Emma isn't quite how she presented herself online, but he's even more intrigued because of it. Their one evening together quickly develops into his entire leave as he teaches her all the levels that their sexual relationship can go to (they both enjoy a bit of BDSM) and she shows him how nice it can be to wake up with your sexual partner in the morning.

The romance of this story is really sweet and beautiful. It's wonderful to watch both of these proud, independent people grow into a relationship that completely fulfills them both esp. as neither of them was expecting or wanting it.

The end of the book had me bawling. I don't want to give anything away...just trust me when I say that it was so good. Gotta love a man in uniform and Finn is all-that and more...super-sexy, powerful, totally self-assured, and in control. YUM!

If you love a hot, erotic, military man, then I think that this is a book that you will enjoy.

Now I need to go check out the rest of Christina James' backlist....

Melanie♥ says

Lots of steam with likeable characters and storyline.

Jo * Smut-Dickted * says

A very enjoyable story. Very very light with the BDSM (in spite of the title) so those who enjoy an occasional swat while having *fun* will like it. I enjoyed the characters -- and it was a HEA that will make you blink back tears.

?Sinful says

They start out as Pen Pals. He is 38 and has been a seal for 20 years. She's living alone running a small ranch/rose business. On leave, he surprises her by showing up at her door. Her letters (mostly erotic) have kept him alive more than once. He wants to thank her and have a weekend for both of them to remember. He ends up spending his whole leave with her.

It was good. There was a ton of sex. But if this happened there'd be a ton of sex. There were some pretty open and honest conversations where he talked about some painful pasts. I loved when he told her about being under the stars afraid for his life and knowing she'd been under the same stars was really sweet. I wish there had been more of that. I had a few roll-the-eyes moments. But I ended the book satisfied. I like how she stayed strong and independent. She was mush for this buff military dream, but she would stand up to him and poke him in the chest the next second.

My version downloaded to kindle with some wonky typos. But I think that was just me. It has happened before.

Penny Watson says

Super quickie review!

Operation: Spank Me by Christina James

Genre: Erotic Romance

The bad: Way too much sex! Book could have been easily 50% shorter. Terms like "drenched p*ssy" used repeatedly.

The good: Surprisingly engaging story. Loved the Vermonty stuff, loved the roses, the story was compelling and sweet. A nice happy ending, although a bit rushed.

Grade: B

Judy & Marianne from Long and Short Reviews says

Reading Operation: Spank Me is like drowning in sensual overload as a reader watches love unfold between two lonely people matched by fate and the internet.

Emma has quite a vivid imagination and an inner untapped wanton that, when allowed to express itself, ends up seducing a man half way across the world. The power of words has never been quite so explored as in this story and Ms. James left no binding untried and no sheet untwisted.

I've read historical anecdotes where people who started off as pen pals fall in love from their written words alone so this story isn't as farfetched as some might believe. The thing about letters, true letters, is the ability for unvarnished truths and personality traits to be revealed without diffusion by sights, sounds or smells. Add to that the fact that letters can be re-read often to inspire hope, passion or even remembered grudges depending on what's written and a reader has an idea how important a role the written word can have. Years ago, when the only option was snail mail, those missives were more open and eloquent and some people poured their hearts onto those pages. That's what Emma and Finn did and the author put an erotic spin on it that is sure to please readers who are looking for that in depth sexual edge.

The interesting thing about Emma was her belief that all her fantasies would never come true and that she was safe from facing their reality because Finn was, after all, only a pen pal. And yet I got the impression from something the author added that had me believing that the process of falling in love had already started. That fact was vital for my enjoyment of the romance because when Finn showed up for real, fantasy got trumped by the amazing reality of the man called Finn.

Finn is a complex personality. He starts off as one hundred percent focused on his career and he expected to just scratch a very strong itch while on leave. During the course of the story a reader sees this determined and focused man who never let a woman near his heart never mind an overnight stay in his bed slowly morph into a man who's realizing his heart has a mind of its own and it recognizes Emma as someone special. The man who first appeared on her front porch is not the same one who shows up again at the end of the story. Finn's falling in love was entertaining to be sure.

Erotic romance readers will find a romance detailed in the loving arts of bondage. Throughout every hot encounter a sense of trust is earned and celebrated and it is through the physical act that I believe they further fell in love. There are moments in the story where they meet fully clothed in order to provide readers with glimpses of a more rounded life and community connection but on the whole, Ms. James' strongest scenes were with the skin on skin explorations.

The editing was almost perfect but not quite, the dialogue fit well with the characters and the plot was definitely character driven with a conflict mostly internal in nature. I felt bad for the roses and adored the addition of Freckles but I would have loved for Emma to have met Finn's grandfather.

Operation: Spank Me is a book sure to please and arouse readers who are in need of a really good dose of well written sensual exploration to spice up the romantic inside. If a reader is looking to get into the mood for some weekend fun with a significant other then this book is highly recommended to get the battery charged. There is some high voltage between the pages of this book and is worth checking out.

[No OM/OW drama. h had only had sex with one guy years before, her ranch kept her too busy to date. H

UniquelyMoi ~ BlithelyBookish says

Operation: Spank Me is a quick, romantic and steamy story that I read several months ago and enjoyed. Finn is a very hot, very sexy hero who knows exactly how to get who and what he wants! Plenty of sizzle in this story to warm up those cold winter nights.

sigh Where can I find me a sexy Lt. Finn?

LoveRomance says

I was disappointed in this book. Nice, easy read, so I'm glad I read it. But based on other reviews I thought I'd be drawn in and lost in it. And I simply wasn't it. The heat felt a little contrived, and the sex seemed pretty repetitive. Best part of the story was the community support, though I was sad the story did not resolve the thread about the grandfather in Texas.

Cyn Mistress Kitty says

When I first bought this book, I thought because of the title this would be a fluffy, silly story with only sex and no character development. Wow, was I wrong and the title does real injustice to this story which is really too bad because it might put a lot of people off reading it.

I LOVED this story and yes, it is blazin' hot and yes, it has some spanking, bondage and really HOT sex scenes, but the characters were wonderful too and it had a great story-line. Finn, the hero, is to die for. What a caring, sexy guy and a dirty talker to boot. Yum. I also liked Emma the heroine. She was a strong woman but showed vulnerability too.

I won't give away the ending but I bawled and want to know when the next in the series, Operation Tempt Me comes out.

This author is one to watch and this book is on my keeper shelf.
