Summary: A little boy who simply loves his bed and wishes he could take it everywhere he goes. Let the adventures begin... This is the first book in the Stevie Tenderheart series. (A First Edition) This is a fresh and delightful bedtime story with a great message... The author uses a wonderful cadence making it fun to read to your child. Let's be honest, reading the same book to your child, night after night, must be fun for you too. This particular bedtime story will put "you" and your children to sleep--it's that good! Many animals fill the pages (monkeys, panda, deer, rabbit, fish, dogs, cat, lion, moose, goose and cow, etc.) all with smiles and great faces. This is a fun book written by a new author who traded in his comic strip to write children's books. There are 20 beautiful, expressive illustrated pages that are married to this darling little story in a way that is cute, thoughtful and truly gentle in helping you put your children to bed. It is meant as a BEDTIME STORY not for general reading during the day. Why? Because it will have you yawning by page three; doing "exactly" what it was designed to do. Stevie takes his bed on many adventures. Absolutely guaranteed to make your child giggle. The art is probably a little too good, making this story not so much of a page-turner. Young eyes love the detail and the colors and the expressions of the animals and will remain fascinated on the page long after you've read the words. Fathers, it's never too late to read to your daughters...

This was my first book in the Stevie Tenderheart series.

This story takes children on one page adventures and there are some clever secrets if you look closely at the illustrations. Hint: cat slippers.

My goal is to give children kinder role model. Stevie has three ways of conveying this. First, he is a very silly boy. Children really respond well to his sense of self. Next, his messages are meant to teach kindness and love and lastly, these are bedtime stories after all, because I think all children should feel cozy and safe at bedtime and parents really need some quiet time too. Getting kids to bed isn't always easy. I think Stevie does a great assist here.

I really like making children laugh with my books. (Smiles count)

Thank you for reading my storybooks and for participating in the Brave Kids Books Pledge where you can donate not only my books but those of my friends, to children's hospitals and organizations around the country.

Stevie's favorite place to be is of course, **REDACTED**. :-)

This is a perfect fit for your kids at bedtime and for those children who are confined to their hospital beds for treatments, testing and recovery. Imagination has no limits. Reading Stevie storybooks makes kids feel good!

Thank you.

I received this book free, through Good Reads First Reads.

This was a cute little book. My daughter and I read it together. I don't think she liked it that well. I think it was geared more toward toddlers maybe.

This was about Stevie, and how much he loves his bed. He wants to take it everywhere. The only problem I had with this book was that some parts don't rhyme. It was a rhyming book and as we were reading we would come across a page that didn't rhyme. We would read it a couple of times to make sure we were

reading it correctly. We were, it didn't rhyme.

Overall, this was a cute bedtime story.

What a wonderful little book! As with other reviewers, I received mine through goodreads and am very pleased to have been introduced to the works of Steve Laible through this delightful book. The easy flow of the verse enhanced the enchanting story line. I found this to be a clever way to stir a young one's imagination. I must agree, my bed is my favorite place to be!

I received this book for free, and I thank you for this opportunity. I will be giving this book to a family with little children, one of which is battling brain cancer. I think this book is wonderful for toddlers especially if they have health issues and spend a lot of time bedridden. I will pass this forward and let you know if the family enjoyed it. The children enjoyed this book, esp. the toddler battling cancer. This is a book that allows the child, or children, to add to the story with their own imagination.

My Thanks; Thank you Steve for giving me the opportunity to read both editions. The Black & White , and also the colored one!

My Review; I really think you 1st edition was better than your edited edition! I really liked it better! Some people will bring you down because of how long the book is ,but it's just a book! I really like reading your stories that you make, and stories that you have experienced! This book also has great illustrations made by your son, and Nancy Watson . Thank you once again Steve, and I hope you accomplish your dreams of becoming a world-wide known author!

Many Thanks,

Christopher

Bo-Bo Kakers, a little boy with dreams, is much like any other child. His dreams can take him to great heights and adventures, all within the safety of his bed! This is an easy reader, one that will hold your child's attention both with the story line and the colorful illustrations.

As this was a gift to me through Goodreads First Reads, I am gifting forward to my wonderful grandsons, who I know will enjoy it.
