Sizzling Hot Erotica!

Just what my minds sexual apatite asked for. This short 64 page story is full of hot erotic scenes. Double penetration, anal sex, Chocolate cock food play, Vampire biting and bonding at the same time, and fantastic fantasy coming true. I loved the concept of Vampira of helping female vampires escape from their family's vampire culture of arranged marriages and enslavement to the male vampire. I loved the independence these female vampires had and was very happy how the story ended. Perfect Short Story, I wanted more.
