## Richard L. says

I really liked this series for the first 1-7 books and it was really good so much mystery and action and by action it's like someone's not dead when you think they are.

## 42 is the answer says

Interesting mystery, but it got boring after the first two. The plots don't vary! Brother and sister look for next clue, get stopped by evil relative, keep going, find clue. Tell me if the other books are at all different.

### **Artemis says**

I love this series. It was a bit too fast paced but I loved how the books had clues that the reader had to find out (my friend had no clue so he had to reserve them at the library all over again because i wouldnt tell him what they were.). Overall one of my favorites.

Boy, I wish this series had existed when I was a kid! But, I have the distinct pleasures of discovering them along with my kids, which almost makes up for it.
