I sped through this story at 100 miles per hour. I couldn't get enough of Jax and Crane! They had a great friendship first with lots of trust, playful banter and a few misunderstandings but at the core, it was a beautiful union for them. Jax coming out of a high profile relationship with her pride torn to shreds gets on a dating show that reveals more about herself than she thought. Crane is a sturdy, believable character that makes any woman with kids swoon over his love for his daughters. I loved the ending and how Abbott tied in the beginning with the end using Crane. I really enjoyed the simple, easy flow of the book and finished it in two and a half hours without leaving my bed. I left the story feeling satisfied and full of love bugs! Great read for the not-so-sappy romance lovers.

Cute story, quick read. I have the second novel in the series but admit that I'm not as interested in Liam's story as I was Jaxie and Crane's. I probably could have lived with it being a stand-alone short story. Author admits to typos; wasn't too distracting.

Editing and formatting errors that took me out of the story knocked stars off this one. Otherwise, a cute shorty.

What a very cute idea. As a way to show her NFL ex. That she is not boring she sends in a demo tape for a game show. You guessed it looking for a husband & maybe even love. She does find it but not where you think. So, how it all gets turned around & who & why is sweet. Cute book.

Jaxie is a food critic with her own show on TV while her boyfriend, Brent is the famous NFL quarterback. The favorite couple for the press, Jaxie is sure that she has found her true love in Brent. But apparently that is not the case with Brent who dumps Jaxie with reasons like she is not adventurous enough and that they are not suited. Determined to show him her adventurous side, Jaxie applies and gets selected for a reality show called "**The Husband Hunt**". Ready with a plan, Jaxie is set to show Brent and all the world her true impulsive and adventurous side. What she doesn't plan, is falling in love.

***What will Jaxie do now?***

***Can she decide if she loves Brent and wants him back or is her new love her true love?***

I just loved this short story by Kiki Abbott. My first book by her, I have fallen in love with her style of writing and recommend her to everyone. She writes under two names, Kiki Abbott for her short novellas/stories and Kim Hornsby for romantic suspense novels.

The plot is expertly conceived and carried out. I was sucked into the story right from the start and kept hooked till the very end. Thoroughly entertained, I just loved Jaxie. She is meticulous, a planner and a woman who craves a family with kids and a house with a white picket fence. Being a talented chef and a looker are a bonus! :)

Crane is classically handsome with a hint of mystery about him that instantly pulled me towards him. I loved the scenes between these two and they had me reliving the days when I too fell in love for the first time! :)

A beautifully written story with great characters, I give it a **4.5 out of 5** and strongly recommend that you go read the books by this author who writes under two names. The next book, The Husband Hunt - Kat's Season is now in my TBR and I look forward to reading more from the author. :)

What a fun read! With the hit of the show, The Bachelor, Ms. Abbott has pulled readers into the story. Jaxie is looking for love and wants to be the woman that her boyfriend wanted her to be. But when he dumps her, she decides to show him by joining the show "The Husband Hunt". The story is a quick read with lots of flirting and fun. I loved Crane and Jaxie. They certainly deserve their own happily ever after.

Loved this! A fun little tale where the main character, a local TV food critic, is dumped by her NFL stud boyfriend, because she's not adventurous enough. She's very aware that she may not be the spontaneous babe he was hoping for, but she decides to get back at him by making a demo tape for an audition to a reality Bachelor show, called, The Husband Hunt, that her friend pulled some strings to help her get noticed. And she's on a mission to prove him wrong!

Jaxie is quickly shocked upon arriving to the mansion, when she learns that the Bachelor her and twenty other girls are competing for, is her ex-NFL star boyfriend's greatest rivalry, the ex she is trying so hard to prove wrong!

I think this story is more of a learning experience for Jaxie, she grows up very much so the next couple weeks on the show when she realizes how childish it was for her to get herself into this mess, and to also learn that she could be herself and find love in the right place, and for the right reasons. Someone very unexpected captures Jaxies heart, and she's willing to leave the show to make things right.

A very whimsical story, and I enjoyed every little bit of it. Laughed and Swooned all over the place reading this LOL.. Perfect for a weekend, short read!

Shallow in both character development and storyline. Juvenile writing style. No connection between any of the characters, let alone the H/h.
