Wanted: A Monster Billionaire Romance Jani Kay , Normandie Alleman
FOSTER

I spent the last five years locked in a cage for a crime I didn't commit.

Crucified by the press and social media. Hated by all.

But now that I'm a free man, I'm determined to prove I'm not the evil mastermind everyone thinks I am.

I just need someone to believe in me.

Someone like Addison James...

ADDISON

Foster Cruise is sexy as hell and worth billions. But he destroyed my family.

He may have gone to prison, but he hasn't paid nearly enough for what I've lost.

He has no idea who I am, but I'm determined to prove what the law failed to—and put him back behind bars where he belongs.

I'll offer him my body and sell my soul to that handsome-as-hell devil to make things right.

Trouble is, I'm afraid he's already stolen my heart.

Adult content suitable for 18+
Language and sexual situations.

Amber - TBR Book Blog says

I have been on a true crime/wrongful conviction kick lately so this book totally hit my button.

Foster is being released from prison after serving 5 years for a crime he didn't commit. Addison makes sure to make Foster pay for what he had done to her family. Which on face value, I can see exactly why she thinks that Foster was involved with the crime - especially since he was convicted and sentenced to prison.

Foster has spent the last 5 years paying for something he didn't do. He plans on paying back the person who caused him to get convicted and give any and all monetary proceeds to the victims of the crime. Which is admirable.

Another great series I will be keeping up on!

☆ Bianca ☆ BJ's Book Blog ☆ says

Cute.

I liked reading it.

The cover is ... WOW!

The story is exciting, moving, funny, adorable, sexy, frustrating.

It could've been a bit longer, a bit deeper and just a bit ... more. It was too insta and a bit weird here and there but I liked it.

Romance Readers Retreat says

This is a hard review to write!!

The idea and the plot of this book is great, but for some reason I just could not connect. I've spent a while considering whether that was just me or not, and I'm still not sure.

The main issue I think I had was Addison, I didn't connect with her at all, I didn't even like her. I could sort of understand where she was coming from in the beginning and why she was doing what she was doing.

However once the story got going I understood her less and less, I found myself picking at her actions and losing respect for her because of the way she handled things. An example of which I'm going to attempt to give without giving away any spoilers. Her and Foster have a falling out, she leaves and then feels content to stay in an upscale hotel on his dime! She's mad at him when she should be the one feeling guilty. And her staying at a luxury hotel he's paying for makes her no better than what she accused him of early on in the book. That probably won't mean much to you if you've yet to read this book but those are my thoughts lol.

Basically I didn't much like her as a person, I found her to be a hypocrite and actually rather cheeky and presumptuous. I'd have kicked her out on her a\$\$!

Now Foster I found I had a soft spot for. I liked that underneath it all he was actually quite unsure of himself and self-conscious about certain things. I liked that he was a bit bumbling at times, it was very endearing. And I suppose I kinda thought by the end that Addison didn't deserve his forgiveness, well maybe she did but he didn't make her work hard enough for it and her attempt at apologising was pretty lacking.

Overall the story is a good one but I feel it could be improved upon with a bit more excitement, it's a bit slow in places. This review is very much expressive of my personal tastes so if you've an interest in this book, don't let it put you off. Give it a go, you may love it, because I can definitely see how some people will.

Joanne Jones says

I was given this ARC in exchange for my honest review from Normandie.

I can honestly say that this book is a great page turner, I couldn't put it down and when I had to because there is this thing we all have to do and sleep, I kept thinking about it and where it was going to take me to the next day.

When I first heard about this book and that the MC was a billionaire I thought it was gonna be something like the pair was gonna fall endlessly in love and so on but this isn't your typical billionaire book and I really enjoyed where Normandie and Jani took me to.

I fell in love with Foster and I have to say that he is funny and smart but what was a done deal for me with him is his determination to prove that he isn't the evil horrible criminal that he was made out to be, he wanted to be a better person than what people thought of him and even though he spent his money like he was a king, he just wanted a better life to look forward to and leave his past behind.

Enters Addison...she is a fire cracker, I loved her determination to get her answers she so badly needed to prove that she is capable of pulling something like she had planned off and to help her grandfather, she was amazing, I found her cocky banter so funny and real...like I could picture her doing her thing and laughing at it.

I love seeing these too together because you read about couples e.g money power and mostly virgins before but with these too together and MAC they are like the perfect couple, they are so funny and witty and I might add sexy as hell, their chemistry is off the charts hot, she isn't a silly virgin who is afraid and he isn't the typical meathead.

A solid 5 star for me and I'm hoping that these two brilliant author's will continue to write more books together

Kira Simion says

I thank Normandie Alleman for gifting me with this book. This wasn't an exchange, so this review is my honest opinion.

Heather C says

This is the first book that Jani Kay and Normandie Alleman has written together. I have read just about everything that Jani Kay has written but Normandie Alleman is a new to me author. When I read the blurb, I got excited. I was looking forward to a sweet revenge story.

Foster Cruise has spent the last 5 years in prison in upstate New York for a crime that he claims that he did not commit. Fresh out, he relocates to sunny California in an effort to rebuild his life and to clear his name from the crime he is associated to. Fortunately for him, his wealth has been able to help his transition from prison to the real world. Materialistically, anyway. What he finds is that he desperately needs just one person in his life that understands him and believes that he didn't commit the crimes he served time for.

Addison James' family was a victim of the crimes that Foster Cruise was committed for. If it wasn't for him, her family would be in a much better situation. For the past 5 years, Addison has been plotting her revenge against Foster. To make him suffer like he made her family suffer. She had a simple plan. Seduce, infiltrate and implicate. Easy enough, right? Unfortunately for her, it isn't. She knew he was handsome but what she didn't know was the real him. Once she starts to discover the man behind the infamous name, she might be too far gone with her heart. Can she carry out her plan for revenge if she has feelings for him?

Although I read this book fairly quickly, I felt like something was missing for me. I just couldn't fully connect to either character. I'm not sure what held me back. I think I was expecting a little bit more on the revenge part. Their connection was immediate, which I'm fine with but it was pretty much insta-love. I didn't really get the angst that I was expecting.

I did enjoy Ruby, Addison's friend. She was a nice breath of fresh air. She was quirky, easy going, rebellious and you never know what that Aussie has up her sleeve.

Overall, I did enjoy this book. and would recommend it if you are looking for a quick read with insta-love and some laughs.

Nadia Debowska-Stephens (Obsessed by Books) says

"I knew this was a defining moment for us.
The moment that was going to break us.
Whatever us was in the first place."

Foster has spent five long years in prison for a crime he did not knowingly commit yet his ignorance made him guilty by association. Working for a man that he thought would please his father Foster didn't pay enough attention to his job to see he was being used. Now infamous as part of a swindling scam he is out and looking to make his mark using his inheritance. Unsure of where to start or who to trust Foster finds himself isolated and a little lost.

Addison was an indirect victim that left people penniless and homeless. Her grandfather was a victim of the scam losing his investment, his home and his health. Addison has sworn to make Foster pay and so upon his

release she sets off on her crusade to make him suffer.

Not everyone is as they appear and the best laid plans sometimes go awry. Addison doesn't factor in her heart or the way he sets her alight with need. He doesn't realise how quickly a woman can burrow underneath his skin. Lies, accusations and misunderstandings make Wanted an angst filled read. With situational humour in the form of a stray cat and witty banter this is a light hearted fun filled read with a pinch of drama and a sprinkling of hotness. Addison is very narrow minded initially blinded by her family's pain and closed off to the truth. Foster quickly falls under her spell forgetting the first rule of being independently wealthy...trust no one! Can they resolve their issues? Ruby is a great supporting character adding a little fun and common sense along the way. Overall a fantastic romance.

A four star heart of gold read.

~*~ Obsessed by Books copy given in exchange for an honest review ~*~

Cheryl Graham-Petit says

I received an ARC of this book in exchange for an honest review and honestly, this book was not what I expected... it was better. Remarkable well-written with a great story-line, strong characters, suspense, humor, and of course some hot, steamy sex. Wanted will grab you from the very first page and will have you turning the pages to see how the story develops.

booklover says

****ARC RECEIVED FOR HONEST REVIEW****

If you're a Jani Kay fan and have read her other books you'll know that they are all mostly fairly serious and angst. This one is NOTHING like them at all ! Yes the subject is a serious matter but Jani's written this and added a lighter side to it in the process.

This will have you laughing from the start when we first meet Addison James who is chasing after the man who was jailed for apparently stealing millions of dollars, not just from her gramps, but also many others too in a ponzi scheme.

Foster Cruise has just been released from a 5 year stretch in prison and Addison is out to get her revenge..... Even though he just wants to forget everything and move on but also try to clear his name by using his family's wealth to help those who need it more than he does.

What follows is an absolute calamity of errors where Addison is concerned and had me laughing many MANY times !! I thought the characters were fantastic, but, for me, the star of the book has to be "THAT DAMN CAT" !! OMG the things the cat does and puts Foster through are hilarious !!

Absolutely fantastic read !!

Michelle says

Beta Read

Wanted: This book is the first written by Jani Kay & Normandi Allemen together and is a great start to this

series.

Wanted is so very different to other books written by these authors and was a refreshing change.

Foster Cruise is fresh out of prison after serving Five years, the world he knew before he went inside has changed so much and the story takes you through his funny findings of those changes. The friends and family he had before have abandoned him and left him alone except for one famous friend. Foster is a gentleman outside the bedroom and a horny devil inside, but will the past haunt and control his future ?

Addison James is on a mission to get justice for her Gramps, Addison sets out to find the truth and along the way discoveries so much more, she will have you laughing throughout this story, she is determined to get to the truth but at what cost ?

contains: lots of laughs a touch of drama but nothing to dark/gripping and HoT, Hot sex which is always a must. A nice funny romance read.

Review:

“The man consumed my thoughts and I didn’t even like him. Okay, maybe he was growing on me, because that wasn’t entirely true since I’d gotten to know him better.”

5 wanted stars! I’m in love with Foster Cruise!

Foster is freshly out of prison, serving time for a crime he didn’t commit. And now he’s out to prove he’s not the man everyone hates. Addison and her family were destroyed by Foster and his antics and she’s ready for him to pay the price. So she uses him and seduces him but she never thought her feelings would get involved!

This book was hot and I loved everything about it! I loved Foster and I loved Addison. I loved her whole plan to seduce Foster, but when that plan backfires... oh yeah... it's hot!! I'm a huge fan of Jani Kay and Normandie, so I knew I was going to get one hot book!! So worth the read!

3.75 Stars

Foster is just being released from jail after serving five years for a crime he didn't commit. He is ready to start over with no family and trying to hide away from the press and people hounding him about the past. Fortunately for him, he is still a billionaire from old family money so he escaped to CA.

Addison has been waiting for the last five years to get revenge on Foster for the damage he did to her family. Only did he really do it? Or is she seeking revenge from the wrong person.

I enjoyed this book for the most part. It was actually very funny. I did not expect it to be a comedy, I thought it might be a suspenseful romance. However the comedic part of the book it what I enjoyed the most. Addison's character was just a series of screws up one right after another. She also seemed a little flakey to me. She started out set on getting her revenge, then she sees Foster and does a 180 and decides to jump his bones instead. I did enjoy Foster's character. He was jaded and broady but at the same time humble and ready to correct his past and make a better future for himself. Over all I enjoyed the story line.

Reviews from the Heart (Kimberly Anne) says

This is a very well written and highly enjoyable billionaire romance story that I really enjoyed reading! Foster Cruise spent the last five years in prison serving time for a crime that he didn't even commit. Now he's free and looking to start a new life for himself. Too bad the past isn't quite so ready to unleash its grip on Foster and it's coming right for him in the form of Addison, who is the granddaughter of one of the men who lost everything because of Foster's former employer. Foster has no idea who Addison really is and she's on a mission to infiltrate herself into his life and discover incriminating evidence that will allow her to send him right back behind bars where she feels that he belongs for the rest of his life. The big problem here is that once she starts spending time with the guy, her entire opinion of him begins to change and she realizes she may have been completely wrong about the type of guy he really is. I absolutely loved Foster and he's just such a nice guy that it's impossible not to see the good in him. I'm actually kind of surprised it took Addison as long as it did to realize he wasn't at all the type of person she thought he was. There were a few twists thrown into the mix here that kept this story interesting to the very end. Overall, this is a great love story involving two people who share an instant and intense chemistry that are perfect for each other. I highly recommend this book to anyone and I look forward to much more from this author in the future.

MarytheBookLover says

Received from author - Audiobook - It was ok. A bit of instant love and a lot of cursing but it was a bit funny too. Narrated by: Jessica Almasy, Jeremy York - it was only 7 hours so it was a quick read for me. Will review on the blog.

****Update****

My Opinion:

Ok so we have this badass (supposedly) that has been in prison and has done his time and is filthy rich, like sick rich. I am ok with that. He went to jail because he was an accessory to a crime. I get it, he didn't commit it and he helps those that were robbed. Great guy, bad attitude just about ... well ... everything. So, I didn't find myself liking him too much. Wasn't my kind of bad boy but others will like him, I am sure.

Then we have Addison. Ugh Addison, I totally wanted to knock some sense into this one. Who thinks she knows everything and is going to get even with Foster for ripping her family off. Great, so we have this girl who doesn't have a clue about how the world works or even Forster for all the research she has done (none) and sets a plan into motion. I think I like the Australian sidekick the most in this whole thing. She was the only one that was likeable.

It did have some funny moments in the book. There were definitely some LOL moments. Other than that, I was not impressed with this book at all. There were some hot sex scenes in it and I was ok with that. I wasn't ok with not liking both of these characters. Plot twists were mediocre at best and the story line was the same to me. I say pick up this book if you like some dirty talk and some sex scenes. That's about all I thought of it. It was ok.

I was not impressed with the narrators either. If their objective was to get me to dislike the characters then they succeeded. I couldn't form a bond with either of them. I didn't like Addison's valley girl voice and at times it literally made me cringe.

I give this book 3 of 5 stars!

Libby Harrison says

Beware of Spoilers!

Star Ratings:

Heroine (Addison): this girl needed her head examining – 2/5

Hero (Foster): 3/5

Plot: 2/5

Grovel: none

Cheating: none

HEA: yes but I think it's pointless to have an epilogue sent only a few weeks after the ending

Triggers: none

Average score: 2/5

Best Line: “*Use your superpowers.*”

Worst Line: “*I was used to being the best-looking guy in the room without having to break a sweat.*”

Personal Review:

This story took me on a confusing ride. I am still not sure whether I liked it. Mainly because the heroine was so self-absorbed that she twisted everything the hero did/said into something bad.

Random Ramblings:

- The way he was looking for a ‘noble’ cause was sweet
- Talk about a whirlwind romance! It happened so quick...a little too quick

Overall Feeling:
