## **From Reader Review ????????. ???????. 1888—1891 for online ebook**

**Kamakshi Balasubramanian says**

Chekhov is a firm favorite.

---

**Natalia Sushchenko says**

**Must read for a russian reader**

I somehow missed reading Chekhov in my childhood and in a way it's good, because you need to have your own life experience to truly understand the subtext of every story. These stories are more serious work of author than his earlier writings, but still present Chekhov's signature humorous style with a lot of irony. I loved most of stories and consider them as one of important reads for every Russian.
