Broken Soldier

Clara Frost

Broken Soldier Clara Frost

Rafael Carpenter left behind everything in Afghanistan when his unit was nearly annihilated. Now he's back home, trying to fit the pieces back together, and learning to survive with the injuries that nearly took his life.

Still recovering from the loss of her boyfriend a year ago, curvy Emily isn't ready to meet another man, even if one would have her. But her best friend Christa isn't the sort to take 'no' for an answer, and when Emily walks into a blind date and finds Rafael Carpenter waiting for her, she's left speechless. And intrigued.

Two wounded hearts collide, but will either of them be willing to let go of their pasts in order to forge a new future together?

Lisa Owens says

I love any stories that feature military men as the romantic heroes. Since my fiancé is a Marine, I knew all of the terms but it might be a little confusion for women without a knowledge of military terms. Good story that I will read again and again.

Trish Edmisten says

Being that I'm a sucker for military romance stories, I was immediately drawn in by the premise of this book.

Clara Frost is a good writer who knows how to capture the attention of her audience and clearly knows a thing or two about the working of the military.

When I finished the book, I was immediately left with a feeling of wanting more. The story seemed incomplete and I felt cheated. Come to find out, this is actually the first in a four part series.

After buying the remaining three books, I was let down. Not by the writing which was sound and compelling. Instead, I was disappointed in the fact that one novel was stretched into four. To me, it seemed as though this was a way for the writer to make more money and gain more sales. Though all books in the series are good, this wasn't really series material. It should have been one full length novel.

Ruth says

What a great read. Never read anything by Clara Frost before. Try it, you won't be sorry. It is a four part story, well worth it!

Kylia R says

Not bad for a free read on amazon, it is entertaining. I am not really sure if I will purchase part two or not. I like Rafa's character a lot being that he is "broken soldier" but for me Emily's character fell flat. The sex scences weren't well to to clique like many eroticas in which the author uses some werid words to describe "the act" wich usually bothers me about eroticas. If your looking for a short not very complex read, i would recommend it but if your looking to read something really that captavates you then i would say skip it.

Betty says

Rafael Carpenter is home from Afghanistan to heal from his injuries. He agreed to a blind date but wasn't real sure it was a good idea.

Emily lost the love of her life about a year ago and her girlfriend has talked her into a blind date with her husband's friend.

Neither Emily or Rafa know more about each other than their names and that they have friends in common. They meet for dinner and everything is going wonderful until Rafa realizes that Emily is a Psychologist. He thinks maybe that he was set up due to his war injuries. Once they get past that and are on the way out of the restaurant, Emily discovers that her car has been stolen.

I love the characters and look forward to reading the longer, more complete version of the book. This was a great start!

TA Hall says

Broken Soldier by Clara Frost

This is the story of Emily and Rafael. It is a very quick read, almost too quick for the story line. I gave 3 stars because the plot developed almost too quickly for the premise of the story, the characters didn't show enough personality to feel "real", and there wasn't enough struggle for the given personal demons each was dealing with. However, in the constraints of such a short book, the author did a good job. Just lengthening the book might have greatly improved the book and probably my rating.

Rafael was injured in Afghanistan and is trying to rebuild his life. Emily is struggling with the loss of her boyfriend.

Mia Catherine says

This was a very quick read that left me wanting more. It didn't feel like a complete book, but a portion of a larger story. Emily's backstory was never explained beyond the inference of someone dying months back, and the end left us hanging as to what happened next. There were large opportunities for character development, but everything felt skipped over - as if her grief and his trauma were resolved in a heartbeat. Since this story is only 30 pages or so, it felt much more like a chapter than a book in itself.

I know this is part of a series, but to me, a series should be several books that each tell their own story. This was just a portion of a story that left me disappointed.

S.R. Roddy says

While I agree with others that there could have been more detail, I felt it did a good job for what it was, a short introduction to a longer story. This is the first of a four part series and a nice rainy day read. The characters are likable and the full story shows a lot of promise. I especially like the wounded soldier angle. If

you're looking for a quick afternoon read this isn't a bad option.

Marianthi says

It is a novel that deals in real issues. The author did a very good job with the plot but...I have to be honest, I didn't like either the hero or the heroine. I especially didn't like the secondary characters. I will make an exception to that statement, I liked the Yaya. However, only liking one character in the whole novel and only a character that is mentioned in a few pages is just sad. Sorry!

Birte says

I liked the idea of the story, an injured soldier finding new love and hope with his bbw (ok, I admit, I had to look up what that means - big, beautiful woman for those who are as clueless as I was).

The writing style was good and I liked the characters, yet I can give "only" 3 stars. The story was just way too short. Sure, this is only part 1 of 4, but that didn't change the fact that I had the feeling that a lot was missing in the middle. If the story had been longer, more details, more *everything*, it easily could have been a 5-star-read for me

Lynn Smith says

Enjoyed the story. Rafa came home wounded. Friends set him up with Emily, he never thought he would find the women he had been waiting for. Not after what happened to him.

Loved Rafa, strong man, just the perfect match for Emily. The story was touching. Loved the ending

Dianne Abbott says

Good Reading

I really liked reading this book, the author let's you see into how one of our wounded warrior's need not just mental care and love, but the loving touch of a fellow human being. All of our wounded warrior's need to feel they are wanted and that they can have a life and career . I appreciate each and everyone of them for serving our country try to protect.

Jane says

Broken Soldier the first part of the Wounded Love series is the start of a story with four parts. Rafa returns from war without a hand and a leg; Emily is a widow with issues about moving on after the death of her husband over a year ago. This part of the story is just too short for five stars; I am tired of stories in parts. This part covered hard subject matter of the emotional issues of returning wounded soldiers with

understanding and compassion.

Sophia says

I am a sucker for wounded warrior romances and it had a fun blind date beginning so I picked this one up. I didn't realize it was the first part of a story- maybe a prequel to a novel or even an ongoing serial.

The set up was good and it ended on a happy for now promising note. Both characters are wounded in their own ways and it was neat seeing them open up and give love a chance. I liked it in a mild way.

Jenny Charles says

This was an okay book for me. The story really didn't grab my attention. I like that Emily is a curvy girl but didn't stress about her weight or how she looked to other. And Rafa was a gentleman and appreciated Emily body. However, the story didn't really let me connect to Emily, which I was looking forward to. If you look for a very quick read, !-click and you can't go wrong with free.
