Captured Willow Danes

Jenna McNally is tending to the heartrending task of clearing out her grandfather's cabin when she's knocked off her feet by the impact of a nearby plane crash. She races into the snowy North Carolina woods to help and discovers that this is no plane that's crashed.

Ra'kur's people have been brought to the brink of extinction by war. After years spent searching for a compatible mate to bond with, an enemy attack lands him on a backward, primitive planet and right to the very female he has been seeking. And a Hir warrior's first task in claiming a mate is to capture her . . .

Denna says

Really enjoyed this!! It's Hot, safe and has a alien virgin!!

Megan Fall says

I loved this book. It was sweet and it was fun!

Erika says

4.25 stars!

This was a super sweet, totally fun book! It was very enjoyable, from start to finish. Ra'Kur was the sweetest hero ever; I loved him! Jenna was adorable and hilarious. Ra'Kur and his people's background is really extraordinarily sad and there was a section there towards the end where I could really picture what he and the men went through. Nevertheless, the overall feel of the book is very romantic and cute.

100% safe!!

Amy M. says

Rating: 3.5 Stars

Abby says

So this one was more an alien romance than alien smut. But I still enjoyed it. More than most of the other alien smut that has been filling my status updates lately.

Things I didn't like:

1. Aliens were not alien like. Just tall humans with weird color eyes. I mean really. Why do all aliens look like humans?
2. He couldn't go back and grab her a single picture of her Pap? What is the point of being able to create wormholes?
3. She tried to attack his face with her tongue all of 2 minutes after meeting him. While she was cuffed to the bed!!!

Things I did like:

1. This alien romance began on Earth.
2. Mutual language understanding was not immediate. Ra'kur was so cute learning English.
3. New alien BFF Si'hala. She proves no matter the race, all 2 girls need to bond is a little retail therapy.

Val Shameless ?? Steamy Reads ?? says

Not bad for a free Kindle Unlimited book about aliens from a female-depleted planet looking around the universe for mates because, you know SCOURGE disease.

Man, I love this kind of shit.

Two things *did* kind of make me look...askance at this thing though....

1) Jenna got down and dirty with Ra'kur *pretty* fast considering, you know, they JUST met, and you know, because ALIEN.

2) And - most of all - the description of Ra'kur's appearance - namely his "ridged" forehead - left me with visions of...well...

Yeah....sexy....

B.E.Love says

Re-read because I'm missing this world so much, I wish we had info on when/if the next book was coming out.

4 1/2 stars, this book was just what I was looking for and just what I needed. After reading too many ok books and several just plain bad books, I have finally found a book that left me fighting putting it down and excited every time I was able to pick it up and read some more. I almost passed this book by but my desire to find great PR/alien book had me taking a chance and I'm so glad I did. This book was everything I have been looking for in a great alien romance. Yes this book needs editing but with how great the story is, the great world building, and story line the author created, as well as the amazing characters Willow Danes created and it was easy to look over the editing.

While at her grandfathers cabin preparing to clean it out and sell it after his death Jenna thought she heard a plane crash from the neighboring plane strip what she found instead when she went out to investigate was a huge scary alien who when she tried to run shot her. Waking up chained to her bed Jenna is terrified and when she see's the huge alien she can't think of anything but escape.

When the Alien continues to push Jenna to eat, and drink, and follows her all around her house she soon see's that escape is impossible. Even though the alien is scary Jenna can't help but admit that he is also handsome and sweet the way he tries to care for her, and almost seems to purr but with a language barrier that they can't get past Jenna finds it hard to find out what the huge alien wants.

The more time they spend together and the more he seems to pick up her language the more Jenna starts to think she had the alien all wrong. When they finally get a chance to talk Jenna finds out that Ra'Kur thinks she is his mate and all he has done has been to woo her and show how strong he is. When Ra'Kur tells Jenna he wants to take her home she knows she will have to refuse even if not seeing him again seems to cause her pain.

And then the choice is taken away from Jenna, and as she and Ra'Kur start their new life they soon find the obstacles set up against them are piling higher by the day, on Ra'Kur's planet Jenna is something all the lonely men want even if they have to take her, and worse Jenna may not be safe in a world with so few woman left.

I really, really like this book from begging to end so much so that I dreaded seeing the percentage on my kindle continue to creep higher and higher. The second I finished I looked up all the information I could find on this series and quickly moved it to the stalk author pile/impatiently wait for book two pile. Willow Danes did an amazing job creating a world I easily became a part of and she created characters that I could help but love. Jenna is a smart strong woman who though she is strong isn't irritatingly tough. Ra'Kur was a magnificent hero. He was everything I look for in my perfect hero, strong, possessive, jealous, will to do anything to get and keep the girl, while also kind and loving.

And the side characters were just icing on the cake that added even more to this story and the world created making me want more still. We get a nice sneak peak into the next hero for book two as well as a small snippet of book two that was nowhere near enough but still left more all the more excited for book two.

Mara says

2 1/2

I will agree with my fellow GoodReaders, this is one of the best futuristic romances out there. Unfortunately, when the vast majority is *sorry* trash, it doesn't matter that much.

Captured is very nicely written, and it had a good editor too. But when you write genre fiction you have to follow the rules, and in "science" they are pretty strict. So no valid world-building on the scientific side. But also not much of a romance either, at least for me. First, because sex at first sight with anybody, above all, an alien is beyond stupid. Then because there was no romance, out side what I was told. There wasn't much depth to characters either, but at the end of the day it was my minor nit.

Overall a well written terrible blandness.

Victoria says

3.5 RATING- Am I the only one who is slightly embarrassed to read about alien romance? Hmm. Oh well, I know my GR friends don't judge...that's why I hang here!

I usually don't read much in the sci-fi/fantasy genre but when I heard this book compared to one of my favorite Kristen Ashley books, Golden Dynasty, I had to see what the deal was! Unfortunately, the book wasn't similar in my opinion but it stood on its own as a pretty solid romance, as far as alien romances go =) The story drew me in and while it wasn't amazing or anything to write home about, it was entertaining and I will read the next book in the series, when released. I guess I'm a sucker for sweet alien lovers. Go figure.

Note: At the time this review was posted, this book was available to borrow through Amazon's Kindle Unlimited program.

JudyB says

I'm not usually a fan of PNR but based on a recommendation from a trusted friend, I read this book (it's available on Kindle Unlimited) and I'm so glad I did. The book tells the sweet love story of Ra'Kur and Jenn. Ra'Kur is from the planet of Hir where biological warfare has wiped out most of the female population. He has traveled many years searching for his true life mate. Due to mechanical problems he has to crash land on earth, specifically on rural land that Jenn now owns due to her grandfather's death. Ra'Kur recognizes that Jenn is his true life mate immediately upon seeing her. He's strong, uber possessive and sweet. This book reminds me a little of KA's Golden Dynasty. The love story between Ra'Kur and Jenn brought tears to my eyes during certain parts of this book. I like this author's writing style. She has the ability to draw you into the story and actually feel the characters' feelings. Even if you're not a big PNR fan, I recommend this book if you looking for a love story that will make you fall in love with the characters and anxiously await the next in the series. 4 1/2 stars for me.

Ivie ☆Born to Magic-Forced to Muggle☆ says

In consideration of space porn – I've read better. Much, much better...

The sexy alien guy..???

Check...

Unsuspecting human woman/abductee/lonely chick who hasn't have had sex in ages (why do they always do that?)/ chick who has no more family (and that?)/ chick who lives in a cabin in the middle of nowhere (especially that?)...???

Check....

Plot ???

Er.....

Who would have thought that the most difficult genre to write would be erotica? It's like the authors themselves don't give a shit about what they put in there. Sometimes it's as painful as if somebody is making you to read an actual porn narrative written in purple prose. Hint-hint if you want to make good money – write good scifi erotica – it's rarer than blue diamonds.

Kitten Mercer says

This book was cheesy-sweet af. I'm not one to often read sci-fi/alien romances other than Laurann Dohner's books, but this one worked pretty well for me. The hero, Ra'Kur was a total alpha male for a virgin alien and I totally loved his character. He was very protective and possessive of his mate, Jenna and he growls a lot too. **And did I mention that he was a freaking virgin?** Jenna's character was also fun to read. I love heroines with a good sense of humor and reading her inner monologues cracked me up at times.

As for the sex, the scenes were quite descriptive but I thought it wasn't erotic or arousing in some way (since it didn't get my panties soaked and all lol). But this was a really enjoyable read. Ra'kur and Jenna had lots of cute and funny moments especially during the first few chapters, and I couldn't help but smile throughout the book. This was my first Willow Danes book and will continue to read more from this author.

If you're looking for a sweet paranormal romance with a possessive/protective virgin alpha hero and a funny endearing heroine, then this one's for you.

PS. To all Grammar Nazis out there: Yes, this book might need some editing. But I was too caught up with the story that I just didn't care anymore if it has typographical/grammar errors. Peace out!

Rating: 4 solid stars.

POV: 3rd person. Both from the MCs.

Series: 1st book in Warriors of Hir series. Can be read as standalone.

Cliffhanger: No.

Re read via audible. It was fun listening but the male narrator is not appealing to me. He sounds like Bane from the last Batman movie. Not sexy.

Prior comments:

4.5 stars. I loved this book! Maybe my rating is a little high because I have read some real crap lately, but I totally enjoyed this book and rushed on to the second in the series. The hero is great (totally devoted and protective male) and I liked the heroine. It was hot and steamy. Totally safe read.

Megan says

So sometimes I get bored with all 900+ books on my TBR shelf and sometimes I get on Kindle Unlimited and search for hours and sometimes I add 17 more books to my TBR shelf and sometimes I read what I thought was going to be alien smut but it's really an alien mate book and sometimes that's alright.

If you are wanting an alien smut book then put this back because it is not smut. There is a story.. not a totally great story but there is definitely a story line. There is very little smut. I wouldn't even call it smut.. it's like YA smut. :(

but I actually still enjoyed the book. I think that she gave in way too easily. The guy purrs and you go all goo goo but hey whatever works for you. I love that they couldn't understand each other at first.. idk why I always love this. It's usually pretty funny and it really only lasts a day.

Okay so there is a storyline, there really isn't smut, the chick is kind of a push over, the dude is stubborn but sweet and the book is short.. pretty decent actually. I'll eventually read the second book.. on another day when I'm bored with all my unread books ;)

Side note.. my laptop is sitting right next to me.. Why did I type all of this from my phone??? WHY?!
