This book started out really slow to me, but man, once it hit the climax it was very entertaining. I loved the way Sawyer and Janelle acted around each other. Both being so sarcastic and purposefully trying to get under the other's skin. Their constant bickering really gave the story a humorous feel. What started off as being a babysitter job to detective Boone, ended up being the start of his new life. The sense of family loyalty is very strong in the book and when a secret is told, this great big family is the only thing that can bring them back together.

Though a part of the law but not law enforcement, Janelle Cavanaugh is given a case that would be THE CASE of her entire career. Hoping to move further up in her career, she finds that this case would turn her life upside down. Everything she knew to be fact becomes smoke.

The district attorney (whose assistant's assistant Janelle is) gets a bodyguard for her because the D. A. believes that her life hangs in the balance of this case.

Detective Sawyer Boone does not want to have this babysitting duty to the Chief of Detective's daughter but has no say in the matter and unable to get his assignment changed. Therefore, he is stuck with this woman who brings out the possessiveness and protectiveness in him (which he does not want to feel).

While she works on the case, her father Brian Cavanaugh, asks her to withdraw because she is related to the accused by blood. He tells her the secret that he has kept for all her life. Tells her that she is the result of her mother's infidelity.

But at the same time he assures her that only he is her father and she his daughter in all the ways that mattered. Janelle goes into shock and it takes Sawyer's clear headedness and stubbornness to get her to realize that what her father told her was absolutely the truth. She understands that some other man may have

fathered her but Brian Cavanaugh was, is and remain her father and she was a Cavanaugh and nothing could change that.

Sawyer on the other hand has just one hope in his life since he lost his fiance. And that is to eliminate as many bad guys as he can and be eliminated someday as well. But all that changes when he starts developing feelings for the woman who he is to guard. Even with no point of reference to work a relationship he has every intention of doing his best to make it work with the beautiful assistant A.D.A.

And thus they find themselves on their path to "till death do us part".
