This book is totally giving competition to Entwined with You in the matter of pushing the publishing date again and again and again and now fucking again.. 4 times.

I mean, yes.. I'm very happy for the Author that her book has gotten picked up by a Publishing House..

But hell man, its still irritating... guess I'm going to have to sit and be pissed at the publishing house.

Feb to March to May to July 20th now.

WHAT THE FUCK IS HAPPENING WITH THIS BOOK?!?

**FROM FEB FIRST IT GOT PUSHED TO MARCH. NOW ITS FUCKING GOT PUSHED TO MAY.
THIS IS SO BLOODY ANNOYING.**

Only problem is he doesn't know how young I really am and I don't know that he's my...

I think I know he's her what... :O ;) Let's wait and see if I'm right now.. hehe

Can not believe this....I just. DUCKS DOWN HEAD. I really hope there is no truth to this, but sadly I think there is. This is very disappointing.

I am so dam disappointed that these people feel the need to trick us readers! I have to say that it pissed me off because soon the reading community is not going to want to read anything!

Nic says

****ANOTHER BOOK THAT WILL NEVER BE READ*** SHAME IN YOU FOR LYING AND HAVING PEOPLE BELIEVE IN YOU AND YOUR WORK. TAKE RESPONSIBILITY FOR YOUR ACTIONS, SHOW THAT YOU HAVE SOME DECENTY!

Iva says

Oh my God! Another fake author????? Jordin Williams was the first shock and now this again?! I should've received an arc of this book this weekend, but this "author"(it was hard even putting it in quotation marks, she's no author) was discovered and already deleted her account. There is NO WAY I would've read it even if she sent it to me.

This is horrible. Why are people even doing this? It's a direct and major insult to all the hard-working authors out there spending their time and money trying to give us the best stories to enjoy. And their work to be stolen like this? Piracy is one thing, but out-right stealing and taking credit from it is disgusting.

I hope the number of these people doesn't grow even more. I'm already afraid.

EDIT: And what's with the ghostwriter thing? I first ever heard about it with the situation with Jordin Williams. Is this really that common? Or just one way these fake authors are trying to save themself?

Carina says

**HUGE controversy surrounding this "author" and the many aliases she was using.
No matter how much I was looking forward to this book, I am now NEVER touching this. So sad.

Another book plagiarized??

and on that note...

Justine Elvira says

I'm not really one to jump on the band wagon but I absolutely will not support this "author" or "ghost writer". This is the same person who is plagiarizing books and write's under a different name every time. DO NOT SUPPORT HER!!!!!!! Last night I was able to make the connection between her and several other fake "authors". This includes Amazingly Broken that Plagiarized Tamara Webber's Easy and Jamie McGuire's Beautiful Disaster! She is a fraud and somehow keeps getting away with her scheme. Please do not read this book!!! This is so sad and it really breaks my heart that people are out there messing with other's hard work.

Another author with multiple aliases... Wow. I'm sorry to say I won't be reading this. And it really sucks that I was approached to do a review only to respond to the email address and find it deactivated.

Courtney says

PUSHED AGAIN!??

Fine...fuck you too book! I don't want to read you anyways.

Lucia says

Please do NOT support this.

Plagiarism ...

Seriously... W T F ?!?!?

I am so fucking disappointed. I can't even tell you right now, how disappointed I am.

I'm speechless

Joder! Vaya desilucion y chasco. La verdad es triste y deprimente como lector que pasen estas cosas, pero los autores? a quienes una persona o personas robaron su trabajo, sus ideas, Uffff.

I think it's entirely possible that this author is also the fake known as Jordin Williams and our blog will no longer be participating in her promo for this book.

ANOTHER FAKE AUTHOR??? AGAIN??!!

So when i first saw this book on my GR newsfeed, i was *super excited*.

But then there was the whole '**Jordin Williams' fiasco thing** and yeahhhh, i was pretty *wary*.

But let me explain to you my feelings on this book, as i was really upset because i was really looking forward to this book. **But plagiarism is plagiarism and in no way can this author's actions be justified.** So yeah, let's get on to the list which includes **Liz Thomas, Emily Curran, Beth Klein, Emma Buch** and also **K.A. Andrews** being confronted as *frauds*. Or more simply put, they're probably the *same person*...

PLAGIARISM IS NOT TOLERABLE SO PLS DO NOT SUPPORT ANY OF THESE 'AUTHORS' AT ALL

I still don't get why some people would do this. Ughh. I mean how the hell can she still cope with all those personas? Isn't that like so confusing and tiring? I knew i would be in a totally hassling situation if i had that much identities. Losing my wallet itself has already made me feel like i lost my identity. What else with all these personas...
