I think I've been in love with Jack almost as long as Sierra has! Jack, a former Army Ranger, is everything we want in a swaggering, bad boy cowboy. He's forced by circumstances to share ownership of Sierra's family ranch, and he decides there's no reason he can't take Sierra up on the lustful offer in her eyes, even though he knows she's been in love with him since childhood. Sierra figures any part of Jack she can get is still better than none at all, and she convinces herself that she can protect her heart in the meantime. Ah, but life never goes as planned and both of them have to deal with the fallout when they realize just how wrong they've been.

Jack and Sierra's love story is about as hot and steamy as words can convey, and the author does a brilliant job of showing us the emotional growth of both characters throughout. A few of the plot twists may be a bit familiar, but they really work in this book and the story was completely charming and unputdownable (yes, it's a word). It was great to see Sage and Mason again (from the previous book) and get caught up on their growing family. I voluntarily reviewed an ARC of this book.

I received a copy of this book for an honest review.

I feel like lately all I read is the same story. Not this time. This story was so well written and beautiful. Jack and Sierra have known one another for years and their coupling is explosive and real. I genuinely felt like it was one of the realest stories I'd ever read, almost like I was reading a diary. I keep thinking of things to add but they're not spoiler friendly. Just step into a world where you might get your heart a little broken. You won't be able to put this book down...I promise you that. I hope there is more to this series!

Sierra was owner of a bar and had a crush on her best friend brother since she was a little girl. She placed a bid on her family's old ranch. Jack was an ex-Army Ranger who had been home for two years and still didn't have anything to show for it. He placed a bid on Sierra's family ranch too. The owner decided to hold out for a higher price and the realtor suggested that they go in partners on the ranch. They did and were living in the same side of the ranch house until the other was repaired. They went to a Halloween party and the chemistry

got out of hand. There are plenty of sexy scenes, hurt, emotional upheaval, and love in this book. Will Sierra finally get her happy ever after with Jack? Will Jack be tied down? Read this book to find out the answers to these questions and more.

Piper once again takes us on an emotional rollercoaster with her plot and her characters interaction with each other. I reviewed and Advance Reader Copy of this book and am leaving a voluntary and honest review.

I enjoyed going back to Lucky Flats. Jack and Sierra have known each other most of their lives and while Sierra has been in love with Jack since the first time they met Jack has never shown any interest. Sierra thinks Jack sees her as another little sister because she is best friends with his little sister. Jack doesn't believe he can love anyone, not sure why. They both make an offer on Sierra's old family property and end up sharing the homestead and of course one thing leads to another and sparks fly. Jack eventually has to face the fact that not only can he love Sierra, he has in fact been in love with her for years, she was his lifeline while he was serving his country. It was great to see Jack and Sierra get their happy ending and it was also great to check back in with Mason and Sage and see how their family is growing.

This ARC was gifted to me for an honest review. I enjoyed Jack & Sierra's story, it was an unrequited love story that had chemistry igniting off every page. A forever love is what Sierra had for Jack from the time she was a young girl. Back from ending his military career, Jack wasn't looking for love, he was looking to start up his own ranch. Sierra's finally was able to buy back her late families land but the current owner has a second offer. When she finds out it's Jack she's shocked when he suggests they buy it together & live there together as friends. What starts out simple soon gets complicated & then gets even more complicated. I enjoyed seeing Sage & Mason's continuation with their growing family. The costume parties were a hoot, as was the sarcastic wit of Sierra. Recommend to read.

Book 2 of series, but do not need to read book 1 to understand or follow. I had not read book 1 but then purchased it and read it after because I really enjoyed the secondary characters and wanted to read their story. Told in Dual POV with HEA. The story of a girl who has always had a crush on her best friends older brother. Sierra lost her parents and brother when she was young and was then raised by the neighboring ranch family, her BFF Sage and her brother Jack. Jack is older and went off to the army where his lifeline to

home is the letters he receives monthly from Sierra. He is now out of the service and looking to purchase a ranch. Sierra wants to purchase her old family ranch but neither she or Jack can afford it on their own, so they purchase it together. Things quickly get physical between them as they can not fight their attraction. Jack never wants to settle down so he makes it clear with Sierra from the beginning that their relationship will ONLY be physical. Sierra agrees to accept whatever he can give her, but soon is needing more. I enjoyed this book and would recommend. ARC review.

This story takes place in Lucky Flats. Jake has been away in the Army for the past ten years and comes home with the dream to buy some land of his own and be the rancher he's always wanted to be. Sierra is his little sister's best friend and has always had a crush on Jake, it's the worst kept secret in town. Let's say Jake sees that Sierra is no longer a little girl and he does what it takes to stay away from her. At the Halloween party Jake can not control his reaction to Sierra in her custom and things develop on a bumpy road. Jake is a good strong man who wants nothing to do with commitment and Sierra wants a man to be with and love. Can these two see what's right in front of them or will their stubbornness keep them apart? It's great how fate throws them together and what they do with that chance is a wonderful story. I voluntarily received an Advanced Reader Copy of this book.

I volunteered to read this book for ARC.

Let me say, LOVED IT. Sierra and Jack have amazing chemistry.

Sierra is an orphan who is raised by her best friend, Sage's family. She has a huge crush on Sage's brother, Jack. He is older and sees her as his little sister's friend. Jack leaves from the Army and Sierra writes to him regularly. While he is gone she opens a bar and tells him all that's happening at home. When Jack finally gets home, he wants to buy the ranch that belonged to Sierra's family. But when he puts in the offer, he finds out someone else did to, unbeknownst to him it's Sierra. They decide to become partners in purchasing the ranch. After a Halloween party at Sage's, things get a little heated and take a different road. Friends with benefits. It's great following on the journey these two make.

Excellent contemporary small town western style romance. Sierra finally had her bar up and running. Now she has the opportunity to purchase her family ranch. Unfortunately, she finds out that her best friend's brother, Jack, also wants it. Jack returned home after a decade as an Army Ranger. They decide to purchase the ranch together. Sadly, Sierra has lived with Jack since she was a little girl. Jack realizes she is no longer a little girl but a beautiful and sexy woman who he's very attracted to. I enjoy the way the author brought other characters from previous stories into the book because their relatives and friends which adds to the enjoyment of this book. I received a complementary copy of this book and chose to write a review. I look forward to reading future books by Ms. Sullivan.

As always I have my expectations when it comes to Piper Sullivans books. This one did NOT disappoint me. It is a hot and steamy read that caught me from first to last chapter. I like the story line and plot. It is a sweet and suspenseful story that is about Jack and Sierra. Sierra has had a crush on Jack for many years but she was his little sister's best friend and he never saw her as anything else. Now Jack returns after 10 years in the army. He meets Sierra who has now grown up. There is lots of chemistry and some hot scenes. No spoilers here.

The way their relationship develops is amazingly well written. They have a lot to overcome. It is sweet and different at times.

I like the characters that are well described and develops through the story. Jack has the longest way to find his HEA. The characters are relatable and that only makes the story better. It is written in dual POV and that gives the reader the thoughts and feelings of both main characters. The story flows freely and nicely.

I received a free copy of this book and am voluntarily leaving a review.

Jack and Sierra are bringing us back to Lucky Flats and making up for lost in their steamy and sexy HEA! Sierra has loved Jack since she was a girl - to bad he has never seen her as anything more than his kid sister's Sage's best friend. She knows it's time to give up her dreams of more and sets her sights on much more attainable goals like finally getting back her family ranch. After losing her family as a kid their beloved ranch went to a buyer that just let the place fall into disrepair. Now that it's on the market she is determined to own it and restore to its former glory. That should occupy her mind right...? Jack needs something in his life now that his time with the Rangers is over. Now that the Carmichael Ranch is on the market again he wants to buy it, restore it and run it. Somehow the stupid seller believes that having two offers on the table is a bidding war and raises his asking price by \$50k. When the realtor suggests a partnership as opposed to losing the property and it turns out he was up against Sierra for the land he reluctantly agrees. Jake knows he shouldn't get into bed with someone he would literally like to do that with. He is not Mr Commitment and he is well aware of how Sierra feels. But in lust vs smarts - lust wins hands down. Jake and Sierra keep swearing up and down it's casual - but something about these crazy kids is making that awful hard to believe.

I voluntarily read an advance reader copy of this book.

### **Sherri Babb says**

I was really excited when I saw that we were heading back to Lucky Flats because I absolutely loved Sage and Mason's book. Then when I saw this book was going to be Jack and Sierra's book I got even more excited. Let me tell you this book was HOT!! Sierra has loved Jack for a very long time. She would do almost anything to be with him. Jack is more of a loner. He thinks that he just wants to grow old alone. Let me tell you when you put him together with Sierra it is an uphill battle for both of them. I picked up this book and I could not put it down. If you want to find out who wins the battle you will have to pick it up and

give it a try. Definitely a 5 star read. I voluntarily reviewed this book in exchange for a honest review.

### **Ryan - Sweet Red Reader says**

I voluntarily reviewed an Advance Reader Copy of the book.

Fast paced and sexy - I really liked this book. I read it in under 2 hours and enjoyed every minute of it. Sierra was feisty and sympathetic; she'd been in love with her best friend's brother since she was a child, but accepted that he would never feel the same for her. Despite that she still acknowledged her feelings and even resigned herself to enjoying a superficial physical relationship with him when the opportunity presented itself. Jack was a decent male lead - I liked how his true feelings were revealed over the course of the book as he too came to grips with the reality of his emotions. The feels were real, the sex was hot, the story was good - what more can a girl want? 3.5 out of 5 wine glasses.
