This kept popping up on my kindle "offers" and I thought reading this might be an interesting way to try and understand Trump.

The impression I came away with was that to invest in real estate successfully would end up being MORE work than my day job. And not really work I have any interest in.

A bit interesting to get inside the head of a real estate investor, but I don't think I'm very likely to try it.

Laurentiu Ghenciu says

Examples from the book seem to be from another world.. (\$100k property in US is rented with 1.1k monthly rent..) - otherwise it would have been an easy to read practical guide for beginners in real estate investment

Eric Olender says

Excellent starter guide

I found this book to be a great starter guide and motivator to begin investing in rental properties. I found the action plans to be very useful as well the the weekly guideline towards the end.

A wonderful layout on Rental Properties

Whoa! Dustin makes this method of passive income simple and breaks down terminology that may be complex to others, yet demonstrates through life experiences and examples why the numbers work and about how much you truly will bring in to help manage rental properties. Great read. Highly recommend this book.

Monica says
