Novella (14,300 words)

Genre(s): Contemporary, Romance, BDSM, Gay

Most things in life come easily to eighteen-year-old Jenner Parrish, who's on track to inherit the family business, and is popular, well-liked and good looking. He has everything he could want, except when it comes to love, and sex. Closeted, lonely and desperate, he acquires an invitation to an event at a nearby private gay club, Manse. Feeling out of his element and for the first time quite shy, Jenner is unable to play the wallflower when he captures the attention of the suave, seductive owner of Manse, David Davenport. David is used to getting what he wants, and what he wants is gorgeous young Jenner, who begins to realize every fantasy and wild desire could be his for the taking, if only he dares to ask and obediently serve. (M/M/M - For content labels and excerpt, see details on publisher's site.)

Note from the author: M/M BDSM Romance novella. It's part of the Society of Masters and a prequel to Bound by Lies, though it can be read as a standalone story! It also introduces the characters David and Shea from my next novel release, Loving the Master, also coming very soon!

Very good - nice prequel to Bound By Lies which I can't wait to read. I love Lynn Kelling's writing style, she has the best way of presenting her characters - I always get a real in-depth feeling for them. Wonderful author :)

A nicely written, hot prequel to Bound By Lies. Having already read that story, I liked seeing where Jenner started as a shy 18 year old, which is a far cry from the bad ass Master he becomes. His submission and loyalty to David and his taking to heart of the instructions he is given for his interactions with Shea, gave me a different view of what I saw as an almost obsessive need for his slave Brayden.

I'm definitely looking forward to reading David and Shea's book in the future.

So hot! Now I'm going to read the next over again.

I have been reading Lynn Kelling's books for three years now, and of all the authors I have read in the dark erotic, BDSM, M/M genre, Lynn is the one that excites me the most. The reason being; the growth and development in her writing that I have experienced as a reader. How with each new book she publishes, the depth of emotion she evokes has evolved, and my connection to her stories intensified. She just get's better and better... With Learning from the Master being the latest addition to that list.

I don't know what Lynn Kelling was on when she wrote this novella, chocolate, wine, coffee or maybe some kind of aphrodisiac, 'cause holy hotness, I might need to ship it out to her in crates because I want more! This book is HOT as frickin hell, but not in your face porny hot or sugary kink, it's classy BDSM, a powerful, yet subtle seduction, with erotic undertones that create an air of sexual tension that literally had me tingling all over! I'm not kidding... I was tingling!

If you have read Lynn Kelling's Bound by Lies, you will already be familiar with Jenner and if you are anything like me, totally lusted after the tall, dark, handsome and intimidating Dom. However in Learning from the Master we see a very different young man.

This is a short prequel to *Bound by Lies* that focuses on Jenner's training under Master David to become a Dom.

"Control," David whispered by Jenner's ear. Both hands found each of Jenner's nipples and twisted sharply, pinching, making Jenner release a thunderous groan of pleasure. "Always control, no matter what."

When Jenner first arrives at David's mansion, he's a small town football hero, an all-American boy who hides behind a facade. Jenner is deeply closeted and scared to explore his own sexuality.

Master David's tutelage helps him break out of his shell.

This book is HELLA HAWT. So HAWT, my darlings.

Prepare for sexy group play, voyeurism, slutty subs, partner sharing, bondage, and STEAM galore.

This is only the beginning of Jenner's story. He yearns for a sub and love of his own; he finds both in:

(I am appalled that I haven't read this book yet, because I'm a total fangirl for Lynn Kelling. Now that I've gotten a glimpse of Jenner, I want to see him come into his own.)

I think this can be read as a standalone OR as a delicious beginning if you've already read Jenner's story.

Regardless, don't miss it!

If you have read Bound by Lies you will have already met Jenner Parrish. This is a prequel to Bound by Lies and the Jenner we meet here is very different.

Outwardly he has it all. A good looking guy who is popular with his peers and is set to inherit his family business.

Inwardly he is a mess. Afraid to admit to who he is sexually attracted to he is lonely and stifled by his fear.

Until he swings an invitation to an exclusive party at a gay club which caters to all tastes. Jenner's fear is palpable and he has just about enough courage to walk through the door without running for the hills. It doesn't matter that every man in the place is gay and looking for the same things Jenner is – his fear of being outed or recognised rules his life.

When David, the owner of the club, approaches Jenner he may be the only man there with the charisma, charm and gentle patience to persuade Jenner to stay and explore his options. Once the decision to stay has been made things hot up!

Jenner is introduced to the world of BDSM and he may well just have found his niche in life. I think even David is surprised as Jenner proves to be stronger than he first thought and is very sure of the role he wants to take and under David's careful guidance Jenner flourishes.

There is the usual Lynn Kelling heat within the pages and as always at the end you are left yearning for more. I am very much looking forward to reading more about David and Shea.

Oops, I've clearly read things out of order. ? Bound By Lies I read in 2013, the others have been buried and now Hush has come out. Never mind...at least I know the writing is good. 3.5 stars rounded up.

Sexy little prequel to Bound By Lies, which I must now read.

Learning From the Master is all kinds of (deliciously) naughty - including multi-partners and voyeurism, but is isn't a romance, rather a precursor of things to come - which *will* be a sexy romance. Nice introduction to the enigmatic David Davenport and the conflicted Jenner, to name a few. On to Bound By Lies.

Learning from the Master, by Lynn Kelling, is the prequel to Bound by Lies. I love reading these short stories because I feel like I'm being told a secret about the character that I didn't know prior.

Jenner never really had to fight for anything in his life. Except honesty. And love. And trust. And total acceptance. The lying was driving him mad. -Jenner

Jenner is used to being in control of his life but the minute he walks through the doors at Manse, a gay nightclub, he knows immediately he is out of his element. When David, the owner of the club, sits down beside Jenner scoping him out, he instantly has a case of butterflies.

Jenner goes to the club mainly looking for sex. What he finds is so much more than he ever expected. David takes control of Jenner immediately and focuses all his attention on giving Jenner every type of pleasure he can imagine.

Manse is a BDSM club so it's not long until David is mastering Jenner. He wants to show him what being a master and sub are about and train him so that he can one day have his own sub.

Shea is David's sub and he arranges for the two to meet and form a connection. His goal is to show Jenner how special and precious having a sub is and how to appreciate them to the fullest.

This is a short story so everything happens pretty quickly. Lynn does a great job of putting a lot of detail and information into the story so that you get the full experience of what is happening.

Even though it is short the author doesn't cut corners on the importance of safety and rules within the BDSM world. David is always very conscientious of what is going on and making sure Jenner is okay with the training.

This is a great introduction into how Jenner gets his start of being a Master. Lynn is a great storyteller and one of the best when it comes to BDSM. Every story I've read by her always has my full attention and I quickly become enthralled in the storyline. Whether it's a novella or a full novel Lynn tells the story brilliantly.

You definitely want to read this if you have read Bound by Lies and if you haven't I would encourage you to read both. If you like BDSM in your stories, Lynn Kelling is the author to read.

A review by The Blogger Girls.

I really enjoyed this short story prequel to Bound by Lies. It shows us how Jenner was able to find himself and really come to terms with his wants, needs and desires.

Jenner was closeted and kept up a good front taking over the family business. But, he was really desperate to experience what he truly longed for. He took a big leap going to the private party, but it totally paid off for him after he caught the eye of David, the owner of the club. David is much older, more experienced, etc., but he took Jenner under his wing and it was truly beautiful to watch.

I loved how Master David was with Jenner and how he helped Jenner realize his dreams were within reach. He basically trains Jenner to be a good dom while making him experience it through submission to him. And that he shared his own loving sub with Jenner was beautiful and very well done.

There are so many wonderful scenes in this short story that only left me longing to go read Bound by Lies to see how Jenner makes out on his own. This was a well written BDSM tale that really just sets the stage for the main story. Another fantastic job by Ms. Kelling.

You know nothing, boy.

Two vignettes loosely told to set the scene for the upcoming full-length novel. The two scenes give the reader a clear idea of the trajectory of the next book with one scene revolving around Jenner's submission and the second demonstrating that his desire to grow into a Master. Unfortunately, it lacks detail in characterizations and is more telling than showing. That said, there is hot sex with a voyeuristic leaning. Also, I feel a TEASER warning is advised. The sex is abandoned before complete and thus feels half told.

This is definitely a nice dime bag to get one interested in the first book of a new series. On the other hand, \$2.99 for 50 pages and two incomplete scenes seems a bit unsatisfying. Having been provided a review copy it's not an issue, but if I'd purchased this I don't know if I would feel like I got my money's worth.
