Now You See Me

Emma Haughton

Now You See Me Emma Haughton

Three years ago, thirteen-year-old Danny Geller vanished without trace.

His family and friends are still hanging on to every last shred of hope. Not knowing if he's alive or dead, their world is shrouded in shadows, secrets and suspicions.

This is the story of what happens when hope comes back to haunt you. When your desperation is used against you. When you search for the truth – but are too scared to accept the reality staring you in the face...

A mesmerizing psychological thriller with the most incredible twist you'll read all year.

From Reader Review Now You See Me for online ebook

Elizabeth says

Danny Geller was thirteen when he disappeared, and nobody knew where he went. Least of all his best friend, Hannah Radcliffe. Having recently lost her mother in a car accident, the loss of Danny was yet another blow she wasn't prepared for.

Three years later, Danny's family are still looking for him, and haven't given up even one tiny shred of hope. But when their hope is used as a weapon against them, what can they do? Should they continue to hold onto it, and ignore the reasons telling them not to, or should they let it go?

This is such a brilliant, gripping read. Definitely worth a read.

Tomoko Miyakoshi says

Emma Haughton, are you kidding me? Nope. Couldn't have ended like this. NO WAY.

I have never, never read a book with a plot more complicated, more exciting. For me, a winner upon all mystery "page turners". I hate myself for believing that with the 20 pages left, there was going to be a definite ending, a solution to everything. I hateee that I decided to finish it tonight, leaving myself way too much time to stay awake thinking about it.

I must admit, the biggest "plot twist" (I guess), I predicted. Hmm.. now that I think about it, maybe that was intentional, and was made a bit obvious to make readers wonder how things were going to turn out that way.

Definitely go read this. NOW. Once you're done, come talk to me. I NEED someone to talk to about this ending. I haven't put any spoilers in this review to prompt you to go pick up the book.

Oh, and finally done with my 2015 reading goal of 60 books!! Love that this was the book I met my goal with. Oh my, never had I been more desperate to write a book review.

Michelle says

This book is pegged as a YA - but as a reader that usually opts for adult psychological thrillers I honestly found it just as compelling and thrilling! I read it in two sittings and couldn't stop when nearing the end (even though I needed the loo!) I liked the approach the writer took, flitting between "then" and "now" and then exploring "from now on". This gave the story the necessary layers to really draw us into the character issues that make up the plot.

Some reviewers claim that the plot is unresolved at the end, but I have to disagree. The author made decisions for the resolution of the plot that were subtle and which allowed the reader to ponder upon the

decisions made by the protagonist towards the end. Far from being disappointing, I really appreciated this because I was able to analyse in retrospect; an enjoyable thing to do after reading a good novel. Yes, we may want to know even more... But in this case it is an ending you can draw your own conclusions to.

Lu Hersey says

Now You See Me is a brilliant rollercoaster read, so strap yourself in and enjoy the ride. Thought I'd just flip through a few pages after work yesterday, then ended up totally gripped and still reading at midnight. Started reading again at 6.30am because I HAD to finish it, and ended up late for work. It was THAT GOOD! No plot spoilers, just get your hands on a copy of this YA thriller and find out for yourself.

Kindle Ninja says

A tragic loss. A missing best friend. A grief-stricken teenager.

I was drawn to the plot like a moth to a flame. Undeniably intriguing.

The story was skilfully plotted to elicit shock, amazement, and utter disbelief. It's so effective that you might even willingly overlook some things that remained unclear, specifically Danny's motivations. But then again, perhaps someone doesn't have to have an elaborate reason – just one simple reason is enough considering all what went down.

But there was closure. A beautifully executed closure.

Anna says

Rating: 3.5 stars

Peter says

An unputdownable thriller. Tense and full of twists. It was so good I read it in a day!

Julia says

Predictable

Helen Grant says

Excellent YA psychological thriller - I read a lot of thrillers, both crime and horror, so if a plot line is obvious or cliched I can normally see ahead, but this book really kept me guessing! The style is easy to read (and I read this on holiday where my attention span wasn't good thanks to too much sun and loafing!) but tightly-written and the tension is well maintained. I found myself very anxious about the interaction between some of the characters, although I can't say more without spoilers. Anyway, I really enjoyed this book!

PhobicPrerogative says

[So Danny ran away because he couldn't confront his parents about his father's infidelity and lies. Also turned out that his BFF was h

Sarah Harris says

I was dying to read Now You See Me as I love thrillers and wanted to find out which true life story the book was inspired by. Once I started, I couldn't put the book down and finished it in a day. I was completely absorbed in the riveting plot. I think Emma's a brilliant thriller writer who's adept at keeping the reader hooked through mounting tension and suspense, while creating characters you truly care about. I did remember the real-life story but I still didn't see the twists coming at the end. I'd highly recommend Now You See Me - a gripping thriller with real depth.

Kate says

Wow! This book was amazing! I finished this book in one day, which is evidence enough of how much I enjoyed it. The plot was unlike anything I've ever read before. I think that the way that we don't know what happened to Danny is a massive incentive to carry on reading. Not only that though- there is a subplot of what's happened between Hannah's dad and Danny's parents, which I also spent a lot of time wanting to know more about.

The writing of this book was brilliant. It didn't give things away before they were supposed to be, as some books I've read have done. I think this is really important otherwise a story can become boring if you know what's going to happen next. I thought that the characters had a lot of personality and I really liked Hannah, who the story was from the perspective of. Also, I loved Danny's mum because I think that she was really strong and I think that she was a lot like any mum, so this made the story even more sad to read because she was relatable.

As for the plot twist, I thought it was brilliant! In a way there were two plot twists which is even better! Sometimes a twist can be a bit far fetched or annoying, but this one was so good! I really think that it made the book even more better and exciting.

I strongly recommend this book to anyone who enjoys YA- this book is actually a UKYA novel (!)- with a riveting plot and an almost thriller type of genre. I would really love to read more of these types of books, so let me know if there's anything out there- I haven't really read anything like this before! I have to give this book 5/5 stars because I enjoyed it so, so much.

Liz Barnsley says

An absolutely brilliant psychological thriller come family drama, based apparently on a real life case which I shall have to track down, we follow Hannah as she tries to come to terms with the loss of her best friend having already lost her mother to a tragic accident. When Danny disappears, she is thrown into turmoil, as life becomes something very different.

I found this highly intriguing throughout, not least because Hannah herself had great depth of character, her thought processes and actions bringing into sharp focus the emotional turmoil that loss can bring – especially loss where there is no closure, no clue as to what went wrong. Even though we have an insular view of events, told as it is solely by the one person, the rest of the “cast” come alive through her eyes – her father, Danny’s parents and Sister, her friends – and she manages to make you feel her frustration as it becomes clear that secrets are being kept.

As the tale unfolds it is absolutely riveting – one of those stories that is not only thrilling but highly emotional, often upsetting but always compelling and that makes you cling on, desperate for the answers. As in life though, not everything is clear cut and often the truth we seek can hurt – another reason I found this one so fascinating, especially when it came to Danny’s mum, an amazingly complex yet captivating character.

It has a wonderful flow to it, beautifully written to keep you on your toes, totally character driven with a real poignant feel that puts you in the moment, I can certainly recommend this for anyone who loves a twisty tale with heart and soul.

Happy Reading Folks!

I was lured in by all the five star ratings promising huge twists. I guessed everything before it happened - it was obvious at the party that he was waiting for other people to fill in the gaps and as soon as the hair dye

came into the story I just knew. Also, the paternity issue - again, obvious. A reference early on indicated how alike Danny and Hannah looked.

My biggest issue is this; how on earth does a 13 year old boy disappear, on his own, no money or passport, unseen by anyone (after the TV Show has been aired - surely this would have been national?) and ends up in the South of France?! With the best will in the world, what child would actually be capable of this? His reasons for doing so just don't seem strong enough and the entire thing becomes totally unbelievable.

I wanted to love it, I really did, it just couldn't live up to the hype sadly.

Malia says

Halfway through NOW YOU SEE ME, I ordered Emma Haughton's other book, that about tells you how engaging I found this to be.

The story gripped me from the first page and I zipped through this in just a few days, hardly able to put it down. The only reason I'm rating it four stars, is because I have to admit, I had guessed the big reveal about a hundred pages into the book, and was a little disappointed at the ending. But all it all, a truly entertaining, well written and developed story and I cannot wait for my copy of BETTER LEFT BURIED to arrive!
