## Seeking Others Robin Renee Ray

Many things had come to pass long before their journey began, and they knew the time had come to seek for others. The wicked ways of the Bloodbreeders had to be stopped even if it meant they would breathe their last breath in the efforts to make that happen. For centuries many had endured unspeakable acts and heinous torture at the hands of those they were forced to call “Master”.

Renee was not one who could sit by and watch it continue. Not if she could do something to bring this madness down. Abducted not long after she was brought into this world of darkness, she fortunately fared better than most and did not witness years of abuse as the others had, and used that to her advantage. Now Renee had gathered a small group who would follow her into hell itself to see the Bloodbreeder world change and change for the good of all. Even if it meant they had to travel the world killing the wicked to set the innocent free...no matter who may die along the way.

I love the main character, her story is one of hardships, what she goes thru, how she handles everything thrown at her is amazing, and I love her heart most of all, I cant wait to get my hands on the rest of the series, so very enjoyable

This book got my heart racing on more than one occassion. Robin puts so much description in her characters you can see them, feel them, smell them. This one is by far the best of the series. And thats saying a lot since I loved the first 2. Keep them coming! 5 Stars plus for me!
