**Shadow's Embrace** Tielle St. Clare  
Book 5 in the Wolf's Heritage series.

Kalen is happy living her normal, human life. Though she's the daughter of two strong werewolves, she inherited almost none of the wolf's traits. She has a great job, a comfortable house and Brennan, her very sexy, very human fiancé. She has no intention of ever telling him that her family turns furry and howls at the moon.

Then Rebel returns, a childhood friend Kalen hasn't seen in years, stepping out of the shadows of her past. Despite the desire simmering between herself, Rebel and Brennan, Kalen is not about to let Rebel screw up her plans for a normal existence.

But when an injury puts Brennan on the edge of death, there's only one way to save him. Now Kalen must watch her fiancé turn into the very creature she fears, drawing her back into a world she left behind long ago. Her new werewolf's lust and needs and their mutual attraction to Rebel awaken hidden depths in Kalen. Is she strong enough to keep two werewolves?

### Dodie's Review

Tielle St. Claire seamlessly blended a story of a new werewolf with a wonderful menage romance Kalen, Brennan, and Rebel each have their reasons for struggling with their place in the werewolf pack, and in their relationship together. Kalen and Rebel have a strong past with their shared childhood. Kalen and Brennan are engaged to be married as the crowning achievement in her break from the werewolf pack. Brennan has never previously been in a relationship with a man, and Rebel with a female. These are a few of the tensions that they struggle with in forging a new life together.

While this was the fifth book in the series, I never felt like I was missing anything. I'm sure the first four books were wonderful, and after starting with this one, I definitely want to go and read them.

### Shadow's Embrace by Tielle St. Clare

What a wonderful story. Sexy, hot, funny, a little M/M and some M/M/F...It was all that and a bag of chips! This 5th installment in the Wolf's Heritage felt so much more complete than the last couple I read in this series. It didn't feel like the end was rushed either which I liked. I also don't think you have to read the other books first in order to appreciate this one though I did.

Kalen came from a werewolf family but never exhibited any of the traits when she hit puberty. She felt like an outsider in her pack/family so for the last several years she lived her life in the human world and kept her two worlds separate from each other.

Brennan is a district attorney and recently engaged to Kalen. He is all (F.I.N.E) human and doesn't have any clue that Kalen's family are werewolves and that by the way her father is the Alpha of the pack. Kalen...you have some explaining to do!!!

Rebel is the black ~~sheep~~ wolf of the pack and best buds/protector of Kalen when they were kids. He was just recently released from jail after doing 15 years where he needed to keep his wolf under a tight leash.

And then the three collide in one of the hottest stories in this series. Some of the funnies I wanted to share. I so wished I knew how to add a picture to one of these lines since I have the perfect one. If anyone can help I'd appreciate it!

Rebel... *"I'd do you both in heartbeat and come back for seconds."*

Brennen... *"A werewolf."* He said the word like he was learning a foreign language and wanted to get the accent right.

Rebel to Brennan... *"No, but it's your reality now. Put on your big-boy pants and deal with it."* Picture Here!

Brennen... *"A werewolf bite turned me gay?"*

I just wanted to add that every time Rebel's named was yelled out in ecstasy I wanted to sing More! More! More! LOL

I would have liked a bit more action in the end. That part fell a bit flat. Also it focused on the two males relationship a bit more then I would have liked. The three had sex but lacked intimacy as a group.

The books started strong. Good writing, easy reading, the right amount of tension between all the characters. After the life-saving bite, things started going downhill. A balanced amount of concern about the wolf vs human emotions and motivation would have been fine, but the constant, non-stop agonising about this became too much. By the time the three of them got together, there was no love involved, no deep caring, only the wolf vs human motivating the act. The wolf won. That left me cold. It started with such great attraction between them and ended in animalistic rutting. Disappointing.

Score another awesome menage/triad. I love this series and how it evolves and just keeps getting better.
