### **WillowRaven says**

Children's book about a family of cats consisting of the mother and 3 young kittens, owned by a lovely older woman - and the adventure that happens to them. Both the book and the movie were favorites of mine as a child.

---

### **Kittie Rayne says**

A short retelling of the movie version of the story.

---

### **Wesam Karam says**

???? ?????? ??? ??? ?????? ?????? ???  
????? ??????? ??? ?????? ?? ??????  
???? ?? ???? ?? ???????

---

### **Karen says**

This is not a bad book interpretation of the Disney movie. It would be hard to capture all the excitement from the songs, but the book does a good job telling the main story, and the illustrations are delightful.

---

### **Realini says**

AristoCats by Tom McGowan, Tom Rowe and... seven other writers

I loved the AristoCats!

However, it was...thirty years ago...

Cartoons were meant to be for children, when I was a little boy.

Now, it seems this is the level of the American president.

A man who states with pride that he does not read and needs everything on one page, which must include references to...himself.

Otherwise, his goldfish attention span will just make him lose interest.

Alas, as many comedians point out, Trump is not an outlier, maybe not even an accident that can happen even in most advanced democracies.

He is a reflection, maybe the epitome of what happens in society.

So many voters get their “cultural intake” from cinema fare that is based on comic books, many worse than animation movies.

Indeed, one can easily dismiss Transformers, Iron Man one, two to twenty and other such productions as much worse than:

The AristoCats

Bill Maher was pondering this issue in his latest episode of the effervescent, cultural HBO show:

Real Time

Americans often pretend they go to a bookshop to buy something to read, only that is a...calendar with cats Furthermore and equally outrageous, one can find on display coloring books for...adults in a section that should be called...

Seriously?

AristoCats is an aristocratic, noble film in so many ways.

Duchess and her Berlioz, Toulouse and Marie are sophisticated, admirable, ebullient, gracious creatures...

If cats

But then:

“Ev’rybody, Ev’rybody  
Ev’rybody wants to be a cat”

Most people don’t know that...to quote the leader of the free world who keeps saying that, even if the same Bill Maher underlines that:

This proves what a ridiculous fool this leader is, with a propinquity to kindergarten children, stating the obvious that

Everybody knows

Any of the AristoCats is more intelligent than this buffoon.

Thomas O'Malley, the alley cat, is more endearing, better behaved, more respectful, moral and ethical than the always-lying Donald.

Why would a viewer make this forced connection between the Duchesse, Berlizoz, Toulouse, Marie, O'Malley and The Donald?

First- this CEO of America seems to be the crude, simple adult that watches cartoons and comic book based motion pictures.

Second- The AristoCats, as aforementioned are actually beyond the comprehension-now there's a word this orange jerk probably does not understand- of a man that grabs women by their genitals and/or brags about that.

Third and to conclude: it seems to this viewer that AristoCats is in part about a thousand fold more clever, superior, charming, effervescent, triumphant, clever, way more modest, feline version of Donald, who thinks of himself as:

“I'm king of the highway  
Prince of the boulevard  
Duke of the Avant-garde  
The world is my backyard  
So if you're goin' my way  
That's the road you wanna seek  
Calcutta to Rome or home sweet home  
In Paris, Magnifique, you all...”

---

### **Stephanie - Adventures Thru Wonderland says**

A great children's book

---

### **Taylor Laird says**

The Aristocats has always been a favorite of mine, ever since I was little girl. The book goes right along with the popular film. The images look as if they are scenes taken out of the movie itself. The book is an easy read, for all ages. The Disney Golden Books are classics, and I highly recommend reading any, or all of the books in the collection. The Aristocats is all time favorite of mine and I'm sure it could be a favorite of anybody else who takes the time to read the short story. It is about a family of cats; a mother and her three kittens who live with an elderly woman who spoils them beyond need, and her butler despises having to cater to the cats. The butler ends up taking the cats away and dropping them off far away from home, where they come across an alley cat named Tom. Tom helps the small family back to their house of the old woman, but of course there has to be adventures along the way!

---

**Andre Piucci says**

Esta era uma das que eu não conhecia, que era o "Lado B do livro" de uma história principal.

---

**Mikana says**

This was my favourite movie growing up, and the book is just as beautifully illustrated.

---

**Bayan says**

It was a fun read simply because I read it with my little sister. I didn't pay much attention to the structure or ideas. The review is solely subjective :)

---

**Emma B says**

Beautiful children's book!

---

**Rosa Cline says**

The version we have is from the Storybook Collection and it's a really nice version. Stays true to the cartoon but doesn't have a lot of 'could be scary' parts in it for the younger children that you read to. But it doesn't take out any of the good parts of the book.

---

**Kenneth Flores says**

Another great Disney classic.

---

**Lauren says**

This was a great book when I was little. I loved everything to do about cats and the adventure was so fun

---

**Tara Calaby says**

I don't remember a lot about the book, but I went through a phase where I was obsessed with this movie, so I'm sure I was obsessed with this book as well for a while.

**Dee says**

I remember loving the characters in this tale as a child. Interesting story that at the time was fairly unique.

**Natsu says**

[ snobbish and pampered kittens and their mum who learned from living]
