While a lot of this was dry and overly religious, the last three chapters had some real, valuable information in them. I should take a break from reading all these self-help books...

In the twelve universal laws of success, covers a wealth of insight, knowledge, and wisdom on how to build success within oneself before they can build financial wealth. I enjoy reading the section on self-image and all the laws in this book. I cannot stop. We read books by authors like Donald Trump, Poor Dad, Rich Dad author, and many others but we need to also read this book too. This book has been underrated and deserves exposure like these authors I mentioned! Must-read and buy. I need to get my copy, hopefully autographed if I go to the site.
