Nicholas Bella

Theoden (New Haven #0) Nicholas Bella

My name is Theoden, this is the story of my life. Apparently, there has been a huge demand for me to tell it. Normally, I do what I want, unless the command comes from my Sire, Ara. But, revealing the tale about how I became the powerful vampire Prince of the City is something I think I will enjoy telling. You'll see my first mission for the church, my first kill, the life-changing moment when I lost my virginity, and how I chose my first son, all of the things that mean something to me, that made me the vampire I am. So, sit back, and give me all of your attention, as I want your eyes on me. Now, let's begin.

Prepare to be entertained to new heights as Theoden delivers you a unique tale of his life from childhood to the vampire Master you know him to be.

Warning: This is a prequel to the highly erotic, extremely dark and twisted New Haven Series and the spin-off, Odin Chronicles. I can't stress enough how strong the sexual, violent, and adult content is in this book. It will steam up your glasses, and melt your contact lenses. The temperature in the room will rise to unbearable degrees. Pearls will be clutched and you may utter the words: "Oh my God" several times while reading. You have been warned. For mature readers only.

Kathy Morris says

Indescribable

Grab your tissues. The very first page of this book made me want to cry. So heartbreaking. I just wanted to hold him and give him what he wanted. He was only five years old.

Follow Théoden through his journeys and adventures. Learn about his Sire, King Ara. I have learned so much about him. He is a magnificent man, ok, Vampire. You will learn how Ara picked his sons and the relationships of Théoden and his brothers. Learn how Théoden found his sons. There's a little history on each one. Some are kind of funny.

There is plenty of action too. You'll laugh, cry and be in awe while reading this book. It kept me on the edge of my seat and sucked me in.

Théoden's story is outstanding and will blow your mind. This story is epic.

If you hated Théoden before, you'll love him now. If you loved him before. You'll love and respect him even more. If you are following New Haven and Odin Chronicles, then you HAVE to read "Théoden." You will get a much better understanding of who he is and why he has done the things he's done.

Nicholas Bella, you are a genius. You've done it again. Amazingly brilliant.

Elsbeth says

4,5 stars

Loved reading about Théoden's history. His relationship with Ara and Tyrendel is clear now. I enjoyed reading about his *embracing* his sons.

I did feel the ending to be a bit rushed though!

I have already so little time but otherwise I'll be reading the New Haven Series. It was that good!

“My god!” he panted. “I live!”

“And now you shit,”

~~ Marco's remark after he was turned... LOL

caroline wilson says

I just want more

I was seriously looking forward to reading this gem and although through circumstances in life I'm a little late to the party on reading this it was well worth the wait.

Theoden Sura the death merchant, Prince of the city, devoted son of king Ara and Father and grandfather to all his children. This is the Theoden we know of since I started reading the new haven series where I was thrust into the land of sinfully deadly vampires, dragons and werewolves and where only the fittest and cleverest survive. Theoden in these books is the epitome of cruel and hell is paved with good intentions sort of attitude where he rules absolute over his brood and for the advancement of his king and sire Ara. We knew one facet of his personality from these books but here in his own book we get to explore how Theodosius, ward of the Catholic church grows from a harsh upbringing with little love, to warrior, to beloved son of Ara who he was tasked with killing and to be initiated to his birth right and become the Theoden we know. I could really emphasized with young Theoden at the beginning of the book when he's isolated and not allowed to play with the others it was quite heart breaking to read. I liked as the book went on we found out more about his relationship with Ara and of course the rascal that is Tylandel. I loved seeing Theodens journey from warrior for the church to having the love and family he finally found even if it is slightly unconventional. This book journeys through Theodens life from childhood to coming into the fold of vampires, finding his son's till we reach where it all began with Noels book. I battled eye strain and a headache to get through this book I was so engrossed into this story that I just didn't want to put it down. The author has a way of really sucking you into the story and obviously mixes good storytelling with the added steaminess this author is known for for a well blended balance. I liked the little aspects of history that was subtly integrated into this book and humour though of the slightly gutter side which made me chuckle. He was gasping, his mouth covered in blood, but he was licking his lips now. "My god!" he panted. "I live!" "And now you sh##," Titus said, then ordered the carriage driver to stop.

There were two minor things that I would of liked to have found out but then again I have been told many times before that I want to know the ins and outs of a ducks a##?

Who was the mole at the church? And where did the dragon venom come from that was used to tip the enemy vampires arrows when it's notoriously hard to come by, I did have suspicions that it might of been a previous character that Theoden had upset but no more was said on it.

But all said and done I loved this book and the past history of what brought a mistreated ward of the church to the confident master we know as Theoden in the present day. I would highly recommend people read this book but starting with the new haven series first.

Cadiva says

Brilliant exploration of what makes the greatest vampire tick and how he was turned by Ara centuries ago.

Theoden is Nicholas Bella at his kinky best, full of gorgeous erotic exploration of the power of sexual desire and the violence which comes from being all powerful in a world which doesn't know the dangers living within it.

I loved how from the very start there was something different about the young Italian child who was being harshly brought up in a priory and subjected to an austere and joyless life while others around him are of the forbidden fruit.

His warrior talents were fully expressed once he was turned and the rebellious journey he had to go through before he became accepting of his fate mirrors a similar one his child Noel goes through in the later books in the New Haven series - starting with Chained in Darkness again.

Reading this gives an insight into why Theoden is as ruthless and powerful as he is and gave me a hankering to read all the other books again!

Das war Spaß!

DW says

That was dirty!! ?

Katerina says

Wild and untamed.

The perfect way to get to know Nicholas Bella. And who likes it, the whole New Haven series awaits you.

The plot is really exciting and the sex absolutely supernatural.

Enjoy!

The educational methods in this book deserve special mention. Great. Count me in.

“When a child displeases a parent, harsh actions must be taken in order to correct that child’s behavior. You went to bed with such promise, but you are a disappointment as of now. You have decided to reject the gift I have given you, therefore, I will allow you to experience what such rejection has to offer. You will not feed until I say so, and that will only happen once you surrender completely to me.”

“Spare the rod... spoil the child. Your bible speaks of such things and of that, we agree,”

Ara was pleased and satisfied with the way I handled my first unruly child. “Never let them rule you,” Ara said as he patted me on the back while looking over Michael.

In this sense... Never let them rule you ;)

Erica says

There are only a couple of authors I go to when I want something smutty. I have to be in the right mood for a Nicholas Bella book since I usually like more romance in my romance books, so I'm glad I waited to read

this one when I was ready for it.

Mimi says

4.5 stars

Great prequel to "A Haven Series." Knowing Theoden's story more in depth makes everything I previous read fall right into place. The way he picked his sons, how merciless he became over the centuries and how his relationship with Tyrendel developed over time.

Great story, highly recommend for those who have read all the others in this incredible series.

***J* Too Many Books Too Little Time says**

4.25 Stars!

I'm surprised I liked this one was much as I did, considering the lack of romance. Plus I don't read a ton of paranormal....and we got the whole gamut here - vampires, werewolves and dragons!

But I found this one quite entertaining and it was certainly hot. And dirty. And kinky.

I haven't read any of the other serials, and I didn't feel lost. I may even go back and try some of those at some point as well.

Overall, I'm glad I gave this one a go.

Whoops.

Did not realize there's menage in this book.

My bad lol.

JenMcJ says

This started out really interesting but got really, really rushed at the end and all the dirty sex these are known for was very much not to be found in this book.

Tina says

Loved Theoden's story! Loved it so hard... I would have given it 10 stars!!!!

Jan says

DNF @68%

What I am going to say now, I already heard from a few GR friends in the past.

And every damn time, I was like

There is no such thing! ***gasps***

Well, this is my moment.

This is that moment I never saw coming but here I go, ... wait!

takes a deep breath

I can't believe I am saying this

whispering but there is too much sex.

There, I said it.

I know I should cut 'em some slack after all they were not humans, but ... I really don't feel like doing this. They didn't get attached to each other. There was no romance. They were constantly horny, and anyone would have done the job.

Don't take me wrong I am all for the smex but it needs to come with something to diminish and soften the constant fuckfest they lived on. I stopped at 68% and I am aware that I might be missing out on what is coming, but so far, I see no light at the end of this tunnel.

I don't think this is going to change considering these creatures are like hundred and thousands of years old and have always lived like that, in promiscuity. It's very unlikely that the author would pair them up with a soul mate at any point. Right? Wrong?

Therefore, throwing in the towel.
