### **Laurel says**

I almost can't list my favourite books from when I was little, but this collection of three stories would be among them. I've always loved A Little Princess the best, but the other two are not far behind.

I said it before in my Secret Garden review, but they are all three of them charming and pretty, and have (if you care about that sort of thing) a good moral embedded in them.

Yes. I know these are Children's books. Yes. I know I am nearly 62 years old! And YES! I thoroughly enjoyed these books! I had never read any of them before but had seen the movies of the Little Princess and The Secret Garden. Actually when I was reading the Little Princess, I could almost hear Shirley Temple saying some of the lines! The ending of the Little Princess was not at all like the ending to the movie. No surprise there! Both books were, of course, better than the movies. I have heard of Little Lord Fauntleroy all my life, but was totally unfamiliar with the story. It is the story of a little boy, Cedric, who was to inherit his grandfather's fortune in England. But he had to leave New York and live in the castle with his grandfather. However, his mother was not invited! She was invited to live in a house nearby and could be visited by her son so they weren't totally separated. I loved the story. It was charmingly told and I highly recommend any of these books by Frances Hodgson Burnett. She is a captivating storyteller. These three books are available on Amazon in one free download. Makes them even better!

### **Sarah Livingston says**

This book was written by Frances Hodgson Burnett. The purpose for him to write this is for little kids to want to seek adventure, and have fun outdoors. The lesson i learned by reading this book is to go outside, have fun and meet new friends.

The styles of the book are monologue and dialogue. The author put in a lot of descriptions and a lot of talking to one another. There is also a lot of narration in this book where the narrator tells you exactly what is happening. Then the dialogue comes in with the people talking.

The book is about this little girl who was always sick. She was also the little girl that was a myth, nobody knew she existed. If they did know about her they had to lie and say she didn't exist. HER parents and the rest of the villagers died so she was sent to her uncle's house there she was sent outside everyday and hunted for the secret garden. At the end of the book she found the garden and made it look nice again. She had spent everyday outside which made it so she wasn't always sick anymore. After she found the garden she spent everyday in it with her cousin. She got really close to her uncle too.

Cerita tentang Mary, anak dari India yang ditinggal mati orangtuanya. Mukanya murung dan anaknya jelek. Ia dibawa ke London, ke rumah pamannya yang sudah ditinggal mati istrinya. Pamannya bungkuk, istrinya meninggal karena jatuh dari dahan pohon di taman kesukaannya, sejak saat itu taman itu dikunci dan kuncinya dikubur. Sudah 10 tahun berlalu.

Mary yang tinggal berkecukupan di sana, tapi kesepian, berjalan2 di sekeliling taman. Sampai berkenalan dengan tukang kebun bernama Ben, dan burung berdada merah robin. Burung robin menunjukkan kunci taman itu. Dan sejak saat itu, taman yang 10 tahun terkunci dan hampir mati, dihidupkan kembali oleh Mary.

Mary yang galak dan kasar berubah jadi menyenangkan dan makin gemuk karena nafsu makannya bertambah seiring kelelahannya berkebun. Ia juga berteman dengan Dickon, seorang anak laki-laki yang amat mengerti dunia hewan.

Sementara itu beberapa malam Mary mendengar suara jeritan dan tangisan. Akhirnya di kali ketiga, ia menyambangi asal suara. Dan ternyata dia adalah sepupunya, Colin! Anak dari pamannya, Craven, pemilik rumah tua itu. Colin sakit, tepatnya merasa dirinya sakit dan akan mati. Dia takut seperti ayahnya, bungkuk. Dan ayahnya juga tidak akrab dengannya, karena matanya begitu mirip ibunya. Ia seumur hidup berada di kamar. Kadang mengamuk, dan kemauannya harus dituruti.

Colin yang keras, bertemu dengan Mary yang sama-sama keras, malah menjadi teman baik. Mereka sering mengobrol. Mary sering bercerita tentang taman, Dickon, dan menyanyikan lagu india. Akhirnya Colin menjad bersemangat, ia ikut ke taman rahasia, dan berkata ia ingin hidup selamanya. Dari yang tadinya tidak bisa berjalan karena tidak pernah berjalan, Colin bisa melakukannya. Ia ingin menunjukkan bahwa sebenarnya ia sehat anak laki-laki lainnya. Ia tidak akan mati!

Dan benar saja... ia sebenarnya sehat. Berada di udara padang moor setiap hari, membuatnya makin kuat. Dan ayahnya, begitu bahagia... sementara taman yang selama ini tertutup, sudah berubah cantik karena tangan2 Mary, Colin, dan Dickon.

All delightful and moving. A Little Princess will always be my favorite that Burnett has written. I read this last year with my girls and by the time we were finished it had captured the whole family. We all were brought to tears and one point..(including Kameron). :) Sarah Crewe became a hero in our home and someone to discuss emulating.

**Julia says**

I read Little Lord Fauntleory, and it was perfect! It captures the beauty of childhood and the innocence of children. I loved the wording, the character, and how it inspired me to become a better mother.

My sister just finished reading Secret Garden to her 5-year-old today. They read for 3 hours straight! They loved it, and I look forward to reading all of these books aloud to my children.

bahwa dalam hidup jangan sampai menyerah, jangan berputus asa. Roda kehidupan berputar wajar, maka tak perlu menghiasi hidup dengan kesombongan. Suka buku-bukunya Mr. Burnett yg luar biasa.

**Sidney Weber says****Modern fairy tales**

Having already read Fauntleroy, this comment applies only to The Hidden Garden and The Little Princess. These stories are essentially modern fairy tales: short and sweet and pleasant to read, but artificial characters and scenes.

### **Yvonne says**

I loved The Little Princess and The Secret Garden when I was a young girl. I never read Little Lord Fauntleroy until I was an adult, but I enjoyed that book as well.

I liked reading about Sarah Crewe's remarkably mature attitude as she went from riches to rags and back again. She never mistreated others when she was rich, but she also didn't have as much of an opportunity to show true compassion for others until her riches were taken away. Then you see her true grit and watch as her character develops into a remarkably mature young woman who gives her 'last mite' to the poorest of poor to help alleviate their suffering.

I loved The Secret Garden - especially witnessing Mary's transformation from a spoiled brat into a young girl who learns to care for others. And just like Heidi, I love seeing how playing outside in the fresh air and eating real food can make a sickly child healthy.
