Tiger Laurann Dohner

Book 7 in the New Species series. Zandy's had too much to drink and is in the wrong place at the wrong time. She knows she's going to die. When next her eyes open, a beautiful man-creature is holding her in his arms. He's just too tempting to resist; her very own fallen angel. She wraps herself around his body, determined to have him. But when this angel turns out to be flesh and blood, reality crashes in-she's seducing a New Species. Tiger's shock quickly turns to intense passion when the human female kisses him, despite the fact she's trying to get his clothes off while he's engaged in a task force operation. He's also made it clear he'll never take a mate. Rather difficult when he and Zandy can't keep their hands off each other. The taste and feel of his little human just leaves Tiger wanting more. Publisher's Note: While each New Species book is a standalone, the greatest enjoyment will come from reading them in series order.

Absolutely fantastic!

To be honest, I didn't expect much from this book considering the previous installments in this series were really hit and miss for me, but it was actually a real surprise. I didn't expect that it would give me so much pleasure and that I would end up loving it, but I just simply did. I loved it. I loved almost everything about this book!

Despite the fact that the books in this series have all been formulaic to such an extent, and this one contains some of the same elements as the others, I really did enjoy it and speedily turned the pages, anticipating what would happen next.

Normally, when I read the previous books in this series, I had to skim over boring filler and I always felt like the stories were overly long. But I can't believe there was never a dull moment in this one! It was beyond enjoyable!

The story started off very well. Tiger saved Zandy's life when she was at the bar. She was drunk and thought she was going to die. When she opened her eyes and saw Tiger, she thought he was an angel. She kissed him and they almost had sex on the hood of the Jeep, but then the ambulance arrived. Both of them never thought that their paths would cross again. Later, Zandy was fired because she refused to sleep with her boss, but she got a new job at the NSO where they bumped into each other again. The sparks between them reignited immediately and they couldn't resist the attraction toward each other.

After two divorces, Zandy didn't believe in marriage no more, while Tiger never wanted a mate, especially female human mate, so they agreed to continue seeing each other for sex only. However, as they spent more and more time together, their feelings grew stronger, deeper, and more intense. Finally, Tiger stopped fighting his desires to claim her as his, but first thing first, he had to prove to her that he was a trustworthy mate.

"You're mine, Zandy. You have been since the moment you woke up on the hood of that Jeep and kissed me. I just didn't want to admit it at first but you're my mate and I'm yours."

I loved both Tiger and Zandy. Tiger is amazing and Zandy is kick-ass. I admired her stoicism and her bravery. (view spoiler)

I couldn't help but smile from ear to ear as I read the epilogue. It was wonderful! Without a doubt, this is the best installment in New Species series so far.

Couldn't be happier! Loved it!

Jilly says

Well, we are back to a lot of angst, but it was still really good. There is a ton of humor in these books because of the bluntness of the New Species. They just say exactly what they mean, in a literal way, that is sometimes shocking, but always funny.

In this book we have Zandy and Tiger. Tiger has always been a great character throughout the series. He has been level-headed and humorous, but definitely against being with human women. He makes fun of those who fall for them.... until it happens to him.

What is wrong with me? He wasn't sure but the desire to tend her was strong. A Species female would have hit him by now and never allowed him to coddle her in any way. Zandy stepped closer...

The fact that she was submissive to him without him having to display aggression during sex left him reeling.

No, she's not anything like a Species. This is how it starts, he realized. Those poor males who ended up with human mates had to have felt what he did. Protective. Possessive.

Yeah, it turns out that the New Species females will wrestle the males before submitting to sex. That sounds like fun - not! If I had to wrestle my hubs every time he wanted sex, he wouldn't be getting sex. I don't even go to the gym. I hate having to walk up stairs. I park in parking spots as close to the stores as I can get. There ain't no way I'm wrestling my giant husband at night.

So, Zandy (and, let's not get into why she's named Zandy. Someone was running out of name ideas, me thinks.) starts working at the New Species compound and her job is to work with another human answering mail. The New Species get giant bags of hate mail each day. Much like Donald Trump. Except, his is deserved. (That reminds me, I need to write a letter...)

Tiger wants Zandy, but doesn't. Zandy has been married and divorced twice, so she's not exactly in a rush for lucky number three. So, in comes the angst.

And, guess who else shows up in this book? Our New Species guy from the last one, Vengeance von Rapist. Yeah, the one who tried to rape whatever-her-name-was in the last book shows up to do a smash-and-grab on

Zandy.

So, Tiger goes out to his house to kick his ass, and damn it if they didn't somehow make me feel sorry for Mr. Von Rapist! He's just an idiot who wants a mate so badly that he thinks if he catches one, he can convince her to love him. How wrong can you be, Mr. Von Rapist? Women in books **never** fall in love with their kidnappers!

"I'm so lonely and I would be an excellent mate."

Tiger stalked closer.. "You can't just carry one off. It would be cool if it was that easy but it's not."

"I'm skilled at sharing sex and I have learned how to cook. I'm an excellent fighter. I would keep her warm in my arms and die to protect her."

Awww, let's give him something!

So, now I'm hoping Mr. Von Rapist will get a mate. I hate things to be lonely. I can't even stand for my salt and pepper shakers to be separated for very long. They belong together, people!

Huh, I think I need this... I'm off to shop now. See you guys later. :)

Spoilers

“Drained,” he rasped. “You take it all from me. I feel almost turned inside out.”

Tiger is the 7th book in the New Species Series. Tiger doesn't want a mate ever.... He makes fun of all the males that have taken mates, saying they are nothing but trouble especially human mates. He has been very outspoken on the matter! Tiger is the head of security for the NSO, he and his men are called to break up a brawl at a local bar. When they arrive he sees this little redhead knocked into the fight and disappear under a pile of fighting drunk men. By the time he gets to her she isn't breathing , he starts CPR, saving her. Zandy tempts him like no other, and even though he has no plans on taking a mate , one taste won't hurt, Right?

“Fuck me,” she pleaded. “You’re huge and I want you inside me so bad I hurt. Get these clothes off us.”

OMG I loved this book, Tiger is now my second favorite in this series. This has to be one of the steamier ones of the series. The way Tiger and Zandy went at each other on the hood of the car dry humping like a couple of horny teens * fans self* so damn hott!!!!!! These two had so much chemistry they was setting my kindle on fire!

“Fuck me,” she demanded. He stopped kissing her neck and growled. “Easy.” “Fuck that. Take me.”

Tiger:

Damn I love, love , love Tiger!!! Sexy as hell, and so damn romantic. He was strong , protective, and a total hunky dominant beast! He fought his feelings for Zandy, scared that she would be his weakness or that he would lose her. But he just can't help falling hard for Zandy. Tiger made me melt so many times in this book. Towards the end he ticked me off a little the way he was hiding his feelings for her and not telling her that she was his mate, but Tiger is my Second favorite Hero in the series! I so want him!!!

“You are so beautiful right now. Your lips are swollen from my kisses and your eyes are such a pretty shade of green. They remind me of a beautiful meadow when I look into them.”

“You already are, damn it.” He growled as anger flashed in his eyes. “You’re mine, Zandy. You have been since the moment you woke up on the hood of that Jeep and kissed me. I just didn’t want to admit it at first but you’re my mate and I’m yours.”

“I love what I feel inside you when I do this, Zandy. You grip and squeeze me the more excited you become and you’re so hot and wet. We’re in water and you’re the one soaking me.”

Zandy:

Zandy is my favorite heroine of the whole series. I 100% loved everything about her. She is one fiery redhead... She was sassy, sarcastic, and hilarious as hell. She was outspoken and bold. She told Tiger what she thought and what she wanted and never held back, and I loved that!

“I’ll try to slow down.” “You don’t have to.” She decided to be blunt. “I ache for you.”

"You purr, Tiger. You growl. You’ve got those amazingly beautiful eyes that I love to stare into. You’ve got the sharp teeth. Trust me, I get it. I’m still here naked with you. I’m not afraid. You won’t

hurt me. I trust you so stop holding back.”

“You’re my life too. You make me so happy, Tiger. You really are my angel.” He grinned. “An angel, huh?” He lifted her and impaled her on his cock. “Does that feel angelic?” She moaned his name. “Actually, I still think of you as my angel. You take me to heaven all the time.” Tiger thrust up into her. “We’ll go there together.”

“All you had to do was ask, Tiger. I would love to be your mate.” She saw his shock. “Really?” She nodded. “Yes. I love you too. I don’t need to own a super nose to feel addicted to you. My heart already is.”

I loved Bestial and I want and need for him to get a book of his own so bad! Vengeance is so messed up, and I am hoping he will get a HEA too somewhere down the line, because my heart just breaks for him. I was glad that in this book the bad guys are crazy hate groups and not ex Mercile employees. I loved this book it was a damn good and smokin hott read. I am on to the next book. I normally leave my favorite moment below, but this time it's not my favorite moment but more like My Favorite Zandy comebacks, the way she ripped into the bad guys when she was kidnapped.

Deanie gasped. “Shame on you for even saying that. We’re—” The woman glanced down and gasped a second time. “Sinner! I see that whore’s underwear instead of what should be decent covering for your private area. Tsk, tsk! No wonder you were lured to the dark side.” Zandy blinked a few times. “They had really good cookies and they approved of thong underwear. What can I say? I didn’t stand a chance.”

“You bastard,” Zandy hissed. “Do you know why I think you’re so mean? I bet you have a tiny little dick and have to behave like a huge one, trying to compensate.” The man gritted his teeth and rage turned his face splotchy red. His lips opened but no words came out. “That’s what I thought, tiny dick. Or should I just start calling you prick?” “You bitch!” he yelled. “Dickless,” she taunted. “Enough!” Deanie snapped. “She’s baiting you, Brother Adam.” “Baiting him?” Zandy snorted. “He’s too small. I’d have to toss him back if I caught him.”

Pre-Review

Teaming up with my two lovelies, Jess and Alp and picking up this series again.

Reunion BR starts on 26th Nov.

Post Review

Well.

I waited to get to Tiger's book and here I am, finished and looking at what I've read.

The question now is --- did I like it?

No.

I'm not impressed with the story.

I'm NOT.

Yes, Tiger, I know. And going by what I read, it's an impressive equipment you have - one that you (know how to) use too well.

I keep coming back to this series, no matter how many times I tell myself, "That's it. That's it for me!" I get reeled back in to read more of Ms Dohner's New Species series.

Having said that, I had a tough time liking this book. I just couldn't understand why the author couldn't pull off a new story line.

Tiger - Our sexy hero is the head of security for the New Species Organization. He has sworn to never take a mate esp a human female. He wasn't into commitment and was pretty vocal about it. Until he met Zandy. As expected, that changed.

Zandy - our ALWAYS in heat / ovulating heroine

But, YOU ARE.

Anyhoo, she was out having a few drinks by herself when a bar fight happened. She was the only casualty and Tiger rescued her.

Zandy must've hit her head really bad coz she thanked her rescuer by some serious snogging. She even thought that she was making out with an angel.

How fkn dumb is that? Making out with an angel? Really?

They met again as Zandy needed a job and she was hired to be an employee at NSO compound.

Both not looking for a relationship but couldn't keep their hands off each other either.

They bumped pelvises one too many times and never communicated. Whilst the sexy scenes were too hot and steamy, it's just too much...and it didn't do anything for me.

YES. DEAD. SERIOUS. HERE.

There was one point where Tiger wanted to impregnate Zandy to, apparently, **does air quotes** show how serious he was with her.

I've mentioned about the storyline on the first part of this review.

This is the 7th book of the series and the plots are just similar from the previous ones.

New Species heroes and human females meet, have unprotected sex in a small amount of time they got acquainted, females fall in love, NS get massively possessive, something bad happen to females, NS rescue and then they live happily ever after.

The main concept of the story is very interesting though. However, the author is just giving me the very same thing every time I grab the next installment which is very frustrating.

Very disappointed as I have looked forward to Tiger's story.

Having said that though, I want Smiley's book shoved in my eyeballz.

Rating this *2 dunno-whether-or-not-I'll-give-up-this-series* **Stars**

Yes. Hence the 2 star ratings, Tiger.

Dinjolina says

Somebody once told me to start reading the 'New Species' series if I liked any of the Lora Leigh 'Breed' books....

Thus, I started reading the New species ebooks, and promptly decided to throw away all the Breed books. :) The premises is the same, but the way Laurann Dohner builds up her world? Well it rocks MY world. I am completely in love with all of her books-still, 'Tiger' is now firmly on **favorites** shelf.

Why?

Well, we have met the anti-species protestors and terrorist in the previous books. Drama, terror and prejudice, just the way I like it! Everything was peachy!

But there was this one part that blew me away...

I got so involved I could almost taste the fear when my heroine was captured by the protestors...there I was, biting my nails...and then this happened...

The bench was eased to the ground and the two large men unfastened her restraints. She'd been flat for so long that she felt a little dizzy

when she sat up. The older woman approached, looking fearful.

"Now, don't you spin your head at me or anything."

Zandy's smart mouth kicked in. "I think you watched way too many horror movies. I'm not possessed."

The woman frowned. "Do you need to go pee-pee?"

Pee-pee? Really? Just bitchin'. I've been kidnapped by idiots who use a two-year-old's vocabulary. "Yes."

They didn't remove the handcuffs which held her wrists locked in front of her. The woman gripped them in the middle and led Zandy over

to one of the campers, tugging on the chain as if she were leading a dog.

"Don't try anything evil," Deanie warned. "I'm watching you."

Zandy's gaze swept the interior, looking for a weapon but the place was pretty bare. Dishes had all been put away and the woman refused

to release the chain on the restraints. The bathroom was a tiny one.

"Go ahead. You hurry up." Her voice lowered. "Stop giving my son grief, young lady. You're trying to make him look bad in front of his

followers. Do you know how hard it was for him to gather so many of them?"

It was a struggle to get her pants undone and use the bathroom with her hands locked together. "No. Not really. I haven't read much about cults."

Deanie gasped. "Shame on you for even saying that. We're—" The woman glanced down and gasped a second time. "Sinner! I see that

whore's underwear instead of what should be decent covering for your private area. Tsk, tsk! No wonder you were lured to the dark side."

Zandy blinked a few times. "They had really good cookies and they approved of thong underwear. What can I say? I didn't stand a chance."

Her sarcasm was totally lost on her captor as Deanie frowned. "What does that mean? What kind of cookies?"

"Oh geez. You people are seriously screwed up. No wonder your kid is so messed up."

"You're an evil sinner with a potty mouth. Shame on you." She turned around and jerked open a drawer built into the wall. She turned,

holding out bright blue shorts. "Remove that whore garment and put this on."

"Are those swimming trunks?"

"Yes."

"No."

"You will. You can't cleanse your soul when you're wearing that bright-red sin tempter. We're trying to save you, not send you to hell."

"I'm already there, lady."

Deanie's face reddened. "Change or I'll have the men come in here to do it for you. These are clean and pure."

The thought of Adam or those other creeps taking her pants off made Zandy decide to comply. The men's swimming trunks were a bit

big but it seemed to have soothed the upset woman when she almost smiled.

"Much better."

The irony wasn't lost on her. They were going to burn her to death wearing swimming trunks.

....I laughed my head off. And this is what makes a good author...great suspense, AND humor. Mrs. Dohner made the perfect blend. She should sell the recipe to other writer out there-she would make a fortune! Add in the steamy sex, wonderful romance, and good character development and you have an all around winner!

This one was filled with alot of suspense. I really enjoyed how this story was fleshed out and how it all came together. There are some very loving & touching moments in this one as well as a few LOL moments. You will love Zandy's co-worker Richard, dude is hilarious.

This is quite a good series but i'm kinda getting bored with how they are all the same stories just with different H/h names. If it wasn't for the background story of New Species fighting for the right of survival, freedom and the ability to govern themselves I would seriously be thinking of quitting the series!

Denisa says

I loved this guy!

Well, I liked this book a lot more than I thought I would.

Tiger was great, and the fact that he (like the other New Species guys) take things so literal makes it a fun book.

I liked the heroin too, she was a badass in her own way. She got beaten up a few times and (almost) burned but she didn't complain as much as a lot of female characters do in most books. Mostly she just wanted Tiger.

The plot was typical for this series, it's what you would expect, and the sex scenes, as usual, were great. It's a really fun read!

Dino-Jess ★ The Book Eating Dinosaur ★ says

All aboard the mind-crack train! It's back on the rails and I love this book even with all of the stupid shit that happens along the way.

I don't know why, but I don't think Laurann Dohner ever actually learnt how to structure a story properly. I'm yet to read a NS book that actually flows. They always go wildly from sex to drama, to unplanned pregnancy/kidnapping/other miscellaneous and unnecessary dramatics, to happy ending. But I'm letting it slide because this one gave me butterflies!

While this was enjoyable and I looked forward to being able to read it, it did have issues that I couldn't look past, for example:

I'm totally not down with Tiger trying to impregnate Zandy without her knowledge or consent. Like, dude. Come on. *HOWEVER* I did get an amazing Alexa Riley vibe from the whole (view spoiler) thing that happened at the end there.

For the head of security, Tiger sure isn't very careful about the security of Zandy. The number of times she gets into trouble in this is ridiculous.

And how many times do I need to say this, guys? **Communication** is what is needed for a successful relationship. If you two had have been up front about your feelings from the beginning, you could have saved yourself a lot of trouble.

The best bit about this book, was Zandy. **HOORAY for a female who won't take any shit from the leading man.** When Tiger rips into her after she is attacked, she tells him to get his head out of his ass and that she will not be blamed for being a victim. Then she locks him out of her apartment for being such a dick! A+++++++ Zandy. Love you! You go girlfriend!

So. Even though I had problems with this, the sex was off the charts, Tiger was a babe (when he wasn't being an idiot) and Zandy was amazing.

I want Smiley's book ASAP but I understand that I have to get through a bunch of other ones first, but I'm no longer dreading the rest of this series like I was a few books ago.

Bring on the next book!

4.5 "Animal Magnetism" Stars!

When it comes to this series I have long accepted that I am wholly addicted to the super sexy new species males who have no qualms about showing their animalistic natures. I gobble up each book and have no issues with the fact that these books are nothing but an erotic good time. Therefore, I....

Don't judge, kay! ;)

Tiger is the seventh book in Laurann Dohner's New Species series. Ever since Tiger came into the picture in this series I have been waiting for his book. I wanted to see this "cool as a cucumber" feline lose his cool over a female, something he has been adamant he would never do. Ms. Dohner sure delivered and watching Tiger wrestle with his desire to keep a female at his side for always was definitely a fun ride.

"Double shit. She'd molested the damn head of security of the NSO at Reservation. Just bitchin'."

“Zandy Gordon didn’t fit into his life but she fit perfectly into his arms.”

Tiger meets Zandy Gordon one evening when his team is called in by the local law enforcement to help them deal with a bar brawl. There in the midst of all the chaos he saves a beautiful redhead who leaves him stirring in more ways than one. Zandy is a thirty-one year old woman with two failed marriages behind her. She has relocated from Los Angeles to northern California when she landed a better paying job. Her dream of starting fresh quickly turns into a nightmare when her new boss turns out to be a sadistic freak who is constantly putting the moves on her. Matters go from bad to worse when Zandy finds herself in the middle of a huge bar fight. She is rescued by a beautiful “angel” who she decides to put the moves on before she comes to her senses. It takes her a while to realize that she was molesting the head of security of the New Species Organization! When Zandy loses her job she finds one working in the mail room for the New Species. The only problem with this is that she will be coming into regular contact with the sexy male who saw her at her worse. Tiger and Zandy definitely feel an undeniable pull towards one another; however, both are adamant that they are not looking for anything permanent. Their passionate encounters only leave them wanting more. Zandy is bringing out Tiger’s animal instincts and he is quickly losing his cool. Can they both renege on their determination to stay single and give in to their feelings?

Once again, Laurann Dohner has penned a fun sand sexy tale which is a great addition to this series. *Tiger* is going down as one of my favorites in the series so far. Now onto the next....

Yes that was good!!! Tiger was the Alpha male with issues type!!!

I had such a good time reading this..

Hi was hot.. HOT, HOT, HOT!!!!

Smart, powerfull, sexy, demanding, possesive, romantic..

A little crazy but good crazy only..

Zandy was cute, i liked her..

But Tiger all purring and growling!!!!

Had me from the first moment.. I liked him from the other books and it was so funny that he got exactly what he deserved.. he always teased every other male who had mated with a human and he did the same..

And again!! Growling sexily while aroused was perfect..

The story took a different turn which i liked.. It was very interesting.. It's true that many cults, sects are acting even worst in real world.. They are very dangerous people..

Anyway what a book!!!

I seriously liked it.. This one had even the funny side that was missing a lot from Brawn..

Thanks to Creed and Richard.. Creed was a true friend and help Zandy so much.. She was amazing.. And Richard was so cute and sweet..

THOUGHTS ABOUT THE BOOK

- I loved Bestial and Brass
- Also i got a glimpse even from my favorite boys Moon and Harley..
- Smiley got on my nerves at first but i liked him in the end..
- Vengeance has issues.. I wanted to smash his head after what he did, but when he tells his story.. Awwww..

“Animal Magnetism”

Page turner: YES

Part in a series but can be read as a STAND ALONE

I enjoy reading Tiger. And to sum up what I feel?

Well, because...

But, I also:

“I feel so empty inside. I don’t sleep well. I force myself to eat and live. Some days I wish I’d died with her. I fought for so many years to survive. You know how strong our will to live is. I lost that when she was killed.”

My heart broke for Vengeance. In Wrath’s book, I just have pegged him to be an animal too wild to be tamed. Unlike Valiant, whom at first when I’ve read a glimpse, I wished to have a mate of his own. But this? I so greatly wish that Flame, Smiley and most especially Ven, who are so fascinated with human female, will find their mate and had a beautiful story of their own.

Alex is The Romance Fox says

Oh my.....this is me when I was reading this book.....

Tiger’s story....have been so looking forward to it. The gorgeous tiger/male species....swoon...

<=”

He’s been such a “strutter” in the previous books....and now we get to see him not only roaring but purring too....

especially when Zandy is near him.

I loved the beginning of this book when Tiger first meets Zandy. Absolutely hilarious.

So, we all know the plot – species meets human female, who falls in love immediately with him...I can understand that...these are gorgeous species!!! Lots of scenting, sniffing, mounting around....in fact there were so many sex scenes – now don’t get me wrong...I like those...but after one and then another a few pages later and then yet another....and so on...I started skipping those couplings....after all, how much can I read over and over again about licking, you taste so sweet, ooh you are so big – it kind of became a bit repetitive....you know what I am trying to say!!!!

Zandy....well at first I had this idea...what a slut!!!! But, no, she’s actually quite a likeable character and I enjoyed the way she drove Tiger crazy...what’s a girl got to do if the guy is acting like an idiot and can’t see the jewel in front of his eyes!!!!

Love the secondary characters – Creek, Smiley, Moon, Harley and the sad and broken Vengeance.

What an amazing world this author has created...and never mind if it’s far-fetched, that some of the dialogue is totally wacky, that there is so much repetitive sex scenes.....it matters not...because I get such enjoyment and entertainment reading this series.

Some quotes I liked -

So, leaving Tiger and Zandy with their HEA and may they continue doing much of this TOGETHER.....

Oh...yes, yes...love this cover!!!!
