### **Leehan says**

Surprisingly it was a short read because I was hoping more like The White Book. To me it was more science then metaphysical. Left me hanging on the wall.

### **Karin says**

This the most amazing book I have ever read - this is my 3rd time around. It combines hard science fact with an easy to understand application of these principles. True enlightenment handbook. This is the book every person should read - this book can change the world.

### **Mpho Majozi says**

No matter what anyone says. Ramtha is the bomb if you take what you need and run with it. This book taught me to be responsible for my reality and stop blaming others for my experiences as well as creating the reality I want. It works.

### **Octavio Fernandez says**

Wow... at first, in the begining i was almost to the point of closing the book and leave it for Some time in the "near" future... too complicated for my evolution progress, but after giving it a second try... it became my favorite to read at the time...

Some concepts are Hard to understand but its a Great Great work and im sure much of me Will keep this for long... Thanks!
