### **Deanne says**

Often wonder why people stay in houses with an atmosphere, then I remember Grandma who lived in a terraced house in Leicester which had an atmosphere of it's own. The family moved in in 1940 and we went to live with her in 1985, finally leaving in 1989.

Spooky story but no pictures which would have added to the story.

This , was recommended to ,me, by a cousin. and it didn't disappoint. Though only a slim book, it is scary, Emma and John (not their real names,) move into a terraced house in Wales, it looked a normal house, and even though the owner dropped twenty thousand off the original price, and couldn't wait to get rid of it, they thought nothing of it, but they should of.

First it was little things, catching a shadow out of the corner of the eye, things being moved, then , the footsteps, oh God the footsteps. coming up the stairs and stopping right outside the bedroom door! Slowly things got worse.

Even if you are a non believer , this will have you wanting to leave the lights on,,  
A true tale of a vile haunting!

Good read, interesting to see what people have been through, and it was nice that the author decided to let the reader make up their own mind, and not push them into a corner.

I decided to read this because my boyfriend knows the author and assured me it was a nice little read. I have to say, it scared me! I was scared in the beginning before hardly anything had happened, let alone the rest! I was disappointed by the ending, but this is a true story so it couldn't have been written any other way. Not only did I enjoy the transcripts of what happened but I enjoyed how it was written, even though I'll be sleeping with my light on this evening, it was worth it!

Loved this book, was short but straight to the point, very well written and made even better as it's a true story and based 5mins away from where I live. Not usually into horror or paranormal books but really enjoyed this. Look forward to more from this author!! x

Totally chilling. Real accounts from victims of a haunted house. If you scare easily do not read this at night!! 5 stars!!

**Lee David says**

A well written and engaging read. It actually made me not want to turn off the light before bed. More subtle than the brutal Ghost sex: The violation but it's the fact that you are brought into a very private and personal world that makes it so much more compelling. I would love to see this made into a movie as it would be about people and how they are effected and not CGI ghosts and monsters. Good luck trying to sleep after this one. Great read.

A good book but full of grammar errors and typos. I love a good haunting read but this seemed a bit far fetched in some parts. It wasn't as scary as I hoped but this could be down to the grammar distracting the story, I also, found the story to be one sided; his view, though I couldn't warm to her by the end of the book, makes me wonder if she played a part in it all to get rid of him.

I was so enjoying this quick read. It is easy to understand and spooky. That is until Sarah (the female protagonist) goes into cold bitch mode then I spent the remainder of the story hating her worse and worse. She totally knocked this story down a star cuz she turns my enjoyable creepy feelings into just being pissed off. But outstanding story telling Mr. Davies

**Mandy says**

This short book is eyewitness accounts by a young couple, John and Sarah (not their real names). They bought a house in a small town in Wales called Haversfordwest, and were apparently subject to a lot of

paranormal activity.

I say apparently because the author does acknowledge that he has not been able to conduct any investigation in the house itself. Nor was he allowed to talk to any tenants who have lived in the house since this couple. Parts of this were downright creepy to read, and I admit I made sure all the lights were on as I read it! It would be easy to be quite sceptical about this haunting, because there's no real proof, but I found it to be an interesting and unsettling read none the less. It is a short book so didn't take long to read at all.

Creepy and Scary!

This is a very scary story whether true or fiction. I can't imagine living in a haunted environment and that is what makes this fast, short story so creepy.

The story is based on a true haunting of a young couple who are engaged and very much in love. Shortly after they move into this house the young man starts seeing blurs out of the corner of his eyes and then starts hearing whispers which he can't make out the words and then their bedroom door starts opening and they hear footsteps and knocks etc. They try to rationalize everything in the beginning and it starts to take a toll on their relationship. The man seems to experience more than his fiancee but he doesn't handle the events as well as she does. He starts to drink more and more to quiet his fears but this only aggravates the problems in his relationship. There are many more eerie and frightening events that follow and you will find yourself asking the question " Did this rally happen? ".

I enjoyed this quick read and found myself wanting to know more about these hauntings. I found this book scary, intense and very creepy. I think G.L. Davies did a terrific job writing this story and I will certainly read moe of his books about haunted places.

I highly recommend this book for any reader but especially for those interested in any way with the paranormal.

I have given this book a rating of 4 haunted ???? stars!!

#### **Good book**

I really enjoyed this book. I believe every word of it. The only critique I have is there was no proofreading done. For this reason it was very difficult to read. If you publish another book would love to read it, but please have a proofreader have a go at it first.

### **Lea Cornell says**

I enjoyed the feel of this book and how the story was told through the words and memories of the couple

involved. The author did a great job of investigating and tracking down the right people to speak to and I enjoyed the research that went into the book about the location. I know the author is very open about keeping the details of location and identities of those involved a secret and that is to be respected. I was saddened to hear how the owner of the house moved on, by not telling anyone who rents the house of what has occurred. I feel that keeping this a secret is just as awful as it was when it was done to them. It was really her personality that changed, not his. She became a completely different person and took some of the negativity with her while turning her back on her partner. Maybe it was her who caused more events by her negative attitude? Never know.

4-stars

This was a fantastic short story. And by "fantastic" I mean it's the PERFECT book to spook you at 3AM. You know when you have to remind yourself you don't believe in demons and devils and ghosts and whatnot, it got ya. It sure got me.
