0.5/5 stars.

I didn't even finish this book. It reads as if it was written in a rush because the author wanted to be over with it. Everything was boring and predictable, and the evil characters were killed in the first few chapters, so I sort of didn't see the point. (And actually, Tancred being sold as a slave -yet again- and the whole Phillip's death part reminded me a lot of Ben-Hur).

It's sad, because I really liked the first book. It had so much potential.

Darlene Mindrup says

I love Linda's writing, her historical info, her alpha males. Normally I give her books give star ratings, but this series depended too much on traps and escapes. It became tedious. I would have liked to have seen more of the other people's stories besides the royal courts to move the story along instead of so many capture scenes.

Normally I give stars for Linda's books but, the capture and escape scenes became a little tedious and tiresome.

Johnny Bennett says

Rated as a high 3. Behind the Veil finishes out the Royal Pavilions trilogy by Linda Lee Chaikin. The action and movement in this book only further highlights how the politics and intrigue in book two are merely a setup for this one. Chaikin's choice of using some "high language" in terms of thees, thous, and thus seems to really break the flow of the story at time. The conflict between moors, Turks, Armenians, Byzantines, and the rest of the crusaders does entice and is well laid out how allies weren't so allied as to not have some backbiting. Enjoyable but not brilliant.

This was an exciting, keep-you-on-the-edge-of-your-seat book. Linda Chaikin is amazing author. I can't wait to read more of her books!
