### **Phil Altimas says**

a great little novella  
yes its short but its so funny  
a 27 year old virgin wants to loose his cherry before Christmas day  
this is his story and its a great read

---

### **Maria R. says**

What a laugh! I love this author.

---

### **Nicky says**

Good for a quick read, funny in places too.

---

### **Farhan Saya says**

#### **Three and a half stars**

Hilarious although a little short novel. That is if you aren't offended by the subject matter. Will definitely be reading it's sequel.

---

### **Tendie says**

#### **Loved it!!!**

This is the first book I have read written by a man and I must say I'm glad I picked it up. It was so funny at times I couldn't help bursting out loud. My days its good to find out what happens in guys heads. Definitely recommend it!!!

---

### **Pratheesh says**

#### **Funny book**

This book is funny but not as funny as "bricking it" hence the 4 star rating. I would still recommend this

book

---

### **John Handy says**

#### **Maybe worth 3 stars, fun read.**

I feel I may have been slightly harsh here with my review score (maybe 5.5/10), it does provide a few good laughs, in fact it is very funny in sections, but I found that you could tell the ending from a mile away and it seemed to try and tack on some unneeded sentimentality at the very end.

---

### **Shelli says**

An entertaining, yet over-the-top, quick read about a 27 year old virgin who is determined to loose his virginity before Christmas. A fun break from the standard Christmas tale but also kind of hard to root for someone who is only interested in loosing his virginity with a meaningless one night stand. However, you can see karma alive and well as he attempts to treat women as mere sex objects.

---

### **Natalie TBGWP says**

Twenty Seven year old Matt is a virgin. Determined to get it over and done with and lose his virginity, he gives himself a date to have the deed done and dusted by, this Christmas.

We are firstly introduced to Matt as he tells us about his disastrous love life and failed sexual activities. We then follow him on his journey of sexual findings which for Matt only ends up in continuous disasters.

I like Nick Spalding, I've enjoyed his previous work, but Blue Christmas Balls is advertised as a laugh out loud comedy novella, so I obviously had extremely high hopes for it. Let's just say I was near the end of the book and I was yet to have laughed or even smiled for that matter. It's like a try too hard to be funny book I really didn't like it unfortunately.

---

### **Laura says**

'How the hell can you fancy me?' I ask. 'You pulled an Ewok out of my bum!'

I loved it.... Its proper British humor had me laughing from the Band Aid prostitute, the Return of the Jedi Bears and the double glazing fanatic.....

A 27 year old Virgin sets out to loose his virginity by Christmas..... well the escapades he gets up to and how he finds himself in some "sticky" situations just makes the book hilarious... I loved it

---

### **Gayle says**

Crass, predictable & disappointing. 2nd by this author I've read & the repeat phrases & stock character traits are immediately apparent. Won't bother reading a 3rd

---

### **Amita says**

I regret it. But book clubs, man.

---

### **Dave Fellows says**

5/5 stars. Very funny. Christmas seems something of a commercially-inspired afterthought, but you'll be at least smiling for most of the two hours it'll take you to read through the short story; in some places, I laughed long and hard. A very entertaining little book.

---

### **Jade Jones says**

Absolutely Hilarious!

---

### **Libby Curtis says**

#### **A good read**

I liked this book. It was honest, relatable and funny. It didn't get 5 stars because although I liked it it wasn't the best thing I've ever read. Would recommend to a friend.
