Charred By Darkness Alexandra Ivy

Return to the pulse-pounding world of the Dragons of Eternity by New York Times bestselling author Alexandra Ivy.

Being born a half-breed means a life of brutal servitude for most dragons. But not for Char. He has a unique ability to turn every situation to his advantage—including an honored position next to his master, Baine, as well as an open invitation into the beds of the most beautiful females in the harem. It isn't until he's asked to use his special powers to slow time and protect a beautiful female dragon that his luck finally runs out.

Blayne has spent her entire life trapped by her curse. But when Char wraps her in his magic, she can finally clear her mind long enough to use her powers to travel back through time. She's determined to discover who is responsible for destroying her life, and kill him before he can strike. She hadn't planned to take Char with her, but once he's there, she discovers that the gorgeous half-breed dragon is devoted to protecting her.

Together they must navigate the dangerous world of dragon politics to expose her enemies, while discovering that passion and true love cannot be denied, no matter how many obstacles might stand between them.

Rather anticlimactic

A disappointing end, if it is the end, to the Dragons of Eternity books. Book one was a strong start. Book two just...well...ended. I'm so used to her books being captivating and leaving me barely hanging on til the next that this one proved to be a very unfulfilling finish. I can't even really tell if it is the end or not. Or maybe it's wishful thinking that she'll do a book three that will give us a better end?

"Charred by Darkness" by Alexandra Ivy. Book 3 in the Dragons of Eternity series.

Aww! Such a fast and fun novella! I really enjoyed reading about Char and Blayne. This story is short, sweet and to the point. It works great as a stand alone story but is better enjoyed if you read the previous book "Scorched by Darkness." (It gives a bit of history as to what happened to Blayne and sets up this novella.)

Char is a half-breed dragon with the ability to shift into a dragon which is very rare for half-breeds. He's been assigned to protect Blayne, Synge's daughter, who was just found. She was cursed when she was born and is now in a magical coma. The last thing Char expected was to be magically pulled into the past with a fully awake Blayne! And she's trying to stop the person who put the curse on her in the first place!

Blayne didn't mean to take Char with her into the past but his magic actually helped her do it. She determined to stop the person that cursed her when she was born so she can have a normal life in the future. She really didn't expect to be attracted to Char as well. Well she'll just have to keep her attraction under control until her mission is over. But does Char feel the same way about her?

Such a cute story. Very quickly paced and very well written. Our favourite gargoyle Levet features prominently in this story as well and provides much comic relief. Very fun to read. I really enjoyed this story.

Great for when you need a quick romance fix.

Megzy says

It was nice to see some more of Levet to lighten up the mood.

A short quick read. The pace is fast with events occurring one after the other. I felt that the story was a little

hurried though and would have liked it to be a tad longer with a bit more suspense. Answers were found without much effort. There wasn't much romance to the building of Blayze and Char's relationship. Everything felt a little too convenient for my liking.

Robin says

Good book. None of these are really long but they are good stories and it's always nice to have some Levit. :)

Charred

I love all of this author's books. I am truly falling in love with the dragons. Especially since we still get to spend time with one special gargoyle named Levet. I really liked reading about Blayze and Char's hea. She really deserved to find a mate after everything she went through. I'm happy that Char has become a true part of the family . This book was short but was really a good read.

Me encantóoo cortita, rápida de leer y lo más importante muy entretenida.

Los personajes me fascinaron y no hay nada mejor que el plus agregado del personaje más querido por todas que es Levet la gárgola jejeje. Me parecieron muy encantadores los personajes de Char quien ya habíamos conocido en historias anteriores y amigo de unos de los dragones más poderosos llamado Baine, Blayze su co-protagonista también fue genial y lo que más me agradó también es que tuvimos dos historias de amor en una con Bolt y Vex. Eso fue genial, que les diera un cierre a esos dos personajes también.

Quiero saber qué nuevas historias nos va a presentar la autora con la nueva entrega de esta serie prevista para es año, estoy muy ansiosa por leerla.

Mi calificación 5 ESTRELLAS

Another great read! This is the story of Char and Blayze (great names by the way) and the 3rd book in the Dragons of Eternity series. Together Blayze and Char are able to travel back in time to stop the spell that was put on Blayze and kept her in stasis for so many years. We also have the wonderful Levet, whom I adore. Past characters interwoven into this story, make it even more special. I thoroughly enjoyed this read! 4 stars.

Char and Blayne-what can I say? I liked how their mating progressed. I just wish some Levett scenes were cut to give us more of them. Blayne comes into her own, no longer held by a curse of insanity. Forced to be a burden to her mother, sacrificed by her father, she took control of her destiny. Going back to kill the ones responsible for her curse, taking Char with her. Char is protective but doesn't know why at first. Char has been able to talk and charm his way thru anything, but Blayne doesn't go for that. She's straight forward, no bs which I think Char finds refreshingly-he's also really attracted to her, so that helps.

Levett and Tayla team up to try to find Blayne to avoid a war between Vampires and Dragons. There's a very thought out plot to get Blayne back, but I wish more time would have been spent on Char and Blayne courtship. I wish Blayne and her father would have reconciled, seeing her parents together and in love. Also Bolt and Vex instantly in love with no back story. Pretty good though!

I have been waiting for months to be able to buy this book. It was well worth the wait. Excellent ride. I love the characters. I love that Levett causes trouble unintentionally and someone else always seems to clean up his mess. I can not wait for book 4. you are an amazing writer.

Ann says

Disappointing. Ends Abruptly. Superficial Treatment.

POSSIBLE SPOILERS:

This story was a solid 5 star until the very abrupt and unsatisfying ending. It wasn't a cliffhanger; it did end on an HEA, but it jumped from point V to point Z , with nothing in between.

Characterization of Levett was excellent, as always; he was a standout. The characterizations of the hero and heroine were acceptable for novella length. Characterizations of secondary recurring characters were definitely on the light side, but the novella length restricts full development. The characterizations of the villains were also circumscribed by the novella length.

The plot had great potential, but it ultimately disappointed. A lot of the initial action took place off-stage, but it was still quite entertaining. Then we got near the end of the story and it just wrapped up. One minute the hero and heroine were in the process of escaping, the vampires still had the dragon, Styx, in stasis on the club's roof, the dragon, Bolt, who had disappeared in the past and was presumed dead, appeared in the present and the villain dragon was in the past and undiscovered by Styx. Next minute, the hero and heroine are in the present and mated but there is no scene of a meeting with her parents, no scene of the vampires releasing Styx, no scene of the big reveal to Styx and no scene of how the villain is confronted and punished by Styx. Just, there they are, back in the present so isn't that wonderful.

These dragon stories are wasted as novellas. They have so much potential as longer novels. As it is, they feel shallow and incomplete. Had it not been for Levett, I would have been tempted to give this book one or two stars.

I recommend this book for fans who are completists, but those new to Alexandra Ivy should try one of her 'Guardians of Eternity' books.

Farrah says

I like this book, but only give it 3 stars because I think the book fail to closed the story in a good way.
Spoiler ahead!

I mean, they were back in time back they didn't change the present. If they prevent the curse to affected Blaize, she would never be given a dead sentence and her mother would never take her away. But they prevent the curse and nothing change, that made no sense whatsoever. I was expecting that they return and maybe she was still betrothed to another and maybe not recognized Char as her mate o something that made the end more interesting. I was expecting for Syngre reaction to Char and Blaize mating.

Other than that, this was another good book in this universe Ms. Ivy created. Love to hear from Stix and Viper, and Levet never fail to amaze.

Blaize was a great character and Char was what I expected. Maybe the story move a little fast for a woman that was captive all of her life, but never felt forced.

Namita says

The book was good but it ended abruptly!! Not Ivy's usual style!!

The story felt incomplete.

Marishka says

It was good but I got tired of Levet's POV - There was just to much of it - should have stuck with the main H/h more.

Robyn says

Welcome back!

I've waited a long time to return to the world of the Guardians and Dragons and it was worth the wait! Loved seeing Levet again as well as Styx and Viper. This book went by so fast! Loved reading about Char and Blaize and wanted to read more. I still don't feel like I know a lot about her. I hope to visit this world again sooner rather than later.
