Four Aussies in Seattle

Once brothers

Now strangers

As an unseen enemy takes aim

Four must stand as one for Justice to survive.

A man branded by his past

Seth Justice is tall, daring and dangerous. The former street kid from Sydney owns a thriving technology company in Seattle. But he has bigger goals?or should that be ghosts??that drive him harder. On the verge of selling his business for a fortune, he's celebrating when Harper Fox, daughter of the buyer, tumbles into his arms. The curvy café owner enchants him with her sassy personality. Soon they move from easy banter to a night of passion that reveals a sweet vulnerability in the soft-hearted woman.

A woman determined to control her future

After a lifetime of her domineering father's scorn and rejection, Harper dances to her own beat. She has her café and surrounds herself with a chosen family of her eccentric staff and close friends. While she's mostly content... her heart aches for more. But Harper has been burned before and doesn't trust easily. That is, until a man with a panty-melting Aussie accent and a commanding stare entices her to take a chance—on him. When Seth takes charge in the bedroom and ties her control in knots, he awakens a need in Harper that leaves her hungry for more.

A new beginning worth fighting for

When an unseen enemy attacks the new life Seth and his brothers have built, the ensuing disaster tests not only his developing relationship with Harper, but also threatens to sever the last remaining bonds with his brothers. As Seth struggles to protect everything and everyone he loves, he has to determine if Harper is his enemy's target—or accomplice.

Meet Seth.

Driven, successful, sinfully delicious. A computer whiz who's just about ready to close a deal of a lifetime. This deal will make him a millionaire....No wait....It will make him a multi millionaire. He will repay his brothers for everything they did for him. For their generosity they gave him when he first began with the idea. His brother Dillon, he'll never be able to repay for the love and support and the partnership that has got him to where he is today.

You see Seth has had to work hard. His beginning, tragic. An addicted mother, father unknown, growing up in foster home after foster home, Seth was determined to be successful, to prove his worth. The deal so close, what could possibly go wrong?

Meet Harper.

She's young, beautiful, successful. She runs a quaint little café. It's her pride and joy.

Failed relationships, Harper puts all her time and energy into her baby. She loves it. Her family life, not so great. Her parents highly wealthy, her father a big corporate guy, her mother a socialite. Harper never really fit in because she refused to conform. Harper is her own person. She's individual and headstrong.

Her father's business is about to buy a company, nothing new in his world, or hers for that matter. But unbeknownst to Harper it will impact her life. Change it up. Forever.....And why?

Because Seth and Harper's worlds are ready to collide. They just don't know it yet.

And when they do it will be explosive.

Seth and Harper.....This is their story.

Craving Justice....Guys what an absolute brilliant read. We were held hostage, transfixed, couldn't put it down. We were captivated from the very beginning. Raw, confronting, sinfully sexy, edgy and full of suspense it took our breath away. It had us guessing at every turn. It was a case of expect the unexpected because guessing was just a waste of time. We never picked it in a billion years what happened throughout and we were simply lost for words. If suspense, high actioned and sexy as hell read is your thing then you definitely need to read this novel. You won't be disappointed. It had absolutely everything in it and so much more. It will leave you speechless.

A huge 5 star read.

LOVED it!! Add this to your "to be read" shelf!!

Craving Justice is one of my most anticipated releases of 2016. After reading Angeline's reviews of Fiona Archer's previous books I have really wanted to read something by her, however her previous books are menage and I just have not been in the mood to read menage books lately. When I found out Fiona was

coming out with a new series that was couples I did a happy dance!

Let me warn you that my review may seem a little vague because I do not want to spoil it for anyone, just take my word and read this book.

Seth makes me think of a Phoenix because he rose from a horrible childhood into a successful business man. Seth is very much a gorgeous, Alpha male, to spike his hot factor through the roof is his sexy Aussie accent. Seth is on the cusp of making a business deal that will take him to the next level of success, as well as help him say bye to one of the monkeys on his back from his youth. Everything was going smooth and then quirky, curvy, beautiful, sassy Harper falls into his life.

Harper is a strong willed and independent woman, who also happens to be the daughter of the man set to buy Seth's business. Harper's does not have a good relationship with her father because she wouldn't bend to his will, instead she opened up her own successful cafe. Stanton Fox, her father, has always ridiculed her and let her know what a disappointment she is to him, it hurt Harper, but don't think Harper is a poor little rich girl, because she is far from it. Harper is one of my favorite heroines this year, because of her strength and sass.

Seth and Harper's bubble of happy at meeting each other and hitting it off, was burst the very next day by an anonymous person making social media and personal attacks on both of them as well as Seth's brothers. The path to finding who was attacking them is a fast moving twisted trail of betrayal that kept me on the edge of my seat. The suspense of "who done it" kept me guessing, every single time I thought I figured it out I was WRONG! Ms. Archer totally blew my mind with the person causing all the problems for Seth and his brothers as well as the OMG ending.

I was totally blown away by the way the relationship between Harper and Seth grew, the way they handled the obstacles in their way and the suspense in Craving Justice. Seth is dirty talking with a taste for a little kink making the sexy times HOT, HOT, HOT!! Harper is just adorable and sexy, I think she might just be my first book girl crush. Seth's brothers are all sexy in their own way and I can't wait for their stories. Harper's friends Cleo, Jinx, Ryan, Nitro and Abby are great, I hope to see more of them as well.

Craving Justice is an exhilarating story full of hot Alpha males, a strong, quirky heroine, exceptional secondary cast and a mind bending chase to find out who the perpetrator of the attacks was. I was instantly addicted to Ms. Archer's writing style and am waiting impatiently for the next books in the series.

I love this cover. It's eye-catching. A fairly good representation of the story. It makes great use of graphics. The composition is really good, and the typography is interesting.

Overall this one was a pretty good read. I enjoy this author's writing style. It has a KA feel to it without being a copy. The pace was a little off for me in parts, and I found it dragging. I considered putting it aside for a bit

but I soldiered on. I am glad that I stuck with it though because it did pick back up again and I ended up being sucked back into the story.

It had a lot of interesting side characters. I love that whole brothers/friends comradery, and I am wondering now that it seems all the brothers are going to working together in their P.I business if Harper's café is going to turn into hot guy central. I am also excited to find out more about each brother. I had a bit of a love/hate relationship with them throughout the book (except Zach, the hot biker brother. I loved him). They acted like assholes A LOT but pretty much redeemed themselves by the end.

As for the two main characters. I found them both likable. Especially Harper. She was just sweet and quirky. Seth was *slightly* less likable. He was a douche a few times especially when he thinks she has done something. Thankfully that doesn't last too long, and Zach helps him see what he already knew deep down was the truth.

That brings us to the twist and what a f-ing twist it was. I didn't see that coming AT ALL. So kudos to the author for that. That said, I didn't like the twist. It made me sad and confused. The reasoning behind why this person was doing what they were doing was a bit on the flimsy side. I felt there needed to be a better explanation for THIS particular person turning into a total psycho.

So onto book two I go...

This was the first book I've read by Fiona Archer and my goodness was it good! Not just good but great!

The twists and turns in this book had me on the seat of my pants the entire book! I loved the quirkiness of Harper and how silly she can be! And Seth just sounds sexy as hell.

I loved how close the Justice brothers are in the book even though none are biologically related to one another. I'm very much looking forward to reading Heath's book when it's released!

This is the first book I've read by Fiona Archer and I was so impressed with this story. Fiona has a talent for drawing you in from the first chapter and keeping you invested in these characters and the story from start to finish.

I really enjoyed reading a book that isn't all about the romance. I've read so many books recently that all have the same content, and to be honest, I was getting a bit bored and in a bit of a rut.

Craving Justice dragged me out of my book funk and my love of reading returned, thanks to Fiona Archer.

Don't get me wrong, I love lots of romance in my books (and the sex scenes in this were HOT....really HOT) but there was so much depth and mystery to this storyline, I couldn't put it down.

The book revolves around 4 street kids from Sydney that have been adopted by a wealthy American woman and her son, after one of the kids rescues her son while on a trip to Australia. The 4 boys' lives changed for the better in a big way, now all grown up and living their own successful lives. Seth is the main character in the story and is in the process of selling his technology business when an online hacker risks everything, including his new found love interest, Harper.

The romance between Harper and Seth is so much fun to read. Harper had me laughing out loud on many occasions and I even saw similarities between her and I, especially when she orders her meals in restaurants. Seth is one of the best male leading characters I've read. He really had me hooked. I loved that he was so protective of Harper, in and out of the bedroom. Even if at times, he was bossy, it was all written in such a perfect way, that I couldn't help falling in love with him. He is the perfect book boyfriend.

As the story progresses we find out more about Seth and his brothers, with the mystery behind the online hacker keeping me guessing till the very end.

I highly recommend 'Craving Justice' to anyone that likes their romance books with a bit more storyline to get invested in. The mystery and suspense will keep you reading till all hours of the night.

This definitely won't be my last book from Fiona Archer and I can't wait to read about the other brothers in the follow on books in the series.

please note:- this is a stand alone book.

Twisty and hot—just what I needed!

What's on my wish list for the perfect story?

- ✓ A 'keep me surprised plot'
- ✓ Interesting and relatable characters
- ✓ Emotions to tug my heart
- ✓ Laugh out loud humour
- ✓ Oh and throw in love and heat with just the right amount of edges

Not much to ask for, right? I'm nothing if not reasonable. I'm happy to say this story has the checkmarks racking up nicely!

Seth Justice is all about family even when they are at odds with each other. (Sounds like a typical family to me.) He and his brothers are bound by history and heart, so when a high-stakes business deal starts going south, and each are personally targeted, everything is pushed to the side as they come together to fight. Yah, that isn't hot at all. Did I not mention all the brothers were over-the-top, handsome alphas? And hot? (That caught my attention too...)

In the middle of it all, Harper Fox catches *Seth's* attention and is soon completely smitten. She is the ying to his yang in many ways. She is open, he keeps himself closed off. She is warm and funny, he, well he has his moments. She is endearingly clumsy and sweet, and he... can't resist her at all.

“I’m hopeless at making up my mind on food. I like everything. Then, when I get my meal, I wonder if I’ve made the right choice.”... “It places a lot of pressure on the dish in front of me.”

Seth is *anything* but clumsy as he becomes fiercely protective of Harper. Oh yes, more of the hotness abounds. I really should just include a match here, and you will get how irresistible this man is... The feeling is mutual even as both are fighting anything more than physical attraction. They have their reasons to avoid relationships and when things come to a head, those issues are going to wreak havoc.

I loved this story even though, midway through, it seemed to veer away from the truly entertaining chemistry between Seth and Harper to focus more on the mystery and suspense. Good thing that was twisty as well—and surprising! I did not see that coming... or that...4

A kick-ass heroine and sexy Aussies have me waiting impatiently for the next story. Thank goodness there are more brothers! And I also need an Audible (not want, *need*). I *need* to *hear* these blokes! ~ Diane, 4.5 stars

Seth Justice needs his brothers. Circumstances drove them apart but for the brothers to make it coming back together and possibly forgiving is a must. Seth is selling his phone app design and selling his soul to protect his employees. Negotiations are made and signed on the dotted line. Just as things are looking up Seth meets Harper.

Harper has found her own way inside her café. Her father’s approval is not needed anymore. Her life is full except she hasn’t found her one. Trusting another man would be a detriment. Falling into this mans arms has her rethinking everything.

Harper and Seth are finding their way around each other very intimately until events out of their control take over. Social media attacks, harsh messages, lies, betrayal and more give these two a run for their money along with Seth hanging on to his business contract. Someone is making this personal and its hitting Harper and Seth hard along with Seth’s brothers.

There are great secondary characters in this first release. Harper’s friends are hilarious and beat to their own drum which I love. Seth’s brothers are some very interesting men to say the least. I look forward to the next book Tempting Justice due out in the Fall featuring Heath and London.

Thank you for the ARC! Review to post to Ramblings From Beneath The Sheets.

3.5 stars, but I'm rounding up. Interesting start to a new series about a group of adopted Aussies all in various hot guy professions. Some romantic suspense thrown into the mix too. Fun read, looking forward to the next one.

****2.5 Stars****

I really wanted to like this book. It started out so strong. I was really liking the heroine, Harper. She was funny, sweet, smart and sassy. I was thinking “yay! I’ve got a really great heroine”. I also was liking Seth. He was giving me what I want in a hero, sexy, dirty-talking, possessive. (Though I think he “talked” a little too much in the bedroom) Definitely insta-lust if that’s not your thing. But, when the suspense part started, it all went downhill for me. At this point, to me, the romance took a back burner. There were a few sexy times thrown in but not enough to satisfy my romance craving.

******WARNING, Spoilers below******

(view spoiler)

I kept reading because I wanted verification as to who the “villain” was. I had my suspicions but was hoping I was wrong...I wasn’t. That made me sad.

But one thing that bugged the HELL out of me was Harper called Seth “handsome” as a pet name. It was used many times, sometimes multiple times on one page. It really grated on my nerves. Sometimes, it just seemed out of place to me. But this is just my personal issue and others may not be troubled by it.

I will definitely continue the series as I’m interested in the other brothers’ stories.

The BookChick says

This is my first time reading a book by Fiona Archer and I was pleasantly surprised and impressed by the story. The characters were well thought out and the plot had a well-done plot that included an element of suspense and a hidden villain. I enjoyed the relationship between Seth and Harper quite a bit. Harper was quirky and sweet and had a depth to her that made you truly appreciate her character -- and there is a point in the story where her character matters. Seth is a swoon worthy hero who pulled himself up by his own bootstraps after a brush with serendipity in his young life that changed the course of his future. There is a great deal happening in the story on both Seth and Harper's side but the reader is pulled along for the ride and kept engaged throughout the story. I cannot wait to see what Archer has in store for the other brothers.

This was Seth and Harper's story. It was a good start to the series. It did take me a while to get into the book, but once I did I enjoyed it. The storyline was interesting and the characters definitely likable, but it was suspense factor that I loved. I will be continuing the series when Heath's book is released.

Let's look at the facts...*Craving Justice* **REALLY** ticked all my boxes. This book has a HOT hero, Seth, and HOT brothers as well. The heroine, Harper, is funny, quirky and a little bit of a klutz. There were plenty of descriptions of cool outfits worn by Harper and her gal pals, Cleo, and Jinx. The mystery and intrigue had me riveted from start to finish. AND...Seth's into a little bit of kinky, sexy times (hubba hubba). Put it all together and you have got one sensational story.

Craving Justice starts out with Seth in a business meeting with one of his brothers Dillon, and the CEO of *Brooke-Porter Digital*, Stanton Fox. They're there talking deals...and I mean BIG deals, to the tune of \$50 million dollars type of big deals. Seth is selling his phone app design business *Shazad*. At the end of the meeting, they have negotiated a deal and a letter of intent has been signed. Stanton asks the brothers to a corporate function and the men agree to go. The event is a little bit stuffy for Seth, but he's on a high and willing to suffer through with it. It's not all bad for Seth because a cute, little bombshell falls straight into his arms and knocks him off his feet.

Harper is a bit of a klutz and even limiting her heels to two inches doesn't stop her from falling...into a gorgeous man's arms. After introductions, she realises he's the brother of one of her regular customers Dillon. Harper owns a coffee shop that is doing quite well. Unfortunately, she will never live up to her father's (Stanton Fox) expectations. Harper is hurt by her father's hostile and rude behaviour as well as his constant disappointment in her. Her best way to avoid confrontation with him, is to avoid him but in this case she's there to see her sister who's at the function.

Harper and Seth hit it off straight away and decide to have dinner together. As they are still enjoying each other's company they decide to have dessert at Harper's place. The intimate setting and their attraction to each other leads them to the bedroom and the SPARKS FLY!! While Harper is a little hesitant after having a couple of bad relationships, Seth is very keen...and he makes that fact known. I love a man who doesn't beat around the bush. Must be the Aussie in me, as we are supposedly known for our blunt and straight to the point manner ;)

Leaving each other with smiles on their faces and hope in their eyes, they had no idea what was in store for them on waking the next morning....

Social Media Attacks

Seth, his brothers, and Harper are in the firing line when Seth's Facebook profile is compromised and ugly messages are shared. No-one's safe and Seth's business arrangement is in jeopardy. Also, the attack on Harper is not flattering and she is lead to believe the attack was directly from Seth. Luckily, Harper's a cool chick, ready to listen and they work everything out.

Craving Justice takes us on a journey with Seth and Harper as they try to work out the mastermind behind the attacks. Who wants to see Seth and his brothers suffer? Who wants Seth's \$50 million dollar deal to fall through? Who is taking pleasure seeing Seth and his brother's flounder in these trying times? The journey was awesome and I loved that I hadn't worked it out until the answer was practically dropped into my lap.

I loved the additional characters in this story and I hope every one of them gets their own stories. We meet Harper's best friends, Jinx, Cleo, Nitro, Ryan, and Abby. Then there are Seth's brothers...A business man, a commando, a cop, a wood working genius who looks like a biker dude, and an SAS army sniper. Lots of goodness to look forward to...and maybe even Jinx or Cleo could hook up with one of the brother's. I'd like to see that.

This is a steamy read with a little bit of kink. It is in no way a BDSM, hardcore kink book, more like a feel the burn and get "turned on" type of kink. There is one violent scene towards the end, but it was not OTT or extreme.

My only teeny weeny little complaint was that the flow was a little stilted to begin with. Seth talked a wee bit too much in the first couple of intimate scenes. Yes, he was a confident man, but I can't imagine most men having such deep conversations the first time they're getting it on. After the first time, it settled down and his "talking" was dirty and HOT!!

This was my first story by *Fiona Archer* and definitely won't be my last.

This had a very appealing concept 4 rough around the edges Aussies adopted by a kind lady who saw their potential. 4 very different brothers but tight now living in their new home. I can understand how things would be different at that age and adjusting. Not everyone would understand as well. I like how they established themselves and found different industries for each one. They have strong ties that unites them.

This is Seth's book, a business minded and ambitious guy who dreams of doing well for his mum and his brothers. This was their new beginning and things end up going awry when their company encounters hackers and fraudulent social media posts out to ruin the new deal they have going. Harper is the rebel daughter of said company Seth is trying to sell to. Sassy, cute, outspoken, sweet and full of charm. She doesn't exactly see eye to eye with her dad and is considered a black sheep. She and Seth connected and got along well and had chemistry but this incident caused a snafu. I'm glad they at least stuck with each other and sorted out the the misconceptions right away.

It's a case of who is doing all the slander and ruining the brothers reputation. I actually kept guessing and not knowing what's going on. I was kept engaged and on my toes. Add the romantic parts this made for a fun and quite delightful kind of story. The brothers all had alpha in them in very different degrees. Which made for lots of sexy times for Seth and Harper.

As much as I like many various terms of endearments, a little too many at times that it became distracting for me. I got a bit of whiplash from Adam at first but he grew on me which I think will make his book worth watching out for. The secondary characters were cheeky personalities and loyal friends. That ending is going to make things interesting.

One of the most honest Aussie living in the US books I've read so far. The slang and sayings are quintessentially Aussie that I'm familiar with (from watching Oz TV). I like that refreshing and entertaining. But also true to character. I've never read any Fiona Archer books but I'll say great start to the new series. All the brothers are intriguing. For a quick easy read with a bit of suspense this fits the bill.

Craving Justice is a book that has me screaming for more. I became obsessed with these Aussie brothers from the very first chapter and I already can't wait for more. This book truly had every aspect of a romance that I love. A sexy Hero, a strong heroine, some really smexy times, and had the added bonus of suspense thrown in.

Seth and Harper were both very likable characters and i enjoyed seeing them together. Harper was just the right amount of quirky and I found myself smiling a lot because of her. And with Seth she was even better; these two truly complemented each other. Seth was a big hunk of sex on a stick, and I'm not just saying that because of his Aussie accent. The protective side to him had me swooning right out of my seat.

Overall, this book is a must read. I'm already craving more of these brothers so I plan on starting book 2 as soon as I can.

Craving Justice is my first read by author Fiona Archer and I very much enjoyed it. This is Seth Justice and Harper Fox's story. The story starts off with Seth in a business meeting with one of his brothers Dillon, and the CEO of Brooke-Porter Digital, Stanton Fox. At the end of the meeting, they have negotiated a deal and a letter of intent has been signed. Stanton asks the brothers to a corporate function and the men agree to go. Seth goes and finds the event is not to his liking but is saved when he meets a cute woman there who literally knocks him off his feet. Harper is a bit of a klutz and no matter what type of shoe she wears, she just is a klutz. She bumps into a sexy and virile man. After they introduce themselves, Harper finds out he is the brother of one of her customers to her coffee shop, one which business is booming. Harper has a father that treats her like a disappointment compared to her brother. Harper and Seth hit it off and make plans to meet for dinner. From dinner leads to plans back at Harper's place. There is this intense chemistry which jumps off the pages. They both want to see where they go but they both have been hurt in the past in different ways related to past relationships. There are twists and turns in the story that take it from a contemporary romance to a romantic suspense read. I love the added flavor to the story; the main plot is whether Seth and Harper will end up together or will the past pull them apart. Great new author to me yet she is now someone I will make it a point to read again.
