## Escape From The Green Jessica Gadziala

Amethyst

Determined not to be a pawn in my mother's game any longer, I finally decided to take my destiny into my own hands.

But I had made a promise to myself many years ago when I used to dream about running away. If I was getting my freedom, he was getting his too...

Drake

Imprisoned. Enslaved. That was my life for longer than I cared even to admit, beaten and humiliated for what I was. Draca. Dragon fae. The supposed last of my kind. Except I wasn't. But that was a secret I'd take to my grave.

I'd learned long ago to accept my fate, that freedom was not something I would ever know again.

But then one day after one of the worst snowstorms in my memory, the daughter of the man who had shackled me in iron chains to begin with burst into my barn with a key and a mission. Free me. And herself.

Things, though, often don't go to plan. And we found ourselves stuck in the middle of something no one ever could have predicted. A war between the Light and Dark fae.

Our futures uncertain, we decided there was only one place to go.

Back to the land of my kind. To see if any were left. And if they would have us.

## **From Reader Review Escape From The Green for online ebook**

### **Cindy ~ says**

In this second installment of Into the Green , a paranormal series that revolves around all different kinds of Fae, the world building continues with the introduction of the Draco which are a dragon tribe.

In the previous book Drake had been imprisoned and tortured for years. Amy, whose evil mother and father were responsible, finally sets him free as she herself runs away from her family.

The two embark on a journey with the end result being getting Drake back to his family and tribe. Along the way they met two new characters to the series. Sal, who is a Salamander fae and Smoky who is feral due to having raised herself alone in the forests of the Veil. Loved those two and their bantering..

There was another surprising twist from Jet, the man we should hate but are beginning to see he is going to be the perfect anti-hero one day and with the war of the Light and Dark Courts coming should be a great read.

#### **\*\*\*FIVE STARS!\*\*\***

Escape from the Green has been a long time coming, and it's fulfilled every bit of my fantasy/magic expectations. Amy and Drake were both such wonderful characters, and I loved seeing Drake's strength once he was freed. It was great getting a peek at how Cece and Jasper as well as the others are doing since book one too. This is an all around amazing story to help a person escape from the craziness of our world for a few hours. I just can't wait to find out what's in store for all these beloved characters in the future. If you love the fantasy genre, start this series! You won't be disappointed!

### **Fae and Dragons and.... Salamanders oh my!**

I have waited 4 years to get this book and it did not disappoint. Not only do we finally learn about the Draca but we get to know sweet sweet Amethyst. Amy and Drake are so perfect for each other and their love is one for the books. We got to meet amazing new characters like MORE DRACA, Sal who is a salamander fae and a tough girl raised by the woods Smokey. Every book of JG's gives me great meaningful quotes. My favorite one this time came from Smokey

"Women, we don't live in a world where things can be coated in sugar, where half-lies can be believed as whole truths. We know better. Sometimes, the reality is too bitter to ever be sweetened."

I hope I don't have to wait another 4yrs for the next one (hint, hint) and I can't wait to see who catches the eye of the dark dreamy Jet.

Strong, brave and compassionate, Amy has a determination that would make even the bravest warriors' knees quake the night she helped the captive, Drake escape from the shackles of her family's castle. It was also the night she would free herself from the clutches of a mother whose evil machinations would destroy her.

Now they must run, through the treacherous lands called the Green. Freedom for Amy meant returning to the human world, for Drake, it was a chance to return home to his family of Dragon fae, but would either be welcomed back? Can they even survive their **ESCAPE FROM THE GREEN?**

Jessica Gadziala's fantasy romance, **ESCAPE FROM THE GREEN** is a heartwarming tale of finding love where there was none and finding the strength to stand up to the evil in the world. With a sweet, slow-burning romance, this tale is simply magical reading!

Beautifully written, filled with a sense of "otherworldliness," Ms. Gadziala still infuses her characters with her signature strengths, but on a quieter note as we are whisked away into a world of gnomes and dragons and the Fae. Wonderful fantasy reading that proves the talent this author has to take readers away from reality and live alongside her characters!

## Ashley says

Winter in Michigan can sometimes feel like an eternity. Then one day, after months of rosy cheeks and red noses, bundled layers and wet snow boots, nights spent under a blanket with hot chocolate in hand, and ever growing arm muscles from shoveling the driveway....magic happens.

The snow that was thigh deep and back-breaking heavy starts to resemble melted snow cones, the trees look less like tired and depressed versions of themselves dripping away the icicles that have clung to them for months, and suddenly you can smell Spring.

Escape from the Green is like the magic of Springtime encased in a book, in so many ways.

Amethyst “Amy” Winters, by the middle of the very first chapter reminded me of the crocus flower, the first bit of color to bloom after the long winter. Amy grew up in a harsh, cold, and emotionally dead environment but still managed to bloom after all that time. Imagine my delight when we see crocuses mentioned in the book later! Amy was a ray of hope proving that the sins of our fathers do not define us, and that a woman doesn’t have to be a warrior to be strong. I loved watching Amy grow from our first teenage encounter in Into the Green (book 1) to the fully blossomed woman she turned out to be.

To keep with my somewhat cheesy metaphorical way of thinking, Drake was so steady and stalwart he was like a sturdy oak tree. When we met him in book one we caught a glimpse of the man he is, in book two we get to see how deeply rooted in goodness he actually is. A gentleman to the highest degree but also hiding a beast inside that he can bring forth when needed. I loved Drake, and found him the perfect compliment to Amy.

JG kills it every time with side characters and this time was no different. Smokey and Sal were an excellent addition to the Green family. Sal was an interesting mix of cocky and understanding. Smokey was a rare combo of badass and perceptive. Sometimes the hardest ladies miss subtleties, but she surprised me in a fresh and new way.

Jet of course, we knew we would hear from again, as a major player in the royal circle. Jet seems like we could have a great anti-hero in the making...and I LOVE a good anti-hero!

War is on the horizon. Light will clash with Dark, and we can only hope and pray Light is victorious. ...though I do have to say, our girl Jessica has never given us an ending to complain about.

Go snag your copy of Escape from the Green, watch as Winter melts into Spring, and fall in love with Amy and Drake as much as I did.

I'm so glad after 3 years JG wrote a sequel to Into the Green. I loved this story. Drake and Amy are awesome as a couple and I'm so glad they got their HEA. I also enjoyed the hell out of Smoky and Sal and would love to find out what happens to them. Thanks for the story JG. Now how about Smoky and Sal?

Jessica Gadziala vividly creates a world of fae – both light and dark – and other creatures that live in The Green, a world that exists alongside but separate from the human world we know. Amethyst (Amy to her friends) is the sheltered daughter of two of The Green's most cold and vicious couples, whose horror at her parent's behavior grows daily. Light Fae in name only, her parents are renowned for their ruthlessness and cruelty, and when they conspire to marry her off to the Dark Fae Prince, she knows that she must escape. But she'll only do it after freeing the Draca (dragon shifter) who has been in her parent's captivity since she can remember. Drake has been tortured and worked as a slave for so long, he has lost count of the years since he was caught. The only sliver of hope he has ever experienced in his captivity came from Amy, who tried on numerous occasions to curtail the beatings administered by and for the amusement of the guards and his captors. Together, they take off for the human realm, and their adventure is thrilling, horrifying and heart-warming in equal measure. Gorgeous!

I can't even tell you how amazing it felt to be back in the Green. Jessica Gadziala has once again created an amazing entertaining beautiful story that I never wanted to end. Amy and Drake are such a great couple and I loved being on their journey with them. If you are into fantasy/paranormal or even just a really fantastic read I highly suggest both of these books. I am DYING for Jet and Kieran to have their own stories told as well as many other who we got to meet and spend time with. PLEASE GO READ THIS!

#### **So happy to go back to the Green**

I loved these two - Drake and Amy - when they were introduced in the first book, Into the Green, and I have waited impatiently for their story ever since. The world Jessica has created is rich and beautiful, her characters capturing the heart and the imagination. I am in love with the draca and the Seelie Court - and also fascinated by Jet, the Dark Prince. I am hoping for his story one day, and Smoky's and Sal's and Jade's and Doyle's and...you get the idea.

If you are a fan of her Navesink Bank and/or Stars Landing series and haven't ventured much beyond those, take a chance. Read Into the Green and this book - if you don't, you are missing out.

Amy and Drake ??

I am so happy to finally continue the journey in the Green. I absolutely love this mythical world that Jessica created. I have waited forever for Amy and Drake. Amy is just so brave and strong with such a good heart. Drake despite being a prisoner and being abused for years is still so good. He has such a good heart. I love the journey they take in this book. The build up of their relationship. The supporting cast were amazing. I loved Smokey and all her prickly personality. And Sal and his obvious love and patience for Smokey. Tsar and Raisa too. I hope all of these characters get a story to. As for the ending I can't wait to find out what happens amongst the courts. I highly recommend this series to PNR fans. I loved getting lost in the world of the Green.

Be warned this review will probably be a hot mess. It's nothing new for me but when I'm excited it tends to get a tad mumble jumble ha!.

I'm so grateful I waited to read Into The Green because I'm fortunate enough to have not waited long for this story!. It's been a long time coming and I can understand the anticipation for it because just what a series this

is turning out to be and it's only two stories in.

Finally it's Drake and Amethyst's story and holy cow Jessica doesn't disappoint.

Drake having been held captive for **YEARS!** Has lost any and all concept of time and reality. His life truly hasn't been his for so long he doesn't even remember a life not being owned. Yet despite the hardships and yes that man went through absolute **HELL!**... they did not break him. Being stripped of everything will scar you in ways you cannot imagine yet his unwavering determination to not break held him together despite being beaten and regardless of his appearance he was solid. Scarred but not broken.

Amethyst is for sure the underdog. For so long she has been but a mere shadow in the corner. Always underestimated and forever overlooked for being the innocent incapable child. Boy did they get her wrong. She isn't bold or self assured but she's definitely the silent kind of strong, The best kind of good and the sweetest gentle there is. A heart of gold she couldn't leave knowing Drake was there so she got him out risking everything and despite knowing the consequences proved herself to be not only selfless but pretty darn courageous.

Despite their differences they both suffered and while they didn't break they didn't get to leave unscathed. Their journey wasn't ever going to be easy but I'm pleasantly surprised at the path in which it took them. It's a story of learning, understanding, Growth and confidence. The chemistry between the characters is palpable from the start building slow and steady at a great pace that was perfect for them. Nothing is rushed and glossed over instead we get to really understand them individually aswell as together making it more believable and easy to relate to. Its sweet and gentle and everything that fits them.

The story isn't a crazy action packed plot. It's slow in its build but spot on in the delivery. I loved getting to know them whilst they got to know themselves and eachother. It's refreshing to not have to have a tonne of drama because it wasn't needed. But was more so focused on the main characters with the drama being in the background sort of. I especially enjoyed the side characters! I love me some new faces especially in the form of a snarky fierce female and a windup merchant alpha!. Smoky and Sal brought that light humorous element despite the shitty situation and personal dramas I found myself so intrigued by them and what's to come with their stor(y)/ies). I'm gunning for Jet!!! I want his story and I'm praying he's getting one!.

**(PLEASEPLEASEPLEASE)** Because there is definitely more than meets the eye with him and I do love me an asshole alpha who's redeemed or even just finds someone to love him for all his assholishness. I also have a feeling he'd be my new favourite.. there's just something that's making me gravitate to him.

So round this shindig up I loved it!. It's not all a bed of roses but what story worth while is?. I love this world Jessica has created! It's so refreshing to have a magical place to go to escape the shitty reality. The plot is a slow burner that as far as I can tell will continue throughout the books. Whilst we get the main characters story and their part in this world it seems like the possibilities are endless right now which is exciting for the future.

Also that epilogue was so fucking sweet I can't even. I'm so glad they got that HEA the way they did and their story was perfect for them. I can't love it anymore than I do.

I kindly received this ARC from the author in exchange for an honest review.

I was Super Excited to get a second book in the Green Series. This series is different than a typical fae book. I Loved Escape From the Green! It was so well written, and was a perfect fit to continue the story. And at same time, you get a different perspective of the Green. I didn't expect the book to be about Amy. But she was the perfect person to continue the story. And Drake was a great match for her storyline. He was so sweet and after what you see him go through in the first book, you really feel for him. I loved all the new characters introduced throughout this story. I would not complain at all if we got to see more of them! This is book that should be read! It is entertaining, and exciting, and definitely sexy!
