## Meigan says

Gosh, I miss Jackie and her wayward bunch :)

This is the prequel for the first book of the series, Gentlemen Prefer Succubi. While the story of how Jackie became changed is explained in the first book, this novella explains the whole story, complete with how she used to look before becoming the red haired bombshell she is now (and of course how she ended up in the dumpster). Naturally, both Zane and Noah are in the novella since they were instrumental in turning Jackie into a succubus.

### MY REVIEW

I downloaded this mini-novella prequel from Amazon.co.uk free!

This book is basically the story of how Jackie Brighton was turned into a succubus. It begins with Jackie sat in the office at work, waiting to hear if she has got her dream job, the one she has been working for, for two years. Actually Jackie is told that she hasn't got the job. Even though Jackie has the academic qualifications needed for the job she is passed over.

So Jackie's mood is what you would probably say is low. She decides to go to the pub and drink her troubles away. Finally she is asked to leave as she has drunk enough! Jackie leaves the pub and then makes the decision that changes her life. She decides to take a shortcut down an alley and meets a mysterious man.....the man who will become her master. I don't want to go into anymore detail as I think you should read this for yourselves

So did I enjoy the book? Yes, Would I recommend the book? Yes, even though the title suggest, it is not steamy really, yes there's sex but it's not detailed or done in a really graphic way. (Hope that makes sense) Would I read more of the series? I'd give it a go yes. Would I read more by Jill Myles?...mm.. Yes.

This series was recommended to me by Meigan. I decided to dip my toe reading this short 16 page prequel to the series. It totally peaked my interest & I look forward to reading book 1 in this series. :) I rate this 4 stars

This book counts towards two of my 2014 YouTube Read A Thone challenge .

1 Book with red in the cover.

2 Book recommended by a friend.

Short and sweet. I'm curious now to start this series.

I've been wanting to try the Succubus Diaries series for a while now so when I saw this free prequel novella was available on the Kindle I jumped at the chance to read it.

Although this is described as a prequel I didn't find it made much sense to me. It's a very short story, I didn't know who any of the characters were & I didn't really get what was going on most of the time.

I'd say it would probably be better to wait until you've read at least the first book before picking this up & hopefully then it would have more meaning. It doesn't really work as an introduction to the series & characters.

I'm still planning on trying the series & will probably revisit this novella when I have read book 1. I suspect I'll like it more then because I'll understand it more

Having already read book 1 in the series, I really enjoyed Foreplay. If you haven't, then it's definitely the best place to start as it gives you a bit of background information on how Jackie managed to get herself turned into a succubus while being down on her luck.

Talk about having the worst day of your life? You get passed over for a job promotion, because of your looks basically, you try to drown your sorrows away in 2 martinis or 8. And then you are bitten by a vampire! And you manage to end up having hot amazing sex with a total sexy stranger... all night long!

But then somehow you find yourself in a dumpster, in an alley, and you're supposed to believe that you're now a succubus, who had sex with a fallen angel. Ha! As if!

Oh the tough life of a succubus who doesn't know what the hell she is!

This was a short, cute and very entertaining read. You'll want to read more about Jackie and Noah ;)

Depois de lhe ter sido negada a promoção, que tanto tinha trabalhado para ter, Jackie decide ir para um bar afogar as mágoas em álcool. Ao sair do bar, já bastante embriagada, é mordida por um vampiro que de certa forma se entenece com Jackie e, sabendo que a sua dentada tinha aumentado a libido dela, decide levá-la até

Noah, para que esta se transforme numa Succubi. Noah é um anjo caído cujo castigo é matar o seu apetite sexual, que o ataca como se fosse uma fome, uma vez por mês. Quando Jackie vai ter com ele, tão ansiosa por sexo, exactamente no dia em que ele mais precisa, Noah não se recusa. Assim, Jackie, quando regressa ao vampiro, que acaba por a deixar num contentor, começa a morrer para a sua vida mortal e a nascer para ser uma Succubi.

## **Tutti Dolci says**

I read *Foreplay* in a quick sitting while dinner was cooking, and have to say that it is a brilliant way to get people motivated into reading the series. :)

I've had the *Succubus Diaries* books in my possession for a couple of months, always promising myself to read them next, and always getting distracted by something else - you know how the fast paced Goodreads world of "What's the next hottest read?" can totally pull you away from one book to read another that *just* got added to your TBR list? - well, that seemed to happen a lot as of late. And, unfortunately, I ended up forgetting about the sexy-as-all-get-out guys on the *Succubus Diaries* covers. (Sorry Jill Myles!)

Well, forgotten no more.

*Foreplay* just gave me a glimpse into what I've been missing and I'm totally ready to read the series - right now.

*Oh, wait. Dinner's ready. Okay, okay...I'll be reading it once I'm done checking the kids' homework and loading the dishwasher after dinner. Damn it, don't these people know that I've got a hot series that I need to get to readin'? :P*

## **Kathy Davie says**

This is a prequel to the *Succubus Diaries*. Fourteen whole pages of prequel (268 on the Kindle). Please note that I am giving this book a "4" for the great writing and I'm trying not to let my pissiness get in the way.

I received this eBook from the author.

### **My Take**

Myles is a very good writer, and I still feel gypped on this. It's only as long as a start into a chapter, but the amazing part is how much story Myles managed to tell in this extremely short book without actually giving anything away. Just enough to hook ya.

And I have to confess that as curious as I am as to what happens next, I'm too irritated to want to pursue it with the actual start, *Gentlemen Prefer Succubi*. I'm suspicious that Myles will throw me 28 pages for a full-length novel.

Why would a docent expect to get a job as a museum coordinator? Am I totally ignorant of what docents do in a museum?

Myles made good use of Jackie's drunkenness to set her up for whatever is coming next. It's also a good excuse as to why she doesn't tell us what's going on.

The only way I know there's a succubus involved is through the series name. At least...I'm assuming there's a succubus. Maybe by chapter 3...?

### **The Story**

All her dreams are smashed. Two years of putting up with her boss, no raise, all in the hopes of snagging her dream job as the Museum Coordinator.

Nine martinis later, Jackie is still feeling the pain until she meets up with that pretty flare of light in the alley.

### **The Characters**

**Jacqueline** has worked as a docent at the museum for two years while she's worked on her bachelor's in art history. She already has a masters in archeological studies.

**Julianna** is her jerk of a boss.

**Noah** is who the man in the alley takes her to meet.

### **The Cover**

Damn, she looks cold on the cover, sitting all a'tilt in that office chair in someone's dark grey basement. A pair of black panties and high-heeled shoes are her only covering besides a fall of bright red hair.

Yup, it's *Foreplay* all right. And both Jackie and I got screwed (even though I didn't pay anything for this eBook).

### **Kym says**

Decent buildup for the first book. We get to know what type of people we are dealing with, to a very small extent. Maybe reading the series won't be so bad. However, this little snippet doesn't give enough to allow me to judge my feelings on it. There is no base, nothing to tell me what the story may be about.

### **Kelly Russell says**

not sure how I'm supposed to feel...read in 15 minutes, been thinking about it as long...not sure if I'll read more....strange, very strange.

Very Good Jill! You got me :)

Right from the get go I identified with Jacqueline as she was passed for promotion for a firmer, younger, not as educated young lady. (as I recently went through this same thing at work)

Later at the club – after the eighth martini she leaves to wonder into an alley and meet a tall dark vampire. He bits her after he seems to recognize her. Hmm is that a reincarnation maybe? Oh and he continues to call her Princess? [thinking]

page 16 – he says;

“You remind me of someone...

“I’m afraid that’s going to be your undoing.”

“I hope you’ll forgive me someday.”

then he says “All part of the plan, Princess”

as he takes her to a man at another club.. so this seems planned ... doesn’t it?

I believe that is Jill’s reason for this prequel ... so we know that Zane had a motive from the beginning. He set Noah up .. as he was fulfilling his curse.

Wow did they have awesome... mind blowing sex. :D

Next morning she goes back to the vampire as he compelled her to and he then finishes her. When he bites her again draining her.. he says.. “Fate has brought you back to me.”

“he then kisses her cheek as he places her in dumpster.

## **Jackie says**

Another lovely free read for my NOOK App today, short novella prequel to Too short to really say much about this Novella which takes place prior to "Gentlemen Prefer Succubi" but it details the night Jackie Brighton is turned from a rather geeky, overly plump human female into a totally flamboyant and lusciously sexy femme fatale! Hot vampire Zane happens to be outside the bar where Jackie was busy getting smashed after being passed over for a longed for and much needed promotion at work.... When he helps her to her feet after she drunkenly sprawls on the ground at his the die is set, he drinks her blood setting her afire with lust and then he takes her to another bar where he points her towards Noah. Jackie and Noah spend the day having very steamy sex and when she wakes up that evening she returns to the alley where she met Zane fully intending to pick up her purse from him... Once again he drinks her blood and then as she passes out puts her in a trash Dumpster and closes the lid...

This prequel was both illuminating and at the same time in my mind raised more questions... Fun and easy fast short little read that sets story up perfectly as it continues on in book 1 of The Succubus Diaries series by Jill Myles.... You will love it buy the books starting with this one !!!!

Jackie has had a horrible day. She got passed over for a promotion. And she feels so sad and desperate.

And then she has the strangest night. After 5-6-7 martinis (who counts?), she is already drunk.

And then a stranger bites her at a dark alley and gets her purse.

And then she has sex with another stranger because the first stranger told her to do it.

When the morning comes Jackie is bitten again and is left at a dumpster totally disoriented.

*“Wait,” I croaked, as the lid began to close. “Why are you doing this?” He grinned down at me, a rakish smile crossing his face.*

*“My dear, where else would one hide a body?”*

This short novel is like an introduction to the series, which I will definitely continue because it looks good. Jackie seems like a sweet funny girl. And the biting stranger is intriguing.

*“I’ve got an entirely new world to show you, Princess.”*

## **Literary Ames {Against GR Censorship} says**

Slightly confusing if you've never read this series before. If the word "succubus" hadn't been in the title I might've been completely lost. I'm going to assume the man that bit her was a vampire but I'm not certain because I'm not sure if he broke the skin. Anyway, how a vampire bite makes one a succubus, I don't know. Seems rather silly to me. There'll be hundreds of succubi around in no time.
