Hard Choices Allison Leigh

"TRUTH RISES, ANNIE. STOP TRYING TO FIND IT THE HARD WAY."

Annie Hess knew that the roiling clouds overhead had nothing to do with the storm that had already arrived. First the secret daughter she'd turned over to her brother to raise showed up, looking for answers. Then her brother sent Logan Drake, who'd scorned her youthful advances, to retrieve the girl! As Logan provided Annie shelter from the fierce winds raging outside, this former wild child saw how hollow her seemingly perfect life was. But when her secret came out, could the hard choices Annie and Logan had once made for love now lead them to everlasting happiness?
