## **Joshua** Jennifer Foor

They say without the support from his family, a man is lost.

My parents have been pushing me to make the right choices throughout my life. Instead of taking their advice, I've gone against their guidance more times than I care to admit.

Now I've done the unthinkable; something they would never approve of.

I'm involved with a beautiful, compassionate woman, but I've also been in a complicated relationship with her best friend on and off for several years.

I don't know how it's possible, but I have deep feelings for both.

Now one of them is pregnant.

My choice should be easy, but nothing ever is, at least not in my experience.

I want to reach out to my family, but I already know they'd tell me I screwed up, just like in the past.

I have to figure this out.

A choice will be made.

Hearts will be broken, and one of them will most definitely be mine.

I'm Joshua Healy, and this is exactly what I deserve.

## **Wit & Wonder Books says**

**\*\* ARC provided by the Author for an honest review \*\***

The Mitchell | Healy Series comes to a close with the latest installment, Joshua. Jennifer Foor did a fantastic job in closing the chapter on one of my all time favorite Series. I have read and re read every single one since the start and in doing so have to come to love them. This gifted author has ALWAYS kept up the bar and even raised it in every single book. The characters remained true and the story lines always unexpected, enticing and beautifully written.

Joshua has his hands full and is in one heap of a predicament. The past comes crashing into the future and relationships will be tested.

What does one do when the person they thought they have loved since forever turns out to be an illusion? Joshua is head strong, sexy, funny and full of himself. A chance encounter turns out to be the turning point for him. When beautiful, smart and sassy Tamsyn walks into his life, all that he thought true will be tested. Together they will try each other, make the other better and break each others hearts. The question is will they will be able to repair it as well.

With the help of his family and Tamsyn, Joshua will begin to finally become the man they all want him to be. Laughter, heart ache, passion reigns true with every flip of the page.

Will Joshua finally find true love with Tamsyn or will his past Liv make a move to shatter all the progress he has made, as a man and a boyfriend.

Will the playboy get the skittish girl of his dreams or lose her forever to a love he thought was true?

You will not disappointed with the read and will be eagerly turning the pages of this sexy yet heart breaking story.

---

## **Laura's Book Addiction says**

Ok I'm just going to say it. This is my favourite book by Jennifer Foor. I truly loved every moment of the story and although the book features one of my book pet hates Jennifer pulled in back and I honestly love Joshua & Tamsyn. Having read all the Mitchell/Healy books from the start these two are my favourite couple.

---

## **Rejane says**

This is in the blurb. It put me completely off. And I said I was not going to look for her books anymore, but I

really liked her books like 2, 3 years ago and I was hoping sh would give up in the triangle/cheating plot. NOPE. So this is a note to myself to never look for this author's books again. This small sentence in the blurb made me sick.

"I'm involved with a beautiful, compassionate woman, but I've also been in a complicated relationship with her best friend on and off for several years.

I don't know how it's possible, but I have deep feelings for both. "

---

## **Jan says**

### **Wow, I love Josh Healy**

**I love this series, a big family with a great family presence and i've got to see each one of them fall in love, jennifer Foor has written a brilliant and recommended series with swoon worthy men and great characters.**

#### **A bit about the plot:**

**Tamsyn goes to college and works at her dads car dealership she finds out her boyfriend of three years has slept with her roommate and the relationship is over despite his begging her and saying it was a mistake.**

**Josh Healy never got over his childhood love Liv, so hearing she has got engaged sends him into a depression, Liv has used him for years, kept him on a leash, she was with other people but kept his hopes up, their relationship was nothing more than sex but Josh always hoped she would come to her senses and want more from him than the occasional one night stand. Josh refused to settle down, always hoping for Liv so he became a serial one night stand guy with a reputation.**

**Josh with his swagger asks Tamsyn out on a date when he meets her at the car dealership the timing for both of them is wrong but so right as they both console one another and a one night stand turns into more.**

**Both Josh and Tamsyn are a great couple the chemistry is special they become best friends as well as lovers and manwhore Josh turns into a swoon worthy and sweet talking guy.**

**You can picture there forever until Liv returns home, she hears Joshua has a girlfriend and her plotting and selfish ways come into play and things seriously gets heated.**

**The angst the drama I was seriously on edge, turning the pages frantically wanting the good bits to come, I felt each characters heartbreak, I also felt the love the passion and the joys.**

**I love Josh and tamsyn so much my emotions were all over the place I felt what each of the characters were going through and that Jennifer foor is good writing.**

**A great series, Joshua healy is told in dual pov's, a brilliant book that does lead to a hea but takes you through a rollercoaster of emotions on the journey there.**

**Josh: This is what love feels like. When it's great i feel high, and when it's bad, Im drowning without a life vest to save me.**

### **Debbie "Buried in Her TBR Pile" says**

I'm in the minority. This one was just soapy drama and angst. I didn't feel any connection to the story or characters. This one had many elements/tropes I usually like - but it read like a checklist of tropes strung together - some to create drama or angst. I skimmed quite a bit because I got bored. 2-stars.

---

### **Lu Bielefeld \*read.laugh.love\* says**

Very good story and well worth reading the book. You don't have to read the previous books to understand the story. Recommend!

---

### **Kristy & Kayla - My Person's Books says**

The Mitchell Family series is one of our all time favourite series, with Joshua the last instalment in the Mitchell/Healy series it's bittersweet.

Letting Go was the very first book we read by Jenn Foor and we were hooked on these characters the rain scene still one of Kristy's faves as well as her writing (#J4addict). Just like Letting Go, the first book in the series, Joshua had me in knots with the angst and the depth of emotion gripped my heart and squeezed tight until tears formed.

"Love is relentless. It comes in fast, but cripples you when it ends. It's beautiful and understanding. Love isn't forced. You can't make it happen. It's not planned. It's not just a set of words. It's a feeling overwhelmed by that person. It's not desperate. It's patient. It's a slow fire that keeps burning. It doesn't stop when we want it to. It's not a switch."

Josh is the youngest Healy's, he cruises through life with no direction. He has a love for video games, drinking and women, there is never a shortage of women he doesn't care for labels or commitment. Laying eyes on a gorgeous blonde at a car dealership, he wants to take her for a drive...

Tamsyn is working at the family car dealership when Josh starts putting the moves on her. His cockiness and flirty banter aren't working on her, he is upfront and straightforward, warning her that when he wants something he gets it! Tamsyn has just had her heartbroken by the man she thought was going to be her forever. Being in the right place at the right time works out well for Josh, Tamsyn needs to get away from her ex, after learning of the deceit and lies he has told her. Not only has he cheated on her with her roommate, he is also going to have a baby with her.

It's unusual waters for Josh being friends with a girl but they have a lot in common, he's usually with a girl one two three times and see you later but when he's not with Tamsyn he kind of misses her and looks forward to the next time they are together. Being in a relationship is new to Josh, he loved a girl once, his best friend Wes's sister Liv, even though she treated him badly and broke his heart he still carries feelings for her. The more time he spends with Tamsyn the more their connection and relationship as friends grows into something more, can she be enough to not want Liv anymore?

"I'm a goner. She doesn't know it yet, but she's reeling me in without effort. This woman has come out of nowhere and she's turning my life upside down, making me see there's more to women than a fast fuck. There's only one problem with knowing this; she'll never be Liv, and I'm not sure if that's a good thing, or one that could rip our new friendship to shreds."

With Liv back in town relationships are threatened and friendships are put to the test. Can Josh break the cycle of Liv being the constant go to with the lingering feelings he has or will he open his eyes and see what he really wants and needs has been right in front of him. Like Josh, Liv always gets what she wants, how far will she go now there is another woman in Josh's life?

While it's sad to see this series end, all good things must come to an end, leaving us wondering what Jenn Foor has in store for us next!

---

### **Annmarie says**

I Hate Cheating. Alcohol is NO excuse. And what resulted from the cheating?!?! After what already happened to Tam! Omg! We get his thoughts and he knew what he was doing.

Ugh.

Anyway, a HEA for the whole family and the series.

---

### **Dayreader Reviews says**

Family - that is the first word that comes to mind whenever I read one of Jenn Foor's books. The next word(s) - Sexy Cowboy. Josh Healy is the baby of the family; well, the adult baby of the family anyways. It seems like everyone around him is married and having babies. But the only woman Josh has ever loved has left town and broke his heart. And the worse part about it is no one in his family knows and can't know. His first love is also the baby sister of his best friend, who is also his brother-in-law. So, Josh is only looking for a good time.

Tamsyn isn't looking for another relationship, but a one night stand sounds just fine by her, especially when the right guy pulls up just in time - while she's confronted by her ex-boyfriend after discovering that he cheated on her with her roommate. One night...that's all it was supposed to be. But dang! That sexy cowboy just won't leave her alone. And she really doesn't want him to. But they are both in for a wild ride when his first love comes back into town and is determined to make him hers again.

I freaking love Jenn Foor's Mitchell/Healy Series! If you've never read one, you can pick up any book in the

series and just read. I love all of them, but you're not lost if you haven't read them before. The biggest thread throughout all of her stories is the tight bond and unconditional love of the family. Reading her series from the beginning, and you can see that all of the characters remember their roots, and the roots in this family run deep and strong. Jenn Foor's Joshua is a 5-star read.

---

### **L.M. Evans says**

Holly freaking cow! This was a bloody brilliant final book to the Michelle Healy Series. I am gutted its over but its been amazing journey from the very first Mitchell book in the original series right down to this the final book on the spinoff series. This has been one of my personal favourites reading what each of the cousins and siblings go through, its sad it has come to an end. Not everything can last forever, plus we can always go back to the start where it all began. As soon as this landed on my kindle I dropped what I was reading and started it, I couldn't put it down.

I have read all the Mitchell Healy Series as well as the original, so I was really excited to get my head into this book. Jennifer did not disappoint, Joshua's story is a hard one. Falling for someone who doesn't want you and holding a torch for them for years is tough for Joshua. When he hears the girl he holds a torch for has moved on, he does what he does best. But for once the object of his seduction doesn't want to fall for his charms. Just when he finally moves on his past comes back to bite him in the ass. He bit off more than he could chew.

After Colt and Noah, Joshua is my favourite. I did want to jump in the pages and give him a slap upside the head for what he did. But he did melt my heart every time he says 'Darlin' he is sweet and a charmer just like the twins and Noah. He seems to be more caring and he will do whatever it takes to not lose the one he loves. I loved this book it surpassed expectations and simply put it's the perfect ending to the brilliant series and I can't wait to read more from this author.

### **Wendy Moore says**

3.5 stars

This is a hard one for me to rate. I was better than I thought it would be. Cheating is cheating. I really would have loved a chapter with Josh and Wes talking. His sister or not she was bat shit crazy. I hate she got her own HEA.

That being said the epilogue was great way to end the series!!

---

### **michelle Shelly says**

Absolutely wonderful! I am totally in love with the Mitchell and the Healy's. I feel as though I am a part of their family. I was there when they met, fell in love, had children and grandchildren. We've read all their

stories and their children's stories. We've laughed and cried with these characters that's why this book was so hard for me. I never want these stories to end, I want to keep reading about these people because I will miss them dearly.

This is Joshua's book and just like the ones before I loved it. It was sexy and heartbreaking. I could say it's my favorite of the series but honestly I think that with every book. They are that good. The real life stories and outstanding writing is what makes these book so special. Give Joshua and the other Mitchell-Healy's a chance, you won't be disappointed.

---

### **San-Dee Keefner says**

Oh Joshua you manwhore... who came tumbling down fast! I loved that he fell hard for our h. She was everything a h should be. She stood up to the OW and she actually left the H when she found out he had cheated on her! This was such a good read for me b/c FINALLY a book that the crazy OW who tried to cause so much trouble got what she had coming to her! YES, YES, YES!!!!

---

### **Maria Angie Mendoza says**

Sweet, funny, fast paced romance with a lot of angst, that had me turning the pages to find out what these characters were going to do next. This was my first read in this series but it didn't spoil the story at all! The characters were well developed and likable.

Cowboy and ultimate playboy Joshua is drifting through life, trying hard to dismiss losing his first love. A chance visit at a car dealership, introduced him to Tamsyn, who's mourning the loss of her breakup of 3 years. His cocky attempt to pick her up turns in to the ultimate challenge. Then his first love returns for a do over.

The real challenge becomes when they're forced to move forward as a couple or does he go back to his first love? You'll have to find out!

---

### **Lisa Rockin' Between The Sheets Reviews says**

I was given an ARC for a honest review, here it goes:

I Started reading J4 with The Mitchell Series and fell in love. I remember sending her messages just raving about the books. This entire family The Mitchell's and Healy's have stolen my heart and never let it go. They all are character's that are truly real, well developed, and funny as well! I love reading their antics. And let's not forget how J4 puts the sizzle in the bedroom, barn, cars, shell on any available surface. She has such great talent, I follow all of her releases.

Let me just say that Joshua is one of my favorites of all the Mitchell Healey children. He is so beautifully damaged because he has loved the wrong woman all of his life. I can relate to this on a personal level, because I wasted years of my life the same way. Settling for what they gave instead of what I was worth. Josh did the same thing from adolescence to manhood. To fill the void Liv left he had distractions.

Enter Tamsyn, beautiful and smart. She Has a plan for what she wants in life and she is working her ass off to get it. Then her world gets rocked. Her douches fiance cheats on her and knocks up her room mate.

Devastated she puts on her brave face and works her part time job and school.

A chance encounter with Josh on a test drive, he lays down his best pick up lines. Tamsyn being the bad ass she is blows all of them off. This shocks Josh, but makes him even more intrigued. The same old BS won't fly with this gorgeous woman.

Does Josh finally win the heart of Tamsyn, or does Liv finally wake up and steal Tamsyn's possible happy ever after?

---
