**Just Breathe** Vincent Morrone

Just Breathe Blurb:

(TRIGGER WARNING: This content deals with an account of sexual assault and may be triggering to some people.)

When Cassie Shaw looks at Noah Hunt, she sees a knight in shining armor, but she's convinced he sees her as nothing but damaged goods.

Noah saved her from a brutal assault, talked her through a panic attack, and held her when she broke down crying.

Noah is a mystery. He avoids talking about his past, his phone rings with calls from four women he won't talk about, and he receives texts from over a dozen more. To add to the intrigue, when Cassie tries to kiss him, he gets a look of sheer panic in his eyes.

Cassie finally finds a chink in Noah's armor, and realizes that he's even more damaged than she is.

He saved her.

Now it's her turn to save him.

## From Reader Review Just Breathe for online ebook

### Christine says

DNF

The writing did not flow for me. The premise was very good but it was executed poorly. Cassie is about to get assaulted when Noah steps in and saves her. Cassie suffers from panic attacks after she witnessed her mother being raped and murdered at the age of 12. Noah has his own secrets. Cassie feels that she is always seen as weak. I personally think she just put that it her head to feel sorry for herself.

I felt like the first quarter of the book was Cassie was talking to her friends about whether Noah liked her or not. It got old fast. "Does he like me or does he want to be friends?" Cassie was going to be a freshman in college. The dialogue and actions of these characters felt awkward and immature. The friends annoyed me by having an opinion about everything and it all felt more like junior high than college behavior.

This may work for you, but it did not work for me. You may love it. I am not telling you not to read it.

---

### Mélissa says

Magnifique histoire, que d'émotions ! J'ai adoré Noah, quel homme ! Sans parler de la couverture qui est sublime. À lire absolument !

---

### Ashley says

[This book deals heavily with rape....not just an attempted rape at the beginning of the book, but about several acts

---

### McKenzie Templeton says

Vincent Morrone never disappoints, as this is also shown in his latest work, Just Breathe, a dramatic and romantic thriller about redemption and love beyond flaws.

This novel absolutely blew me away. Every time I had to bookmark it and put it down, I was already looking forward to picking it back up again. It's original and full of moments that put you on the edge of your seat, throwing plot twists at you that you never see coming. Although there is a great amount of tragedy, heartache and pain in this novel, there is also a great amount of love and romance to be read. This novel is a delightful mix of drama, action, and romance, and definitely a novel I will not be forgetting anytime soon.

The characters in this novel are all one of a kind. I loved the inner conflicts and emotional problems that arose from between characters, and the fact that each and every single character had a unique story and personality. This individuality in the novel came as a surprise to me, as most novels I have read do not have

this amount of detail within it. You either hate or love each character, but no matter what, the drama they create is always addicting and suspenseful.

The writing (like always) is outstanding. Morrone has a grand talent for writing with a "no-bull" initiative. There is no useless dialogue, no filler descriptions, no boring pointless rambling as many authors fail to eliminate from their writing. Morrone writes simply and effortlessly, skillfully creating novels with perfect description and details, yet saving us from lengthy pointless writing. It's unique, suspenseful, and addicting.

Overall, this novel quickly became one of my favorites. The plot was unique and fresh, the characters were raw and addicting, and the writing was spectacular. A must-read for anyone.

\*\*\*\*\*4.5 Moving Forward Stars\*\*\*\*\*

This book was a wonderful surprise. Phenomenal writing and storytelling.

This story has it all...suspense, love, hate, heroes and survivors and some extremely heartbreaking soul shattering violence. However through it all the strength, courage and trust bring the book completely together.

Noah has had a childhood that horror movies are made from and yet he is strong, determined and courageous. With everything he has gone through and all that he still goes through is to help everyone around him. He has to be one of the most selfless character I have read about.

Cassie is also another strong character. She has overcome witnessing a very horrific, violent and devastating act of violence within her own family. She is outgoing and even after being attacked she still puts others before herself. When Noah saves her, she also sees that she can do the same for him and reading their story unfolds is beautiful.

Loved all the supporting characters and the parts they played with the main characters. The epilogue was perfect for this book. Thank you Vincent Morrone for an amazing story.

### Khristina Chess says

#### A Good Mystery

Just Breathe is a good book--fast-paced and interesting. The "secret" was a surprise. I would recommend this book to anyone who wants a love story/mystery that entertains.

---

## **Cyndi Brent says**

### **Just breathe**

What a wonderful book. Couldn't help but to fall in love with all the characters but especially Noah. This book has a little bit of everything...mystery, secrets, suspense, friends and of course a beautiful love story. I have to say this is definitely in my list of faves!!!!

---

## **Jessica says**

The synopsis of this book puts it right up my alley but the dialogue and overall writing ruined it. So page one is female mc talking about her panic attacks...which ok she's an assault victim I understand. Except the assault from the blurb hasn't happened yet and you don't actually find out the cause of the panic attacks till the 10% mark. Annoying but I pressed on. The dialogue was incredibly awkward and the descriptions were overly repetitive. Also they failed to capitalize a proper noun. The overall all feel of the book was very new adult which I'm not a huge fan of but the deciding factor is when she's talking about the original traumatic incident and she starts talking about Tyler. Who the hell is he? this is like 20% in and there's this wholenew character that's never been mentioned before. Since life's too short for bad books I decided to go ahead and take the loss on this one

---

## **Anna Bastow says**

Just Breathe and prepare the tissues.

Awesome love story surrounded by the harsh realities of the evil that lurks in the heart of some men. Is one of the first books that tackles the issue of rape in both college campus and in urban settings. Mixing the relevant stories of women victims of violence we had seen polluting the news are sadly filled recently. A story of courage and survival, a reminder of the precious gift a peaceful life is. You won't forget this tale.

---

## **Karen BookAddict says**

Lu d'une traite sur recommandation d'une amie, dévoré et adoré ! J'ai tout adoré aussi bien l'histoire que les personnages. L'écriture est profonde et addictive et il nous est impossible de relâcher le roman une fois commencé.

Certes cela peut sembler trop au 1er abord, trop de malheurs combinés pour deux personnes qui se rencontrent, on le sait mais on passe outre pour savourer l'histoire.

On passe notre temps à nous demander ce qui a bien pu arriver à Noah, on imagine des choses pour au final être bien loin de la réalité... Ce héros est juste PARFAIT : beau, gentil, généreux, altruiste, intelligent... Il est le fruit de son passé et on l'adore pour ça, pour avoir survécu et être devenu ce qu'il est aujourd'hui.

A lire !

---

## **Abbie says**

Both the main characters in this were really strong, and I really liked them.

I felt sorry for Cassie, as what she had to see when she was younger would have been awful. I felt even more sorry for Noah, as what he went through all those years was absolutely horrific.

They made such a good couple!

This was a really good read, and it had me tearing up quite a few times!

## **B.J.Green says**

### **Great story**

I have rarely given a 5 star rating, in fact if I can't say something really good about a book, I usually will not give a review at all. The only thing stopping me from giving this a 5 star rating is whomever proofread this did a disservice to the writer, so many sentences that made no sense, distracted from the story lines. I would love to proofread for this author. Surprised by the ending, I never had a clue who was at the door. Great book despite the proofreading.

---

## **Lauren says**

It was an okay book. It wasn't good or great, it was just decent. It would have been so much better if it didn't have so many spelling and grammar mistakes, and I suck at spelling and grammar, so if I can point them out it must be pretty bad. I liked the story line, but I don't think it quite lived up to its potential.

---

## **Callixta says**

Voilà un roman trompeusement prévisible qui vous emporte bien plus loin que le résumé du départ et suscite pas mal de questions et de réflexions. Cela commence de façon hyper classique mais cela se complique nettement ensuite et si le thème de l'abus et de l'agression sexuels sont aux cœur du roman, ce n'est pas abordé comme souvent.

La scène d'entrée est donc assez connue dans la romance NA. Cassie est une jeune femme qui a connu déjà pas mal de problèmes et est plutôt craintive et prudente. Le titre du roman fait allusion d'ailleurs à ses fréquentes crises d'angoisse qui l'obligent à surveiller sa respiration. Un soir, sur le chemin du retour, elle va être agressée et sauvée in extremis par un jeune homme qui a tout du chevalier à l'armure étincelante. Noah s'interpose, la libère. Il est jeune, séduisant, passionnant et gentil. cela pourrait être le début d'une histoire d'amour comme on en voit beaucoup dans la romance mais cela va se révéler un peu plus compliqué. Il apparaît très vite qu'il est très réservé et cache de lourds secrets.

**Pauline Norris says**

Wow ..... Just wow! This is a book that will stay with me for a long time. Why? Well .... To know that people go through horrific things like that (and survive) on a daily basis is truly heartbreaking. This story was horrific at times but also so gripping you couldn't put it down. All you wanted was a happy ending for Noah, Cassie and the other victims.

The book could've been proofread and edited better as it has numerous errors but that didn't distract from it at all.

This is the first book I've read by this author and almost certainly won't be the last
